**Harriet V. Kuhnlein,Bill Erasmus,Dina Spigelski**

**Paper Crafts for Valentine's Day** Randel McGee,2008-01-01 Do your readers want to make their own heart sculpture? How about making their own pop-up puppet? Valentine's Day has been celebrated since ancient Roman times. Readers follow storyteller Randel McGee as he explores Valentine's Day. Readers will learn to make a cupid figure, a lacy heart card, heart flowers, and more.

*Around the World in 80 Plants* Jonathan Drori,2022-07-13 An inspirational and beautifully illustrated book that tells the stories of 80 plants from around the globe. In his follow-up to the bestselling *Around the World in 80 Trees*, Jonathan Drori takes another trip across the globe, bringing to life the science of plants by revealing how their worlds are intricately entwined with our own history, culture and folklore. From the seemingly familiar tomato and dandelion to the eerie mandrake and Spanish 'moss' of Louisiana, each of these stories is full of surprises. Some have a troubling past, while others have ignited human creativity or enabled whole civilizations to flourish. With a colourful cast of characters all brought to life by illustrator Lucille Clerc, this is a botanical journey of beauty and brilliance. 'A beautiful celebration of the plants and flowers that surround us and a quiet call to arms for change' *The Herald* 'This charming and beautifully illustrated book takes readers on a voyage of discovery, exploring the many ingenious and surprising uses for plants in modern science and throughout history' *Kew Magazine* 'With beautiful illustrations from Lucille Clerc, this captivating book traverses the globe via plants: nettles in England, mangoes in India and tulips in the Netherlands' *Daily Mail*

**Himalayan Journals** Joseph Dalton Hooker,1855 A new edition, carefully revised and condensed.

**Indigenous Peoples' Food Systems** Harriet V. Kuhnlein,Bill Erasmus,Dina Spigelski,2009 Today, globalisation and homogenisation have replaced local food cultures. The 12 case studies presented in this book show the wealth of knowledge in indigenous communities in diverse ecosystems, the richness of their food resources, the inherent strengths of the local traditional food systems, how people think about and use these foods, the influx of industrial and purchased food, and the circumstances of the nutrition transition in indigenous communities. The unique styles of conceptualising food systems and writing about them were preserved. Photographs and tables accompany each chapter.

*The View from Federal Twist* James Golden,2022-03 Federal Twist is set on a ridge above the Delaware River in western New Jersey. It is a naturalistic garden that has loose boundaries and integrates closely with the natural world that surrounds it. It has no utilitarian or leisure uses (no play areas, swimming pools, or outdoor dining) and the site is not an obvious choice for a garden (heavy clay soil, poorly drained: quick death for any plants not ecologically suited to it). The physical garden, its plants and its features, is of course an appealing and pleasant place to be but Federal Twist's real charm and significance lie in its intangible aspects: its changing qualities and views, the moods and emotions it evokes, and its distinctive character and sense of place. This book charts the author's journey in making such a garden. How he made a conscious decision not to improve the land, planted large, competitive plants into rough grass, experimented with seeding to develop sustainable plant communities. And how he worked with light to provoke certain moods and allowed the energy of the place, chance, and randomness to have its say. Part experimental horticulturist and part philosopher, James Golden has written an important book for naturalistic and ecological gardeners and anyone interested in exploring the relationship between gardens, nature, and ourselves.

*Floret Farm's Discovering Dahlias* Erin Benzakein,2021-03-09 A stunning guide to growing, harvesting, and arranging gorgeous dahlia blooms from celebrated farmer-florist and New York Times bestselling author Erin Benzakein, founder of Floret Flower Farm. World-renowned flower farmer and floral designer Erin Benzakein reveals all the secrets to growing, cultivating, and arranging gorgeous dahlias. These coveted floral treasures come in a dazzling range of colors, sizes, and forms, with enough variety for virtually every garden space and personal preference, making

