Designing with Smell Victoria Henshaw, Kate McLean, Dominic Medway, Chris Perkins, Gary Warnaby, 2017-10-05 Designing with Smell aims to inspire readers to actively consider smell in their work through the inclusion of case studies from around the world, highlighting the current use of smell in different cutting-edge design and artistic practices. This book provides practical guidance regarding different equipment, techniques, stages and challenges which might be encountered as part of this process. Throughout the text there is an emphasis on spatial design in numerous forms and interpretations – in the street, the studio, the theatre or exhibition space, as well as the representation of spatial relationships with smell. Contributions, originate across different geographical areas, academic disciplines and professions. This is crucial reading for students, academics and practitioners working in olfactory design.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading

his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Checkout Girl Susan Zettell, 2008 It's 1970, and the optimism of Trudeaumania is starting to give way to fears of wage and price controls. In Varnum, Ontario, where the smell of industry is the smell of money, a lot of that money's heading south, just like Bobby Orr. The Checkout Girl is the story of Kathy Rausch, whose life these days is something that just seems to happen to her. After sneaking out on her boyfriend in Vancouver, Kathy moves back to Varnum and hides out in the basement of her high school buddy, Penny Lehman, in a room she shares with Penny's skittish boa constrictor, Freddie. When Kathy isn't checking out groceries, she practices hockey drills. And when she isn't practicing, she's warding off advances from fellow basement dweller Little Barry Bender, ignoring her well-meaning mother Connie, hanging out with her best friend, champion baton twirler Darlyn Smola, and dealing a bit of marijuana for Penny's husband Pete. But when Kathy stumbles upon a brutal murder she is finally driven to put her hockey stick where her heart is: on the ice.

The Importance of Demographic and Geographical Factors on the Incidence and Outcome of Systemic Small Vessel Vasculitis Associated with Anti-Neutrophil Cytoplasmic Antibodies Maria Weiner,2019-11-04 The anti-neutrophil cytoplasmic antibody (ANCA)-associated vasculitides (AAV) comprise microscopic

polyangiitis (MPA), granulomatosis with polyangiitis (GPA) and eosinophilic granulomatosis with polyangiitis (EGPA). Two serotypes are recognized: myeloperoxidase (MPO)-ANCA and proteinase 3 (PR3)-ANCA. Renal involvement is a common and severe manifestation associated with increased mortality. The incidence varies geographically, but studies are difficult to compare due to heterogeneous methodology and inclusion criteria. AAV is commonly found in the elderly, but there are little data on outcome and optimal treatment in the highest age groups. This thesis focuses on the epidemiology of AAV: incidence, geographical distribution, and outcome. In Paper I annual incidence rates and outcome were compared between nephritis in AAV and nephritis in systemic lupus erythematosus (SLE) in two geographically defined populations in Sweden. Even though SLE is twice as common as AAV, ANCA-associated nephritis outnumbered lupus nephritis by three to one, and was significantly more severe in terms of mortality and development of end stage renal disease. In Paper II associations between ANCA serotype and geographical and demographic factors were investigated in a large multi-centre study of 1408 patients with renal biopsy-proven AAV. PR3-ANCA was associated with male gender, younger age and higher glomerular filtration rate. PR3-ANCA was also associated with higher latitude and lower ultraviolet radiation levels, but analyses of subgroups suggested that genetic rather than environmental explanations might be more important for this geographical gradient. In Paper III a consecutive cohort of 151 elderly patients with MPA and GPA was studied with a focus on treatment, mortality and renal survival. Patients who had received immunosuppressive treatment with cyclophosphamide or rituximab had better survival rates compared to less intensively treated or

untreated patients. Severely impaired renal function at diagnosis was associated with worse outcome in terms of both patient and renal survival. In Paper IV the elderly cohort was extended to 202 patients. In this study we found that treatment with cyclophosphamide or rituximab was associated with the development of less permanent organ damage, and not with higher utilization of in-hospital care. However, high doses of glucocorticoids were associated with fatal infections and treatment-related damage.

Gods, Guardians, and Lovers Vishakha N. Desai,Darielle Mason,1993 Celestial lovers, guardian deities, gods, goddesses, semidivine and human forms bedeck the magnificent, elaborately sculpted medieval temples of northern India. This handsome catalog of an exhibition at the Asia Society in New York City explains that each temple, rich in symbolism and sacred geometry, was viewed as a microcosmic model of cosmic creation and order. Led by Desai, director of the Asia Society Galleries, and Mason of Boston's Museum of Fine Arts, six scholars discuss the historical background, patterns of royal patronage, architectural placement of images and Hindu stories and hymns as keys to the cult of temple images and to the medieval worship service, an elaborate multisensory experience. Nearly 200 color and black-and-white plates document a major architectural and sculptural legacy.

