Academy for Health Superheroes Dr Agnes Electra Chlebinska and David W Evans 2017-04-18 Agnes is a young girl with a special gift – she is able to feel when others need help. Together with her friends, Agnes creates the Academy for Health Superheroes, where she teaches humans, animals, organs and food characters how to make the world a healthier and happier place. In the first book of the Academy for Health Superheroes series, The Heart, Jack and his father become good friends with the Junk Food Monster. But then Jack's father becomes very ill with some serious heart problems, which makes his family very sad. Luckily the Health Superheroes are here to help. Will they beat the Junk Food Monster in time to save Jack's father? Agnes and David's debut children's book uses fun characters and quirky illustrations to educate children of the importance of nutrition, exercise and positive psychology. It also contains recipes for nutritious meals and snacks for young readers to try at home. The book will appeal to readers aged 6 years and over, as well as parents and teachers wanting to encourage a healthy lifestyle in young children.

Even More Parts Tedd Arnold 2004-09-02 Chip Block, the hero of Parts, is back, and still worried about falling apart based on the things he hears. This time he's made a list of all the strange, crazy things he's heard people say: "I lost my head." "My nose is running." "I sang my heart out. . . ." It's scary stuff, but he has a plan for making sure he doesn't accidentally leave any of his parts behind. A hilarious sequel to the wildly popular Parts and More Parts.

The Book of L G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, D0L systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, D0L was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "D0L" of "DOL" could be read in the suggestive way: D0 L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

The Purple Violet of Oshaantu Neshani Andreas 2017-03-27 Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love. **Blueprint for Black Power** Amos N. Wilson 1998 Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

Maggie for Hire Kate Danley 2011-09-01 When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad. **WARNING:** This book contains cussing, brawling, and unladylike behavior. Proceed with caution. *Cervical, Breast and Prostate Cancer (Black and White)* iConcept Press 2014-07-16 Cervical cancer and breast cancer are two of the most common cancers found in women. Cervical cancer is when cancer arises from the cervix. Early on there are typically no symptoms. Later symptoms may include abnormal vaginal bleeding, pelvic pain or pain during sex. Breast cancer is when cancer develops from breast tissue. Signs of breast cancer may include a lump in the breast, a change in breast shape, dimpling of the skin, fluid coming from the nipple, or a red scaly patch of skin. Prostate cancer is when cancer develops in the prostate, a gland in the male reproductive system. It may initially cause no symptoms. In later stages it can cause difficulty urinating, blood in the urine, or pain in the pelvis, back or when urinating. This book provides some latest research and findings on breast cancer, cervical cancer and prostate cancer. The aim of this book is to serve as an important reference book for individuals working in biomedical laboratories, and for clinical professionals. There are totally 13 chapters in this book. Chapter 1 proposes an outlook on different endoscopic surgical procedures to treat cervical cancer, using traditional laparoscopy and robotics. Chapter 2 reviews the clinical results of carbon ion radiotherapy (C-ion RT) for uterine cervical cancer. Carbon-ion RT has been established as a safe short-term treatment for locally advanced uterine cervical cancer. Chapter 3 summarises chrysin inhibits proliferation, induces apoptosis and reduce angiogenesis in most tested cancer cells, including cervical cancer cells. Chapter 4 shows that involving physicians in the promotion of public health programs and initiatives is a viable option. Chapter 5 summarizes the published findings about the controversial role of METCAM, a cell adhesion molecule, in the progression of human breast cancer. Chapter 6 focuses on the biology of "neu" in breast cancer - the potential mechanisms that may contribute to tumor resistance and the numerous uncertainties that persist despite the bona-fide progress made in treating this particular subtype of breast cancer. Chapter 7 describes the mechanisms by which estrogen can exert its role in estrogenresponsive cells, focusing on specific aspects of estrogen receptor signaling. Moreover, this chapter shows how some of the proteins involved in estrogen receptor signaling can be used as predictive markers in breast cancer and describes a proposed clinical study related to the combined use of two drugs (bortezomib and tamoxifen) as therapeutic agents for estrogen receptor negative breast cancers. Chapter 8 summarizes the recent studies indicating that AngII facilitates breast cancer metastasis by contributing to the cross-talk between cancer cells and the host stroma. Chapter 9 focuses on a rationale pharmaceutical development along with a detailed understanding of biological effects so as to accelerate the incorporation of nanocarriers in breast cancer therapy. Chapter 10 summarizes the mTOR pathway and the clinical results in breast cancer treatment, relating them to results obtained using cultured MCF-7 breast cancer tamoxifen resistant sublines. Chapter 11 discusses how to develop a standard extraction method, yielding tomato products which are suitable for cell cultures, and enable product comparison of different tomato varieties. Chapter 12 describes principles and processes that are involved in investigating biological or clinical problems with nuclear magnetic resonance (NMR)

based metabolomics - an approach that involves the global analysis of metabolites. The authors use prostate cancer as a case study to outline the processes, applications and potential of metabolomics for inform scientists and clinicians. Chapter 13 discusses the epidemiology, screening, diagnosis and treatment options of prostate cancer and its association with osteoporosis.

