Wheelock's Latin Frederic M. Wheelock, 2010-10-12 The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded: o 40 chapters with grammatical explanations and readings based on ancient Roman authors o Self-tutorial exercises with an answer key for independent study o An extensive English-Latin/ Latin-English vocabulary section o A rich selection of original Latin readings -- unlike other textbooks which contain primarily made-up Latin texts o Etymological aids Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings. o The leading self-tutorial Latin program. Also great for college and accelerated high school courses. o Wheelock's Latin is the top-selling Latin reference in the US. o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

Type, Sign, Symbol Adrian Frutiger, 1980

Adrian Frutiger - Typefaces Heidrun Osterer, Philipp Stamm, 2014-05-08 The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. All of his types - from the design phase to the marketing stage - are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture. This second, revised and expanded study edition, which now has an index, makes Frutiger's achievement even more accessible.

Signs and Symbols Adrian Frutiger, 1998 Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks.

A Greek-English Lexicon Henry George Liddell, P. G. W. Glare, 1996 The world's most authoritative dictionary of ancient Greek. The world's most comprehensive and authoritative dictionary of ancient Greek is now revised and available with a new Supplement. This major event in classical scholarship, edited by Peter Glare, is the culmination of 13 years' painstaking work overseen by a committee appointed by the British Academy, and involving the cooperation of many experts from around the world. The Main Dictionary; Liddell and Scott's Greek-English Lexicon, is the central reference work for all scholars of ancient Greek, author and text discovered up to 1940, from the 11th century BC to the Byzantine Period. The early Greek of authors such as Homer and Hesiod, Classical Greek, and the Greek Old and New Testaments are included. Each entry lists not only the definition of a word, but also its irregular inflections, and quotations from a full range of authors and sources to demonstrate usage.

Cold War Modern David Crowley, Jane Pavitt, 2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the 'push of a button'. Published to accompany a major V & A exhibition, 'Cold War Modern: Design 1945-1970', this book explores how the politics of the Cold War shaped architecture and design. Reassessing 'classic' designs and introducing many little-known objects.

How Charts Lie: Getting Smarter about Visual Information Alberto Cairo, 2019-10-15 A leading data visualization expert explores the negative—and positive—influences that charts have on our perception of truth. We've all heard that a picture is worth a thousand words, but what if we don't understand what we're looking at? Social media has made charts, infographics, and diagrams ubiquitous—and easier to share than ever. We associate charts with science and reason; the flashy visuals are both appealing and persuasive. Pie charts, maps, bar and line graphs, and scatter plots (to name a few) can better inform us, revealing patterns and trends hidden behind the numbers we encounter in our lives. In short, good charts make us smarter—if we know how to read them. However, they can also lead us astray. Charts lie in a variety of ways—displaying incomplete or inaccurate data, suggesting misleading patterns, and concealing uncertainty—or are frequently misunderstood, such as the confusing cone of uncertainty maps shown on TV every hurricane season. To make matters worse, many of us are ill-equipped to interpret the visuals that politicians, journalists, advertisers, and even our employers present each day, enabling bad actors to easily manipulate them to promote their own agendas. In *How Charts Lie*, data visualization expert Alberto Cairo teaches us to not only spot the lies in deceptive visuals, but also to take advantage of good ones to understand complex stories. Public conversations are increasingly propelled by numbers, and to make sense of them we must be able to decode and use visual information. By examining contemporary examples ranging from election-result infographics to global GDP maps and box-office record charts, *How Charts Lie* demystifies an essential new literacy, one that will make us better equipped to navigate our data-driven world.
