A Voice Through a Cloud Denton Welch 2004 Denton Welch, one of the most gifted creative artists of his generation, died in 1948 at the age of thirty-one, leaving this, perhaps his finest work, almost but not quite completed. Under the thin disguise of fiction Denton Welch recreates the world of hospitals and nursing homes in which he spent so many months after the accident which was eventually to prove fatal to him. The details of daily routine, the fellow patients, the nurses and doctors, the comedies and tragedies which loom so large in the confined existence of the sick, all are described so vividly, with so much humour and pathos, with so accurate a listening ear, so watchful and penetrating an eye, that it is almost impossible to believe that the experience on which it is based was one of long exhausting pain to the author himself, and that book was conceived in pain and carried through with failing physical powers.

The Social History of the American Family Marilyn J. Coleman 2014-09-02 The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the "ideal" family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture (including mass media), families and religion, families and the economy, families and social issues, families and social stratification and conflict, family structures (including marriage and divorce, gender roles, parenting and children, and mixed and non-modal family forms), and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross references and Further Readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. The *Social History of the American Family* is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions.

Bridges Translation of the Ten Qira at of the Noble Qur an Fadel Soliman 2020-01-31 Bridges' translation aims to help non-Arabic readers in pondering the Qur'an (tadabbor). The translators focused not only on translating what God meant to say, but also on translating how He spoke. There are three main new features in this translation that make it unique: 1. It is the first translation which includes the ten Qira'at (modes of recitation). The main text is written in accordance with the Qira'a of Asem, narrated by Hafs. Variations from that are presented in footnotes denoted by 'Q'. The translation presents around 30% of the variations of the Qira'at--those which affect the meaning. 2. It is the first translation that takes into consideration the Qur'anic phenomenon of grammatical shifts, whether in verb tenses, numbers, or pronouns. These are a great source of pondering for the reader. 3. To denote whether a pronoun like 'you' or an imperative verb like 'say' is plural, dual, or singular, the translators did not impose their understanding on the reader by adding text between brackets like (O Prophet) to denote singular form, or (O mankind) to denote plural form. Rather, this distinction was achieved by adding a superscript after pronouns and imperative verbs. For example: youpl is used for a plural pronoun, yousg for a singular pronoun, and youdl for a dual pronoun.

Imsa 2018-08-25 In 1969, John Bishop and Bill France, Sr. acted on a collective vision to plot a new course for road racing in the United States. What began as a Formula Ford and Formula Vee race in October of 1969, quickly morphed into a sports car racing series that brought the aspirational cars people drove, or wished to drive, to compete on a racetrack.Thus the International Motor Sports Association, or IMSA as it is more commonly known, was founded, and not long after domestic and import car-makers took notice as did the leading sports car racing drivers from at home and abroad. Today, 50 years after Bishop and France hatched their plan over a glass or two of scotch, compelled by a shared passion to bring competitive racing for drivers and teams that would captivate fans and fuel the sale of sports cars in showroom across America, IMSA has stayed true to their vision.Along the way, there have been some twists. Yet, in whatever the form it was at the time, IMSA has undeniably produced a bounty of great sports car racing that often has witnessed the titans of the sport battle each other for supremacy. Today, IMSA continues to be a collection of legendary events contested by an international field of drivers and teams behind the wheel of the world's most illustrious automobile marques.Celebrating 50 years of IMSA, this book reacquaints us with just some of the people, cars and events through images and words from the sport's leading photographers and journalists that have played a role in creating IMSA's lore. Across these pages is journey of highlights and reminiscences, facts and possibly a tale or two to recall a fraction of what has transpired throughout IMSA's history, but will certainly inspire memories of your own.

Kumba Africa Sampson Ejike Odum 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

Yvain Chretien de Troyes 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Australia's Elfin Sports and Racing Cars John Blanford 2012-11-01

New Zealand Manufactured Cars Patrick Harlow 2013 "At one stage almost all the cars sold in New Zealand were assembled in this country by big names like Holden, Ford and Toyota. Less known is the fact that during this time New Zealand was also the producer of many home grown cars and still is, but on a much smaller scale. The companies that produced these cars were forced to work on a shoestring budget and could not afford advertising campaigns to make their cars known. Largely ignored by mainstream motoring magazines they relied on word of mouth and success on the race track to get into the public domain. This book looks at the vehicles which make up an important part of our motoring heritage. Many have never appeared in print before. Included are cars such as the Heron, inspired by the Lotus Esprit, of which 28 were sold in turnkey form. The Escartar, a car that was going to be a supercar in the early eighties but only a few were built. The Mistral was a British body brought into the country in the late fifties and built into a competitive production car using Kiwi ingenuity. Included also is the Saker which is New Zealand's least known supercar, but was built in at least three different countries and has its own racing series called the European Saker Sports Car Challenge. Inside these pages are New Zealand's automotive successes, the survivors and the short lived. As many as possible of these unique vehicles have been documented in this essential book for all car enthusiasts."--Publisher's description.

In between the first and the latest lie 50 years, numerous models, and a legion of fans.

Grand Prix Cars Denis Jenkinson 2015-10-02 " In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties – such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes – the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ..." A Criminal and An Irishman Patrick Nee 2010-04-20 Former rival and associate of James "Whitey" Bulger tells all. After returning from Vietnam where he served as a combat Marine, Pat Nee fought a gang war against Whitey Bulger. When members of Nee's Mullen gang killed the leader of Bulger's Killeen faction, Nee arranged for the dispute to be mediated by Howie Winter and Patriarca crime family captain Joseph Russo. The two gangs joined forces, with Winter as overall boss. When Winter was convicted of fixing horse races in 1979, Bulger became leader, and Nee responded by concentrating his energy on raising money and smuggling guns to the Provisional IRA. Disgusted by Bulger's brutality, and increasingly focused on the Irish cause, Nee distanced himself from his former ally. Ultimately it was revealed that, for years, Bulger had served as an FBI informant. A Criminal and an Irishman is the story of Pat Nee's life as an Irish immigrant and Southie son, a Marine, a convicted IRA gun smuggler, and a former violent rival and then associate of James "Whitey" Bulger. His narrative transports the reader into the criminal underworld, inside planning and preparation for an armored car heist, inside gang wars and revenge killings. Nee details his evolution from tough street kid to armed robber to dangerous potential killer, and discloses for the first time how he used his underworld connections and know-how as a secret, Boston-based operative for the Irish Republican Army. For years Pat smuggled weapons and money from the United States to Ireland – in the bottoms of coffins, behind false panels of vans – leading up to a transatlantic shipment of seven and a half tons of munitions aboard the fishing trawler Valhalla. No other Southie underworld figure can match Pat's reputation for resolve and authenticity. From the Trade Paperback edition.

Moon-face Jack London 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. "The son of the Wolf" (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, "The Call of the Wild" (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including "The Sea-Wolf" (1904), "White Fang" (1906), "South Sea Tales" (1911), and "Jerry of the South Seas" (1917). One of London's most interesting novels is the semi-autobiographical "Martin Eden" (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.