them one of the most beloved flowers for arrangements. In these pages, readers will discover: • Expert advice for planting, harvesting, and arranging garden-fresh dahlias • A simple-to-follow overview of the dahlia classification system • An A-Z guide with photos and descriptions of more than 350 varieties • Step-by-step how-to's for designing show-stopping dahlia bouquets that elevate any occasion Expert Author: Erin Benzakein's gorgeous flowers are celebrated throughout the world. Her book *Floret Farm's A Year in Flowers* was a New York Times bestseller and her first book, *Floret Farm's Cut Flower Garden*, won the American Horticultural Society Book Award. Filled with Wisdom: Overflowing with hundreds of lush photographs and invaluable advice, *DISCOVERING DAHLIAS* is an essential resource for gardeners and a must-have for anyone who loves flowers, including flower lovers, avid and novice gardeners, floral designers, florists, small farmers, stylists, and designers.

**The Earth's Blanket** Nancy J. Turner, 2015-08-03 This is a thought-provoking look at Native American stories, cultural institutions, and ways of knowing, and what they can teach us about living sustainably.

**Edible Plants in Health and Diseases** Mubashir Hussain Masoodi, Muneeb U Rehman, 2022-01-13 The book provides significant information on some of the promising edible medicinal plants and how these possess both nutritive as well as medicinal value. The significance of these edible plants in traditional medicine, their distribution in different regions and the importance of their chemical constituents are discussed systematically concerning the role of these plants in ethnomedicine in different regions of the world. The current volume focuses on the economic and culturally important medicinal uses of edible plants and a detailed survey of the literature on scientific researches of pharmacognostical characteristics, traditional uses, scientific validation, and phytochemical composition, and pharmacological activities. This book is a single-source scientific reference to explore the specific factors that contribute to these potential health benefits, as well as discussing how to maximize those potential benefits. Chemists, food technologists, pharmacologists, phytochemists as well as all professionals involved with quality control and standardization will find in this book a valuable and updated basis for their work.

**An Orchard Odyssey** Naomi Slade, 2016-09-22 Inspiring and practical, this is a lovely resource for anyone looking to grow fruit trees or start an orchard, whether in your garden or as a community project. For centuries, orchards have been a compelling and important part of our landscape. The sight of a fruit tree, blushing in blossom in the spring, and then laden with fresh fruit in the summer and autumn, can be truly enchanting, inspiring folklore and art. Not only do orchards provide bountiful fruit for families and communities, they are also attractive to pollinators such as bees, and make a wonderful habitat for birds. There are many ways of incorporating orchard living into your lifestyle, no matter how busy or short of space you are. Written by esteemed horticulturalist Naomi Slade, this gloriously illustrated resource illuminates the possibilities and enables you to make it a reality - whether you have a few fruit trees already or have always wanted an orchard of your own. *An Orchard Odyssey* shows you how to plant and care for your trees and suggests fruit trees suitable for different spaces. It also covers the benefits of orchard for conservation and biodiversity, orchard heritage, and the role of fruit trees in garden and landscape design. The guide promotes the 'five trees' principle of orchards, and encourages the reader to embrace the orchards in a way that is personal to them. Packed with practical ideas and inspiration, let this delightful book encourage you to re-engage with tree fruit in new ways: look at it the right way and everyone can have an orchard.

**Diary of a Modern Country Gardener** Tamsin Westhorpe, 2022-06-30

*The Every-Day Book*, Or William Hone, 2023-07-18 As one of the most popular books of the early 19th century, *The Every-Day Book* offers a fascinating look at the daily lives, customs, and traditions of the people of England. From church festivals to sporting events, Hone's lively anecdotes and charming illustrations bring a bygone era to vivid life. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate)

has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Cultural Severance and the Environment** Ian D. Rotherham, 2013-05-09 This major book explores commons, lands and rights of usage in common, traditional and customary practices, and the cultural nature of 'landscapes'. Importantly, it addresses now critical matters of 'cultural severance' and largely unrecognized impacts on biodiversity and human societies, and implications for conservation, sustainability, and local economies. The book takes major case studies and perspectives from around the world, to address contemporary issues and challenges from historical and ecological perspectives. The book developed from major international conferences and collaborations over around fifteen years, culminating 'The End of Tradition?' in Sheffield, UK, 2010. The chapters are from individuals who are both academic researchers and practitioners. These ideas are now influencing bodies like the EU, UNESCO, and FAO, with recognition by major organisations and stakeholders, of the critical state of the environment consequent on cultural severance.

