The Mastery of the Sea Cyril Field,2008-10 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a

cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we don't deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Jutland 1916 Charles Alexander London,2000-08-18 The only major fleet engagement of World War I (1914-1918), the Battle of Jutland (1916) has been surrounded by controversy ever since. The British public felt Admiral Jellicoe had failed – a reaction rooted in a hundred years of the 'Nelson cult', a conviction that anything short of a Trafalgar-style annihilation was letting the side down. True, the German Fleet had sunk more ships and suffered fewer casualties, but the British had forced them to disengage and run for port and were still cruising off Denmark spoiling for a fight. This title recounts in detail how on an early summer's evening in 1916, the two fleets clashed head to head: the events that followed would spark a polemic that still rages today.

The Mad Mullah of Somaliland Douglas James Jardine,1923 Sayyid Muhammad `Abd Allāh al-Hasan (Somali: Sayid Maxamed Cabdille Xasan or Sayyid Mahammad Abdille Hasan), (April 7, 1856, in northern Somalia - December 21, 1920 in Imi, Ogaden) was a Somali religious and nationalist leader. Referred to as the Mad Mullah by the British, he led an armed resistance in Somalia for a period of over 20 years against British, Italian, and Ethiopian forces. The author of this book was Secretary to the Administration, Somaliland, 1916-21.

War in the Balkans, 1991-2002 R. Craig Nation,Strategic Studies Institute,2014-07-08 Armed conflict on the territory of the former Yugoslavia between 1991 and 2001 claimed over 200,000 lives, gave rise to atrocities unseen in Europe since the Second World War, and left behind a terrible legacy of physical ruin and psychological devastation. Unfolding against the background of the end of cold war bipolarity, the new Balkan wars sounded a discordant counterpoint to efforts to construct a more harmonious European order, were a major embarrassment for the international institutions deemed responsible for conflict management, and became a preoccupation for the powers concerned with restoring regional stability. After more than a decade of intermittent hostilities the conflict has been contained, but only as a result of significant external interventions and the establishment of a series of de facto international protectorates, patrolled by UN, NATO, and EU sponsored peacekeepers with open-ended mandates.

Ships of the Royal Navy J. J. Colledge,Ben Warlow,2010 This is the fourth fully revised edition of a book first published in 1970. This longevity is testimony to its enduring value as a reference work--indeed, 'Colledge' is still the first stop for anyone wanting more information on any British warship from the 15th century to the present day when only the name is known.

Lost Worlds of Ancient and Modern Greece D. J. Ian Begg,2021-04-30 By day, young Gilbert Bagnani studied archaeology in Greece, but by night he socialised with the elite of Athenian society. Secretly writing for the Morning Post in London, he witnessed both antebellum Athens in 1921 and the catastrophic collapse of Christian civilisation in western Anatolia in 1922. While there have been many accounts by refugees of the disastrous flight from Smyrna, few have been written from the perspective of the west side of the Aegean. The flood of a million refugees to Greece brought in its wake a military coup in Athens, the exile of the Greek royal family and the execution or imprisonment of politicians, whom Gilbert knew. Gilbert's weekly letters to his mother in Rome reveal his Odyssey-like adventures on a voyage of discovery through the origins of western civilisation. As an

archaeologist in Greece, he travelled through time seeing history repeat itself: Minoan Knossos, Byzantine Constantinople and Ottoman Smyrna were all violently destroyed, but the survivors escaped to the new worlds of Mycenaean Greece, Renaissance Venice and modern Greece. At Smyrna in the twentieth century, history was written not only by the victors but was also recorded by the victims. At the same time, however, the twentieth century itself was so filled with reports of ethnic cleansings on such a scale that the reports brutalized the humanity of the supposedly civilized people reading about them, and the tragedy of Smyrna disappeared from public awareness between the cataclysmic upheavals of the First and Second World Wars.
