**Nicolás Guagnini: Theatre of the Self** Alaina Claire Feldman 2020-10-08 Nicolás Guagnini: Theatre of the Self is a hybrid catalogue-reader based on the exhibition of the multi-threaded performances of Buenos Aires-born New York-based Guagnini. Many of these works, spanning from 2005 until 2019, have never been seen before or have not been seen since their original live presentation. Raised in Argentina during the "Dirty War" and violent military dictatorship, Guagnini moved to New York in the late 1990s and co-founded the film production company Union Gaucha Productions with Karin Schneider in 1997. In 2005 Guagnini became co-founder of Orchard Gallery, an artist cooperative based on the Lower East Side. The work in Theatre of the Self is informed in part by autobiography, history, politics and through Guagnini's community itself. Some performances were participatory, some were not. But all were made polyvocally in collaboration with a group of artists with shared interests and concerns around performance and the moving image including Ei Arakawa, Leigh Ledare, Jeff Preiss, Aura Rosenberg, Karin Schneider among others. This publication invites internationally acclaimed art historians, curators and artists to think about the material in Guagnini's work within a unique format. Readers of the publication will be interested in contemporary art, film, political science, performance studies, and Latin American studies.

**The Handbook of Ordinary Heroes** Jigme Rinpoche 2019-09-03 Buddhism is said to be universal because it transcends all notions of time and culture. A French shepherd from the Middle Ages can apply it just as easily as a Singaporean businessman from the twenty-first century. The Buddha's teachings offer a method for

understanding how to be and how to act--in other words, how to live our humanity while taking care of ourselves and others. The heroes referred to in this book are ordinary beings like us who choose to develop as individuals through their understanding and application of kindness and compassion. These heroes are bodhisattvas who wish for all beings to meet with lasting happiness and to experience protection from all causes for unhappiness. This handbook provides accessible explanations of what it means to live like a bodhisattva and offers a series of simple exercises directly related to daily life. It gives us key points for facing the difficulties we encounter in a new way and perceiving our lives according to altruistic values. Born in Tibet in 1949, Lama Jigme Rinpoche grew up and received his education with the principal teachers of the Kagyu lineage of Tibetan Buddhism. The Sixteenth Karmapa named Lama Jigme Rinpoche as his official representative and the spiritual director of Dhagpo Kagyu Ling in France. Ever since, Lama Jigme Rinpoche has filled this role. Strengthened by many years of experience in the West, his unique and modern approach renders the Buddha's millennia-old wisdom accessible and allows students to apply it concretely in daily twenty-first-century life.

**Hokusai and His Age** Hokusai Katsushika 2005 This profusely illustrated volume presents groundbreaking scholarship on the Ukiyo-e artist Katsushika Hokusai (1760-1849) and his immediate artistic and literary circles. Achieving worldwide renown for his dramatic landscape print series, such as the "Thirty-six Views of Mt. Fuji," Hokusai also excelled in book illustrations, erotica, and privately commissioned woodcuts called "surimono." Aspects of the artist's innovative and novel approach to the graphic arts are discussed in the first half of this volume. Less well known, Hokusai was a highly accomplished painter who oversaw a studio of several close pupils, including his daughter Ti, who often worked in a style closely resembling his own. The study of Hokusai's corpus of paintings thus raises many complex issues of authorship, dating and authenticity -- further complicated by the abundant production of forgeries both during and after his lifetime. An appendix of recognized Hokusai seals helps further clarify this aspect of the artist's work. The distinguished roster of contributors includes: Asano Shugo, Gian Carlo Calza, John T. Carpenter, Timothy T. Clark, Doris Croissant, Kobayashi Tadashi, Kubota Kazuhiro Roger Keyes, Matsudaira Susumu, Matthi Forrer, Naito Masato, David Pollack, John M. Rosenfield, Timon Screech, Segi Shin'ichi, Henry D. Smith II, and Tsuji Nobuo. The publication is sponsored by the International Hokusai Research Centre at the University of Venice and the Sainsbury Institute for the Study of Japanese Arts and Cultures (SJSJAC), London and Norwich.

**Performing Illusions** Dan R. North 2008 The camera supposedly never lies, yet film's ability to frame, cut and reconstruct all that passed before its lens made cinema the pre-eminent medium of visual illusion and revelation from the early twentieth century onwards. This volume examines film's creative history of special effects and trickery, encompassing everything from George Méliès' first trick films to the modern CGI era. Evaluating movements towards the use of computer-generated 'synthespians' in films such as Final Fantasy: the Spirits Within (2001), this title suggests that cinematic effects should be understood not as attempts to perfectly mimic real life, but as constructions of substitute realities, situating them in the cultural lineage of the stage performers and illusionists and of the nineteenth century. With analyses of films such as Destination Moon (1950), Spider-Man (2002) and the King Kong films (1933 and 2006), this new volume provides an insight into cinema's capacity to perform illusions.

**Organizations and Unusual Routines** Ronald E. Rice 2010-10-07 Everyone working in and with organizations will, from time to time, experience frustrations and problems when trying to accomplish tasks that are a required part of their role. This is an unusual routine - a recurrent interaction pattern in which someone encounters a problem when trying to accomplish normal activities by following standard organizational procedures and then becomes enmeshed in wasteful and even harmful subroutines while trying to resolve the initial problem. They are unusual because they are not intended or beneficial, and because they are generally pervasive but individually infrequent. They are routines because they become systematic as well as embedded in ordinary functions. Using a wide range of case studies and interdisciplinary research, this book provides researchers and practitioners with a new vocabulary for identifying, understanding, and dealing with this pervasive organizational phenomenon, in order to improve worker and customer satisfaction as well as organizational performance.

**Death and Dying in America** Andrea Fontana 2009-07-20 This engaging new book takes a fresh approach to the major topics surrounding the processes and rituals of death and dying in the United States. It emphasizes

individual experiences and personal reactions to death as well as placing mortality within a wider social context, drawing on theoretical frameworks, empirical research and popular culture. Throughout the text the authors highlight the importance of two key factors in American society which determine who dies and under what circumstances: persistent social inequality and the American consumerist ethic. These features are explored through a discussion of topics ranging from debates about euthanasia to deaths resulting from war and terrorism; from the death of a child to children's experience of grieving and bereavement; and from beliefs about life after death to more practical issues such as the disposal of the dead body. Drawing on sociological, anthropological, philosophical, and historical research the authors present the salient features of death and dying for upper-level students across the social sciences. For anyone interested in learning more about the end of life, this book will provide a useful and accessible perspective on the uniquely American understanding of death and dying.
