**The Tipping Point** Malcolm Gladwell, 2006-11-01 From the bestselling author of The Bomber Mafia: discover Malcolm Gladwell's breakthrough debut and explore the science behind viral trends in business, marketing, and human behavior. The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about selling products and disseminating ideas. "A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world." —Michael Lewis

**An Introduction to Language and Linguistics** Ralph Fasold, Jeffrey Connor-Linton, 2006-03-06 This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

**The Jungle** Upton Sinclair, 2010-08-19 A searing novel of social realism, Upton Sinclair's The Jungle follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the

documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

**ULYSSES (Modern Classics Series)** James Joyce, 2024-01-10 This carefully crafted ebook: ULYSSES (Modern Classics Series) is formatted for your eReader with a functional and detailed table of contents. Ulysses is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been called a demonstration and summation of the entire movement. Ulysses chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. Ulysses is the Latinised name of Odysseus, the hero of Homer's epic poem Odyssey, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided Ulysses into 18 chapters or episodes. At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant, which would earn the novel immortality. James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses, the short-story collection Dubliners, and the novels A Portrait of the Artist as a Young Man and Finnegans Wake.

**Knowledge and Critical Pedagogy** Joe L. Kincheloe, 2008-06-19 In a globalized neo-colonial world an insidious and often debilitating crisis of knowledge not only continues to undermine the quality of research produced by scholars but to also perpetuate a neo-colonial and oppressive socio-cultural, political economic, and educational system. The lack of attention such issues receive in pedagogical institutions around the world undermines the value of education and its role as a force of social justice. In this context these knowledge issues become a central concern of critical pedagogy. As a mode of education that is dedicated to a rigorous form of knowledge work, teachers and students as knowledge producers, anti-oppressive educational and social practices, and diverse perspectives from multiple social locations, critical pedagogy views dominant knowledge policies as a direct assault on its goals. Knowledge and Critical Pedagogy: An Introduction takes scholars through a critical review of the issues facing researchers and educators in the last years of the first decade of the twenty-first century. Refusing to assume the reader's familiarity with such issues but concurrently rebuffing the tendency to dumb down

such complex issues, the book serves as an excellent introduction to one of the most important and complicated issues of our time.

**Mules and Men** Zora Neale Hurston, 2009-10-13 Zora Neale Hurston brings us Black America's folklore as only she can, putting the oral history on the written page with grace and understanding. This new edition of *Mules and Men* features a new cover and a P.S. section which includes insights, interviews, and more. For the student of cultural history, *Mules and Men* is a treasury of Black America's folklore as collected by Zora Neale Hurston, the storyteller and anthropologist who grew up hearing the songs and sermons, sayings and tall tales that have formed and oral history of the South since the time of slavery. Set intimately within the social context of Black life, the stories, "big old lies," songs, voodoo customs, and superstitions recorded in these pages capture the imagination and bring back to life the humor and wisdom that is the unique heritage of Black Americans.

Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

*Crowning the Nice Girl* Christine R. Yano, 2006-06-30 After World War II, Japanese Americans in Hawai'i sought to carve a positive niche of public citizenship in the community. In 1953 members of the Honolulu Japanese Junior Chamber of Commerce and their wives created a beauty contest, the Cherry Blossom Festival (CBF) Queen Pageant, which quickly became an annual spectacle for the growing urban population of Honolulu. *Crowning the Nice Girl* analyzes the pageant through its decades of development to the present within multiple frameworks of gender, class, and race/ethnicity. Drawing on extensive archival research; interviews with CBF queens, contestants, and organizers; and participant observation in the Fiftieth Annual Festival as a volunteer, Christine Yano paints a complex portrait of not only a beauty pageant, but also a community. The study begins with the subject of beauty pageants in general and Asian American beauty pageants in particular, interrogating the issues they raise, embedding them within their histories, and examining them as part of a global culture that has taken its model from the Miss America contest. Yano follows the pageant throughout the decades into the 1990s, adding corresponding herstories—extensive narratives drawn from interviews with CBF queens. She concludes by framing issues of race, ethnicity, spectacle, and community within the intertwined themes of niceness and banality.

The Spirit of Cities Daniel A. Bell, Avner de-Shalit, 2013-10-27 A lively and personal book that returns the city to political thought. Cities shape the lives and outlooks of billions of people, yet they have been overshadowed in contemporary political thought by nation-states, identity groups, and concepts like justice and freedom. The

Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. The Spirit of Cities is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of civicism, the pride city dwellers feel for their city and its ethos over that of others.
