The Organization of Craft Work Emma Bell,Gianluigi Mangia,Scott Taylor,Maria Laura Toraldo,2018-08-06 This edited book focuses on the organization and meaning of craft work in contemporary society. It considers the relationship between craft and place and how this enables the construction of a meaningful relationship with objects of production and consumption. The book explores the significance of raw materials, the relationship between the body, the crafted object and the mind, and the importance of skill, knowledge and learning in the making process. Through this, it raises important questions about the role of craft in facing future challenges by challenging the logic of globalized production and consumption. The Organization of Craft Work encompasses international analyses from the United States, France, Italy, Australia, Canada, the UK and Japan involving a diverse range of sectors, including brewing, food and wine production, clothing and shoe making, and perfumery. The book will be of interest to students and academic researchers in organization studies, marketing and consumer behaviour, business ethics, entrepreneurship, sociology of work, human resource management, cultural studies, geography, and fashion and design. In addition, the book will be of interest to practitioners and organizations with an interest in the development and promotion of craft work.

The Semiotics of Che Guevara Maria-Carolina Cambre,2014-11-20 Alberto Korda's famous photograph of Che Guevara titled the Guerrillero Heroico has been reproduced, modified and remixed countless times since it was taken on March 5, 1960, in Havana, Cuba. This book looks again at this well-known mass-produced image to explore how an image can take on cultural force in diverse parts of the globe and legitimate varying positions and mass action in unexpected global political contexts. Analytically, the book develops a comparative analysis of how images become attached to a range of meanings that are absolutely inseparable from their contexts of use. Addressing the need for a fluid and responsive approach to the study of visual meaning-making, this book relies on multiple methodologies such as semiotics, research-creation, multimodal discourse analysis, ethnography and phenomenology and shows how each method has something to offer toward the understanding of the social and cultural work of images in our globally oriented cultures.

Creating Concrete Art Furniture Charles Sthreshley,2008 Concrete is a fascinating material in the hands of a creative person. The Direct Concrete Technique, illustrated in this book, empowers anyone to make furniture or sculpture by hand without molds or forms. The key to this method is the use of a steel armature covered with wires. With 296 vivid color photos and precise text, you can learn the steps necessary to use concrete as a fine art material to create innovative and imaginative furniture, from initial concept and the creation of the armature to the application of concrete and finishing the artwork. Bold and elegant designs of lightweight curvilinear elements can be fashioned with this method. Encyclopedia of Ephemera Michael Twyman,2018-10-24 The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives -- or ephemera -- may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day-to-day life. The Encyclopedia of Ephemera is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era, when disposable paper items such as trade cards, die-cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and

crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple slips of paper can speak volumes about status, taste, customs, and taboos, revealing the very roots of popular culture.