The Art of Ancient India Susan L. Huntington,John C. Huntington,2014-01-01 To scholars in the field, the need for an up-to-date overview of the art of South Asia has been apparent for decades.

Although many regional and dynastic genres of Indic art are fairly well understood, the broad, overall representation of India's centuries of splendor has been lacking. The Art of Ancient India is the result of the author's aim to provide such a synthesis. Noted expert Sherman E. Lee has commented: –Not since Coomaraswamy's History of Indian and Indonesian Art (1927) has there been a survey of such completeness.” Indeed, this work restudies and reevaluates every frontier of ancient Indic art – from its prehistoric roots up to the period of Muslim rule, from the Himalayan north to the tropical south, and from the earliest extant writing through the most modern scholarship on the subject. This dynamic survey-generously complemented with 775 illustrations, including 48 in full color and numerous architectural ground plans, and detailed maps and fine drawings, and further enhanced by its guide to Sanskrit, copious notes, extensive bibliography, and glossary of South Asian art terms-is the most comprehensive and most fully illustrated study of South Asian art available. The works and monuments included in this volume have been selected not only for their artistic merit but also in order to both provide general coverage and include transitional works that furnish the key to an all encompassing view of the art. An outstanding portrayal of ancient India's highest intellectual and technical achievements, this volume is written for many audiences: scholars, for whom it provides an up-to-date background against which to examine their own areas of study; teachers and students of college level, for whom it supplies a complete summary of and a resource for their own deeper investigations into Indic art; and curious readers, for whom it gives a broad-based introduction to this fascinating area of world art.

Introducing Transformational Grammar Jamal Ouhalla, 1999 The first edition of this book quickly established itself as one of the clearest

and most readable introductions to generative grammar. This revised and expanded new edition introduces students with no previous training to Transformational Grammar. Covering the framework known as Principles and Parameters as well as the more recent framework known as Minimalism, it includes a range of new exercises, making it ideal for students at all levels.

Divine Pleasures Terence McInerney, Steven M. Kossak, Navina Najat Haidar, 2016-06-14 As one of the finest holdings of Indian art in the West, the Kronos Collections are particularly distinguished for paintings made between the sixteenth and early nineteenth centuries for the Indian royal courts in Rajasthan and the Punjab Hills. These outstanding works, many of which are published and illustrated here for the first time, are characterized by their brilliant colors and vivid, powerful depictions of scenes from Hindu epics, mystical legends, and courtly life. They also present a new way of seeking the divine through a form of personal devotion—known as bhakti—that had permeated India's Hindu community. While explaining the gods, demons, lovers, fantastical creatures, and mystical symbols that are central to literature and worship, this publication celebrates the diverse styles and traditions of Indian painting. Divine Pleasures features an informative entry for each work and two essays by scholar Terence McInerney that together outline the history of Indian painting and the Rajput courts, providing fresh insights and interpretations. Also included are a personal essay by expert and collector Steven M. Kossak and an examination of Hindu epic and myth in Mughal painting, which lays important foundations for

Rajput painting, by curator Navina Najat Haidar. Through their research and observations, the authors deepen our understanding and underscore the significance of Indian painting. Divine Pleasures presents a nuanced view of a way of life intimately tied to the seasons, the arts, and the divine.

Victorian Staffordshire Pottery Religious Figures Stephen

Duckworth,2017-10 * The first title to describe Victorian religious figures in the context of their times* A comprehensive illustrated catalog of well over 200 figures with an assessment of their dating and rarity* Individual descriptions of the figures in their biblical or historic settingsA multitude of colourful and naïve biblical and other religious pottery figures found their way into 19th century Victorian homes in Britain. They were bought by tradesmen, shop-keepers, clerks, teachers and the more skilled working class people. This book tells the story of these Staffordshire pottery figures, which sold in their thousands to stand on the mantelpieces of Christian families, both Protestant and Catholic.Three chapters provide a social history context: the religious background, an assessment of who purchased the figures, the Victorian home and how it was furnished. The final four chapters review the pottery figures themselves, which are based on the Old Testament, the New Testament, relevant religious themes and portraits of preachers. A catalogue of well over 200 figures in full colour with an assessment of their dating and rarity completes the

book. This is the first comprehensive record of Victorian religious figures placed in the context of their times.