Classic Science Fiction Editors of Canterbury Classics 2019-10-08 Classic works of speculative fiction from the earliest masters of the genre. Classic Science Fiction includes nine stories from masters of early science fiction: H. G. Wells, Jules Verne, H. P. Lovecraft, Edgar Allen Poe, Jack London, Fitz James O'Brien, Charlotte Perkins Gilman, and Stanley G. Weinbaum. The exploration of new concepts and technologies has driven the genre since its earliest days, and these works demonstrate how science fiction evolved to encompass not only speculative science but also humanity's role in the universe.

Profiles in Operations Research Arjang A. Assad 2011-06-28 Profiles in Operations Research: Pioneers and Innovators recounts the development of the field of Operations Research (OR), the science of decision making. The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations. Over the past six decades, OR analyses have impacted our daily lives: when making an airline or hotel reservation, waiting in line at a bank, getting the correctly blended fuel at the gas station, and ensuring that the book you are holding arrived at its destination on time. OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft. During World War II, similar applied research groups were formed to study, test, and evaluate military operations on both sides of the Atlantic. Their work resulted in great improvements–OR helped the Allies win the war. The scientific field that emerged from these studies was called operational research in the U.K. and operations research in the U.S. Today, OR provides a broad and powerful science to aid decision making. Profiles describes the lives and contributions of 43 OR pioneers and innovators and relates how these individuals, with varying backgrounds and diverse interests, were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals–interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines. The Editors: Arjang A. Assad is Dean of the School of Management, University at Buffalo, State University of New York. Saul I. Gass is Professor Emeritus, Department of Decision, Operations & Information Technologies, Smith School of Business, University of Maryland, College Park. From the Reviews Profiles In Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings: U.K. OR Society's e-journal, Inside OR., Sept 2011. "I can thoroughly recommend this book. I found it both enlighteningand undeniably gripping, so much so in fact, you may find it difficultto put it down once you have commenced reading it. Arjang A. Assad and Saul I. Gass have created a masterwork whichwill serve to immortalise [set] the pioneers of O.R. for many years to come." By the Waters of Liverpool Helen Forrester 2016-12 The third volume in the classic story of Helen Forrester's childhood and adolescence in poverty-stricken Liverpool during the 1930s. Helen Forrester continues the moving story of her early poverty-stricken life with an account of her teenage years and the devastating effect of the Second World War on her hometown of Liverpool. At seventeen, Helen Forrester's parents are still as irresponsible as ever, wasting money while their children still lack adequate food and clothing. But for Helen, having won a small measure of independence, things are looking up. Having educated herself at night school and now making friends in her first proper job, she meets a handsome seaman and falls in love for the first time. But the storm clouds of war are gathering and Helen will experience at first hand the horror of the blitz and the terrible toll that the war exacted on ordinary people. As ever, Helen faces the future with courage and determination.

The Cross and the Towel Tony Baron 2011-02 There is a crisis in church leadership today. Because of widespread scandals, significant power struggles within denominations and local churches, and self-serving clergy and laity, society has lost confidence in the Church as a moral voice. What is the solution? "The Cross and the Towel" provides an ancient prophetic voice in overcoming the sins within the church. It is a guidebook for pastors and church leaders who have a sincere desire to achieve God's true mission in the world. About the Author Tony Baron holds a double doctorate in psychology and theology and currently serves as president of Servant Leadership Institute at Datron World Communications, Inc., headquartered in Vista, California. An ordained Anglican priest and canon within the Anglican Mission in the Americas, Dr. Baron teaches leadership, pastoral ministry, and Anglican studies at Azusa Pacific University School of Theology. A past regional director within the Order of St. Luke Healing Ministry, Dr. Baron is board certified in forensic medicine, is a diplomate of the American Board of Psychological Specialties, and consults with leaders around the world on how to live for the sake of others. He is also the author of "The Art of Servant Leadership: Designing Your Organization for the Sake of Others."

White Clay Lucy Dougan 2007 This new collection from Lucy Dougan travels deep into the heart of an intensely lived-in world. Flowers, children, books, clothing and weddings appear and reappear. A complex awareness of family life is at the heart of these poems, which balance heightened emotion with visual detail, to give a sense of being earthed, and at the same time, of floating free.

Violet Sapphire Ashley Mayers 2016-04-20 "My name is Shanti Rutherford Patel Vishravan, and I am a keeper of secrets..." Too many secrets have been kept by Supriya's mysteriously cold mother over the years. Now, as the clock ticks imminently closer to an epic confrontation, Supriya is forced to admit that still she doesn't know anywhere close to enough about her family's dark past. But, as the game of cat and mouse with the monstrous villain plows forward into the next round, and a new dangerous adversary begins a deadly hunt, will Shanti's dishonesty leave Supriya and her heroic allies ripe for the capture? As Supriya's surprisingly mundane freshman year in college descends into apocalyptic chaos, her mother's shocking confessional of love, loss, and lies serves as a riveting prequel that will change absolutely everything.

Kasher in the Rye Moshe Kasher 2012-03-28 Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanlysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Water+Ink Coloring Book Winter 2020 Kim Winberry 2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding add swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and "zap" the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.