**Floret Farm's A Year in Flowers** Erin Benzakein, 2020-02-11 Learn how to buy, style, and present seasonal flower arrangements for every occasion. With sections on tools, flower care, and design techniques, Floret Farm's A Year in Flowers presents all the secrets to arranging garden-fresh bouquets. Featuring expert advice from Erin Benzakein, world-renowned flower farmer, floral designer, and bestselling author of Floret Farm: Cut Flower Garden, this book is a gorgeous and comprehensive guide to everything you need to make your own incredible arrangements all year long, whether harvesting flowers from the backyard or shopping for blooms at the market. • Includes an A-Z flower guide with photos and care tips for more than 200 varieties. • Simple-to-follow advice on flower care, material selection, and essential design techniques • More than 25 how-to projects, including magnificent centerpieces, infinitely giftable posies, festive wreaths, and breathtaking bridal bouquets Floret Farm's A Year in Flowers offers advice on every phase of working with cut flowers—including gardening, buying, caring for, and arranging fresh flowers. Brimming with indispensable tips and hundreds of vibrant photographs, this book is an invitation to live a flower-filled life and perfect for anyone who loves flowers. • The definitive guide to flower arranging from the biggest star in the farm-to-centerpiece movement • Perfect for flower lovers, avid and novice gardeners, floral designers, wedding planners, florists, small farmers, stylists, designers, crafters, and those passionate about the local floral movement • For those who loved Floret Farm's Cut Flower Garden by Erin Benzakein, The Flower Recipe Book by Alethea Haramopolis, Seasonal Flower Arranging by Ariella Chezlar, and The Flower Chef by Carly Cylinder

**The Shakespeare Garden** Esther Singleton, 1923

*Lessons in Spiritual Economics from the Bhagavad-Gita* Dhanesvara Das, 2010-04-21 Spiritual Economics is a cross-disciplinary study combining psychology, economics and the spiritual science of the Vedas to explain why there is vulture capitalism, cut-throat competition, unending economic hardship, exploitation, inequity, and struggle in this world. Spiritual Economics explains why present economic methods can do nothing to solve these problems, reveals the actual source of our economic problems, and explains the only factual solution that can create an economy that serves everyone. Spiritual Economics also explains the origin and solution of our ecological problems. There is a link between economic activity and human consciousness. Economics is not a physical science like electromagnetism that works according to natural laws. It is a set of ideas entirely created by human beings. The most important side of the economic equation therefore, is the human side, but this side is totally neglected in all discussions of economics. Since economics is a man-made creation, if we want to understand the economic problem and its solution we must understand how and why human beings act in this world. That will give us the insight needed to properly adjust all of the parameters of the economic calculus to get the desired result. Only Spiritual Economics explains the whys and wherefores of human behavior in relationship to their economic activity.

**Wild Fruits: Composition, Nutritional Value and Products** Abdalbasit Adam

Mariod,2021-01-19 Wild fruits play an important role in mitigating hunger in the developing world. As a sustainable and natural food source in rural areas, these fruits have a strong effect on regional food security and poverty alleviation. This makes the utilization of wild foods incredibly important for native populations both in terms of food security and economics. There are many traditional methods for wild fruit harvesting, indigenous tree and plant domestication and cultivation passed down through generations that are sustainable and economically viable, ultimately contributing to a better quality of life for large sections of the developing world. To date there has not been a reference work focusing on the full scope of wild fruits from their growth and chemical makeup to their harvest, distribution, health effects and beyond. *Wild Fruits: Composition, Nutritional Value and Products* adequately fills this gap, expansively covering the utilization of multi-purpose wild fruits in regions worldwide. Effects on quality of life, food security, economics and health are extensively covered. Over 31 wild fruit species are examined, with individual chapters focusing on each species' phytochemical constituents, bioactive compounds, traditional and medicinal uses and chemical composition. Harvest, post-harvest and consumption methods are covered for each, as are their overall effect on the food security and economics of their native regions. This book is essential for researchers in search of a comprehensive singular source for the chemical makeups and cultivation of indigenous wild fruits and their many benefits to their native regions.

