With the same careful scholarship shown in his previous volume, The Babylonian Genesis, Heidel interprets the famous Gilgamesh Epic and other related Babylonian and Assyrian documents. **Creation Cries Out! The Mazzaroth** Paul Sides,2015-01-01 Creation Cries Out! is the first book in The Original Revelation series. The 14 books in The Original Revelation clearly define the great deception, the false religion, the false messiah, the true Messiah, the Kingdom of God (Yahuah), and the renewed covenant. In this first book Creation Cries Out! we begin our search for the truth with a journey back to Creation to define the message written in the stars by our Creator Yahuah. We reclaim that message to His Glory. We will take a critical look at the origin of mankind, the fall of the angelic realm, myths of the gods that rules over humanity, myths of giants, myths of vampires, and more to help us understand the world in which our ancient ancestors lived. A world communicated throughout the Ages using Mythology as their means of communication. We'll look at the truth behind the myths. We'll explain the origin of the many solar messiahs throughout history, and much more. Creation Cries Out! 3rd Edition - The book of the Mazzaroth, is the most complete book ever written on what the Bible calls the Mazzaroth and what we today call the Zodiac. It is the Heavenly Scroll and source of all the prophets in the Bible. In the Mazzaroth the Plan of Salvation is laid out by the Creator and the Messiah's role is defined. In the Mazzaroth, we find the first prophesies of: - The Sabbath - The Ages of mankind - The first and second comings of the Messiah - The Messiah ben Joseph (suffering servant) - The Messiah ben David (conquering King) - The Fall and Spring Feast Cycles of Yahuah - The Wedding Portrait, the Bride and Bridegroom - The Two Houses of Israel - The source of all pagan kings

and Christs - The age of individual life (70 years) ... and much more. In this book I explain how Yahuah used the Zodiac to witness the Gospel to all the prophets, Abraham, the Galatians, Sha'ul (Paul the Apostle), and John the revelator. I explain in detail the visions of Ezekiel, Daniel, and John in Revelation and how they were told to Behold! The Heavenly Scroll and described the Enoch Zodiac in great detail. I explain how the Mazzaroth/Zodiac is the real meaning behind the English word heaven. I bring to light many scriptures throughout the Bible that are specifically speaking of the Zodiac/Heavenly Scroll. In this book, difficult concepts are explained in plain English. I address the question does the Bible condemn the Zodiac, or proclaim it? What is divination, what is the difference between a Prophet and a Soothsayer? What is Astrology and is there a righteous example of it? This book is 430 pages of fully illustrated and well defined Truth that has alluded mankind since the creation of man. I explain how the message in the Zodiac has been perverted and the Battle of the Ages between the Truth of the Creator and sun worship comes down to the Zodiac. The false messiah is defined by the corrupted message found in the Zodiac. The True Messiah is the fulfillment of the Original Revelation from Yahuah to all mankind found written in the stars. This book lays the foundation for The Original Revelation Series.

Slow Violence and the Environmentalism of the Poor Rob Nixon, 2011-06-01 The violence wrought by climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Using the innovative concept of slow violence to describe these threats, Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. Slow violence, because it is so readily ignored by a hard-charging capitalism, exacerbates the vulnerability of ecosystems and of people who are poor, disempowered, and often involuntarily displaced, while fueling social conflicts that arise from desperation as life-sustaining conditions erode. In a book of extraordinary scope, Nixon examines a cluster of writer-activists affiliated with the environmentalism of the poor in the global South. By approaching environmental justice literature from this transnational perspective, he exposes the limitations of the national and local frames that dominate environmental writing. And by skillfully illuminating the strategies these writer-activists deploy to give dramatic visibility to environmental emergencies, Nixon invites his readers to engage with some of the most pressing challenges of our time.

**Health Issues in the Black Community** Ronald L. Braithwaite, Sandra E. Taylor, Henrie M. Treadwell, 2009-10-22 Health Issues in the Black Community THIRD EDITION The outstanding editors and authors of Health Issues in the Black Community have placed in clear perspective the challenges and opportunities we face in working to achieve the goal of health equity in America. —David Satcher, MD, PhD, 16th Surgeon General of the United States and director, Satcher Health Leadership Institute at Morehouse School of Medicine Eliminating health disparities must be a central goal of any forward thinking national health policy. Health Issues in the Black Community makes a valuable contribution to a much-needed dialogue by focusing on the challenges of the black community. —Marc Morial, Esq., president, National Urban League Health Issues in the Black Community illuminates comprehensively the range of health conditions specifically affecting African Americans, and the health disparities both within the black community and between racial and ethnic groups. Each chapter, whether addressing the health of African Americans by age, gender, type of disease, condition or behavior, is well-detailed and tells an important story. Together, they offer practitioners, consumers, scholars, and policymakers a crucial roadmap to address and change the social determinants of health, reduce disparities, and create more equal treatment for all Americans. —Risa Lavizzo-Mourey, MD, MBA, president, Robert Wood Johnson Foundation I recommend Health Issues in the Black Community as a must-read for anyone concerned about the future of the African American community. Health disparities continues to be one of the major issues confronting the black community. This book will help to highlight the issues and keep attention focused on the work to be done. —Elsie Scott, PhD, president of the Congressional Black Caucus Foundation This book is the definitive examination of health issues in black America—issues sadly overlooked and downplayed in our culture and society. I congratulate Drs. Braithwaite, Taylor, and Treadwell for their monumental book. —Cornel West, PhD, professor, Princeton University

*Place in Research* Eve Tuck, Marcia McKenzie, 2014-08-07 Bridging environmental and Indigenous studies and drawing on critical geography, spatial theory, new materialist theory, and decolonizing theory, this dynamic volume examines the sometimes overlooked significance of place in social science research. There are often important divergences and even competing logics at work in these areas of research, some which may indeed be incommensurable. This volume explores how researchers around the globe are coming to terms - both theoretically and practically - with place in the context of settler colonialism, globalization, and environmental degradation. Tuck and McKenzie outline a trajectory of critical place inquiry that not only furthers empirical knowledge, but ethically imagines new possibilities for collaboration and action. Critical place inquiry can involve a range of research methodologies; this

volume argues that what matters is how the chosen methodology engages conceptually with place in order to mobilize methods that enable data collection and analyses that address place explicitly and politically. Unlike other approaches that attempt to superficially tag on Indigenous concerns, decolonizing conceptualizations of land and place and Indigenous methods are central, not peripheral, to practices of critical place inquiry.
