The Challenge Alan Drake,2023-12-28 God invites you to cast your cares on Him, because He cares for you (1 Peter 5:7). It is natural to seek first to meet our own needs and the needs of our family members, but God invites us to make an exchange. He invites us to cast our concerns on Him, and He promises to care for us better than we could take care of ourselves. In exchange, He desires for us to take on His concerns, His priorities, and seek His Kingdom first.

Communication and Interpersonal Skills in Nursing Alec Grant,Benny Goodman,2018-12-03 The new edition of this well regarded book introduces the underpinning theory and concepts required for the development of first class communication and interpersonal skills in nursing. By providing a simple to read overview of the central topics, students are able to quickly gain a solid, evidence-based grounding in the subject. Topics covered include: empathy; building therapeutic relationships; using a variety of communication methods; compassion and dignity; communicating in different environments; and culture and diversity issues. Three new chapters have been added that point readers towards further ways of approaching their communication skills that are less model and technique driven and focusing more on therapeutic considerations, as well as looking at the politics of communication.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Understanding Media Marshall McLuhan,2016-09-04 When first published, Marshall McLuhan's *Understanding Media* made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

Indian Ocean Craft Triennial 2021 Maggie Baxter, Kevin Murray, Nancy Adajania, Ashraf Jamal, Kim Scott, 2022-05-03 A stunning record of a world class exhibition of the people living around the Indian Ocean. The Indian Ocean Craft Triennial in 2021 brought together artists, makers and crafted works from around the Indian Ocean Rim (IOR). It was the first of its kind and focussed on the innate curiosity and rituals that connect us through the medium of craft and the handmade, at home and across the ocean. Now the exhibition is set to reach a much broader audience with the publication of the 144-page catalogue- Indian Ocean Craft Triennial- Curiosity & Rituals of the Everyday. Each of the 35 artists and groups represented in the exhibition have a double-page spread with full colour images of their works, an artist statement and bio. The artists represent seven countries with craftworks ranging from tapestry to jewellery to ceramics, carving and large-scale installations.

Design as Politics Tony Fry, 2010-11-01 Design as Politics confronts the inadequacy of contemporary politics to deal with unsustainability. Current 'solutions' to unsustainability are analysed as utterly insufficient for dealing with the problems but, further than this, the book questions the very ability of democracy to deliver a sustainable future. Design as Politics argues that finding solutions to this problem, of which climate change is only one part, demands original and radical thinking. Rather than reverting to failed political ideologies, the book proposes a post-democratic politics. In this, Design occupies a major role, not as it is but as it could be if transformed into a powerful agent of change, a force to create and extend freedom. The book does no less than position Design as a vital form of political action.

Animated Encounters Daisy Yan Du, 2019-02-28 China's role in the history of world animation has been trivialized or largely forgotten. In *Animated Encounters* Daisy Yan Du addresses this omission in her study of Chinese animation and its engagement with international forces during its formative period, the 1940s–1970s. She introduces readers to transnational movements in early Chinese animation, tracing the involvement of Japanese, Soviet, American, Taiwanese, and China's ethnic minorities, at socio-historical or representational levels, in animated filmmaking in China. Du argues that Chinese animation was international almost from its inception and that such border-crossing exchanges helped make it "Chinese" and subsequently transform the history of world animation. She highlights animated encounters and entanglements to provide an alternative to current studies of the subject characterized by a preoccupation with essentialist ideas of "Chineseness" and further questions the long-held belief that the forty-year-period in question was a time of cultural isolationism for China due to constant wars and revolutions. China's socialist era, known for the pervasiveness of its political propaganda and suppression of the arts, unexpectedly witnessed a golden age of animation. Socialist collectivism, reinforced by totalitarian politics and centralized state control, allowed Chinese animation to prosper and flourish artistically. In addition, the double marginality of animation—a minor art form for children—coupled with its disarming qualities and intrinsic malleability and mobility, granted animators and producers the double power to play with politics and transgress ideological and geographical borders while surviving censorship, both at home and abroad. A captivating and enlightening history, *Animated Encounters* will attract scholars and students of world film and animation studies, children's culture, and modern Chinese history.