**Conservation and Utilization of Threatened Medicinal Plants** P.E. Rajasekharan,Shabir Hussain Wani,2021-07-22 Medicinal plants are globally valuable sources of herbal products. Plant-based remedies have been used for centuries and have had no alternative in the western medicine repertoire, while others and their bioactive derivatives are in high demand and have been the central focus of biomedical research. As Medicinal plants move from fringe to mainstream with a greater number of individuals seeking treatments free of side effects, considerable attention has been paid to utilize plant-based products for the prevention and cure of human diseases. An unintended consequence of this increased demand, however, is that the existence of many medicinal plants is now threatened, due to their small population size, narrow distribution area, habitat specificity, and destructive mode of harvesting. In addition, climate change, habitat loss and genetic drift have further endangered these unique species. Although extensive research has been carried out on medicinal and aromatic plants, there is relatively little information available on their global distribution patterns, conservation and the associated laws prevailing. This book reviews the current status of threatened medicinal plants in light of increased surge in the demand for herbal medicine. It brings together chapters on both wild (non-cultivated) and domestic (cultivated) species having therapeutic values. Thematically, conventional and contemporary approaches to conservation of such threatened medicinal plants with commercial feasibility are presented. The topics of interest include, but not limited to, biotechnology, sustainable development, in situ and ex situ conservation, and even the relevance of IPR on threatened medicinal plants. We believe this book is useful to horticulturists, botanists, policy makers, conservationists, NGOs and researchers in the academia and the industry sectors.

**Writing Feature Articles** Brendan Hennessy,2013-05-02 Hennessy's classic text tells you everything you need to know about writing successful features. You will learn how to formulate and develop ideas and how to shape them to fit different markets. Now in its fourth edition, *Writing Feature Articles* has been fully revised and updated to take into account the changing requirements of journalism and media courses. You will also discover how to exploit new technology for both researching and writing online. Learn step-by-step how to plan, research and write articles for a wide variety of 'popular', 'quality' and specialist publications. Discover more and make the advice stick by completing the tasks and reading the keen analysis of extracts from the best of today's writing. Packed with inspirational advice in a friendly, highly readable style, this guide is a must-have for practising and aspiring journalists and writers.

The Flower Yard Arthur Parkinson,2021-03-29 The Times Best Gardening Books of the Year 2021 'The Flower Yard is simply gorgeous. Inspirational, sumptuous and packed with refreshingly down-to-earth advice. I love this book.' Nigel Slater 'The Kew-trained king of the small-space garden.'

Guardian Arthur Parkinson's town garden is like a path of pots, a tiny, exposed stage on bricks. Despite its small size, a flower-filled jungle in Venetian tones is grown here each year, in defiance of urbanisation. The plants act like drapes, closing gently as their growth engulfs the front door, from either side of the path, to the buzz of precious bees. This is gardening done entirely in pots, yet on a grand scale that will inspire anyone who wants their doorstep or patio to be a glamorous and lively canvas that nurtures them visually and mentally. From jewel scatterings of crocus, flocks of parrot tulips and scented sweet peas to galaxies of single dahlias, towering giraffes of amaryllises grown inside for winter and endless vases of cut blooms through the seasons. With his bantam hens at his feet, Arthur shares his life, knowledge, flair and influences for planting creatively, all of which combine to create a space that's rich in ever-changing colour and life.

**The Great Fires** Bob Zybach, 2018-04 This is the definitive fire history of Oregon Coast Range forests, woodlands, savanna's, and grasslands for the past 500 years. Its comprehensive research methods, references, and recommendations serve as a model for other landscape-scale fire histories and is primarily why it is being updated and reprinted at this time.

Getting the books **Fritillaria Themed Heart Decoration Paper Craft.htm** now is not type of challenging means. You could not deserted going considering ebook gathering or library or borrowing from your associates to gain access to them. This is an completely simple means to specifically acquire lead by on-line.
