Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

No Exit from Pakistan Daniel S. Markey, 2013-10-07 This book tells the story of the tragic and often tormented relationship between the United States and Pakistan. Pakistan's internal troubles have already threatened U.S. security and international peace, and Pakistan's rapidly growing population, nuclear arsenal, and relationships with China and India will continue to force it upon America's geostrategic map in new and important ways over the coming

decades. This book explores the main trends in Pakistani society that will help determine its future; traces the wellsprings of Pakistani anti-American sentiment through the history of U.S.-Pakistan relations from 1947 to 2001; assesses how Washington made and implemented policies regarding Pakistan since the terrorist attacks on the United States on September 11, 2001; and analyzes how regional dynamics, especially the rise of China, will likely shape U.S.-Pakistan relations. It concludes with three options for future U.S. strategy, described as defensive insulation, military-first cooperation, and comprehensive cooperation. The book explains how Washington can prepare for the worst, aim for the best, and avoid past mistakes.

Words Painting Music Todd Board, 2021-04 We all have our own mythology, that is, our coherent system of meaning and value. Too often our myth remains safe, habitual, reductionist, and unexamined. In my sample-of-one experience, the most expansive and honest inner life emerges when we tire-kick our myths, and wade into a creative blank space not to find pat answers, but to interrogate our myth and see what recurs, and links, and echoes when you step away. As much as possible, this is a five-sense experience, which invites language, images, sounds, and other senses to engage and reflect each other. Occasionally, this process will politely nudge the inner life aside and generate some fairly memorable outer-life perceptions and experiences. *Words Painting Music* attempts to capture some of this flavor.

Adventure Anthology Death Lamentations of the Flame Princess,2019-09-10 For our amusement. And beyond that amusement lies those adventures that gave Lamentations of the Flame Princess its reputation. A reputation for publishing situations and scenarios that are nothing more than cruelty disguised as entertainment, designed so that friends and acquaintances will like each other, and themselves, less. Adventures designed to make the sun seem to shine less brightly. Adventures designed to make the embrace of loved ones seem brutally cold. Adventures designed to disgust, repel, and traumatize players as their characters suffer horribly imagined fates and the Referee cackles at sharing their pain. As all good horror must. The volume collects Tales of the Scarecrow, The Magnificent Joop van Ooms, Fuck For

Satan, and Death Love Doom, four adventures previously only available in print as limited editions. For use with Lamentations of the Flame Princess Weird Fantasy Role-Playing and other traditional tabletop role-playing games. Made in Finland.
