Diversity in Disney Films Johnson Cheu,2013-01-10 Although its early films featured racial caricatures and exclusively Caucasian heroines, Disney has, in recent years, become more multicultural in its filmic fare and its image. From *Aladdin* and *Pocahontas* to the Asian American boy Russell in *Up*, from the first African American princess in *The Princess and the Frog* to Spanish-mode Buzz Lightyear in *Toy Story 3*, Disney films have come to both mirror and influence our increasingly diverse society. This essay collection gathers recent scholarship on representations of diversity in Disney and Disney/Pixar films, not only exploring race and gender, but also drawing on perspectives from newer areas of study, particularly sexuality/queer studies, critical whiteness studies, masculinity studies and disability studies. Covering a wide array of films, from Disney's early days and Golden Age to the Eisner era and current fare, these essays highlight the social impact and cultural significance of the entertainment giant. Instructors considering this book for use in a course may request an examination copy [here](#).

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race

memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Drawing the Iron Curtain Maya Balakirsky Katz, 2016-07-15 In the American imagination, the Soviet Union was a drab cultural wasteland, a place where playful creative work and individualism was heavily regulated and censored. Yet despite state control, some cultural industries flourished in the Soviet era, including animation. Drawing the Iron Curtain tells the story of the golden age of Soviet animation and the Jewish artists who enabled it to thrive. Art historian Maya Balakirsky Katz reveals how the state-run animation studio Soyuzmultfilm brought together Jewish creative personnel from every corner of the Soviet Union and served as an unlikely haven for dissidents who were banned from working in other industries. Surveying a wide range of Soviet animation produced between 1919 and 1989, from cutting-edge art films like Tale of Tales to cartoons featuring “Soviet Mickey Mouse”

Cheburashka, she finds that these works played a key role in articulating a cosmopolitan sensibility and a multicultural vision for the Soviet Union. Furthermore, she considers how Jewish filmmakers used animation to depict distinctive elements of their heritage and ethnic identity, whether producing films about the Holocaust or using fellow Jews as models for character drawings. Providing a copiously illustrated introduction to many of Soyuzmultfilm's key artistic achievements, while revealing the tumultuous social and political conditions in which these films were produced, *Drawing the Iron Curtain* has something to offer animation fans and students of Cold War history alike.

Folks, This Ain't Normal Joel Salatin, 2011-10-10 From farmer Joel Salatin's point of view, life in the 21st century just ain't normal. In *FOLKS, THIS AIN'T NORMAL*, he discusses how far removed we are from the simple, sustainable joy that comes from living close to the land and the people we love. Salatin has many thoughts on what normal is and shares practical and philosophical ideas for changing our lives in small ways that have big impact. Salatin, hailed by the New York Times as Virginia's most multifaceted agrarian since Thomas Jefferson [and] the high priest of the pasture and profiled in the Academy Award nominated documentary *Food, Inc.* and the bestselling book *The Omnivore's Dilemma*, understands what food should be: Wholesome, seasonal, raised naturally, procured locally, prepared lovingly, and eaten with a profound reverence for the circle of life. And his message doesn't stop there. From child-rearing, to creating quality family time, to respecting the environment, Salatin writes with a wicked sense of humor and true storyteller's knack for the revealing anecdote. Salatin's crucial message and distinctive voice--practical, provocative, scientific, and down-home philosophical in equal measure--make *FOLKS, THIS AIN'T NORMAL* a must-read book.

Animation Giannalberto Bendazzi, 2017-02-16 A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's three-volume *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. Features include: Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you're looking for Volume I traces the roots and predecessors of modern animation, the history behind Émile Cohl's *Fantasmagorie*, and twenty years of silent animated films. Encompassing the formative years of the art form through its Golden Age, this book accounts for animation history through 1950 and covers everything from well-known classics like *Steamboat Willie* to animation in Egypt and Nazi Germany. Volume II delves into the decades following the Golden Age, an uncertain time when television series were overshadowing feature films, art

was heavily influenced by the Cold War, and new technologies began to emerge that threatened the traditional methods of animation. Take part in the turmoil of the 1950s through 90s as American animation began to lose its momentum and the advent of television created a global interest in the art form. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market.
