Japan's Arduous Rejuvenation as a Global Power Victor Teo, 2019-04-08 This open access book assesses the profound impact of Japan's aspirations to become a great power on Japanese security, democracy and foreign relations. Rather than viewing the process of normalization and rejuvenation as two decades of remilitarization in face of rapidly changing strategic environment and domestic political circumstances, this volume contextualizes Japan's contemporary international relations against the longer grain of Japanese historical interactions. It demonstrates that policies and statecraft in the Prime Minister Shinzo Abe's era are a continuation of a long, unbroken and arduous effort by successive generations of leaders to preserve Japanese autonomy, enhance security and advance Japanese national interests. Arguing against the notion that Japan cannot work with China as long as the US-Japan alliance is in place, the book suggests that Tokyo could forge constructive relations with Beijing by engaging China in joint projects in and outside of the Asia-Pacific in issue areas such as infrastructure development or in the provision of international public goods. It also submits that an improvement in Japan-China relations would enhance rather than detract Japan-US relations and that Tokyo will find that her new found autonomy in the US-Japan alliance would not only accord her more political respect and strategic latitude, but also allow her to ameliorate the excesses of American foreign policy adventurism, paving for her to become a truly normal great power.

Stray Dog of Anime B. Ruh, 2016-01-08 Upon its US release in the mid 1990s, *Ghost in the Shell*, directed by Mamoru Oshii, quickly became one of the most popular Japanese animated films in the country. Despite this, Oshii is known as a maverick within anime: a self-proclaimed 'stray dog'. This is the first book to take an in-depth look at his major films, from *Urusei Yatsura* to *Avalon*.

Japan and Britain after 1859 Olive Checkland, 2003-08-29 In the years following Japan's long period of self-imposed isolation from the world, Japan developed a new relationship with the West, and especially with Britain, where relations grew to be particularly close. The Japanese, embarrassed by their perceived comparative backwardness, looked to the West to learn modern industrial techniques, including the design and engineering skills which underpinned them. At the same time, taking great pride in their own culture, they exhibited and sold high quality products of traditional Japanese craftsmanship in the West, stimulating a thirst for, and appreciation of, Japanese arts and crafts. This book examines the two-way bridge-building cultural exchange which took place between Japan and Britain in the years after 1859 and into the early years of the twentieth century. Topics covered include architecture, industrial design, prints, painting and photographs, together with a consideration of Japanese government policy, the Japan-Britain Exhibition of 1910, and commercial spin-offs. In addition, there are case studies of key individuals who were particularly influential in fostering British-Japanese cultural bridges in this period.

The Rape of Nanking Iris Chang, 2014-03-11 The New York Times bestselling account of one of history's most brutal—and forgotten—massacres, when the Japanese army destroyed China's capital city on the eve of World War II, piecing together the abundant eyewitness reports into an undeniable tapestry of horror. (Adam Hochschild, *Salon*) In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode.

Blueprint for a New Japan Ichirō Ozawa, 1994 A must read for businessmen and Japan watchers, this official version of the political bombshell translated privately by the CIA is the incisive and unprecedented one-man political manifesto of the former secretary-general of Japan's ruling Liberal Democratic party. Hirohito And The Making Of Modern Japan Herbert P. Bix, 2009-10-13 Winner of the Pulitzer Prize In this groundbreaking biography of the Japanese emperor Hirohito, Herbert P. Bix offers the first complete, unvarnished look at the enigmatic leader whose sixty-three-year reign ushered Japan into the modern world. Never before has the full life of this controversial figure been revealed with such clarity and vividness. Bix shows what it was like to be trained from birth for a lone position at the apex of the nation's political hierarchy and as a revered symbol of divine status. Influenced by an unusual combination of the Japanese imperial tradition and a modern scientific worldview, the young emperor gradually evolves into his preeminent role, aligning himself with the growing ultranationalist movement, perpetuating a cult of religious emperor worship, resisting attempts to curb his power, and all the while burnishing his image as a reluctant, passive monarch. Here we see Hirohito as he truly was: a man of strong will and real authority. Supported by a vast array of previously untapped primary documents, Hirohito and the Making of Modern Japan is perhaps most illuminating in lifting the veil on the mythology surrounding the emperor's impact on the world

stage. Focusing closely on Hirohito's interactions with his advisers and successive Japanese governments, Bix sheds new light on the causes of the China War in 1937 and the start of the Asia-Pacific War in 1941. And while conventional wisdom has had it that the nation's increasing foreign aggression was driven and maintained not by the emperor but by an elite group of Japanese militarists, the reality, as witnessed here, is quite different. Bix documents in detail the strong, decisive role Hirohito played in wartime operations, from the takeover of Manchuria in 1931 through the attack on Pearl Harbor and ultimately the fateful decision in 1945 to accede to an unconditional surrender. In fact, the emperor stubbornly prolonged the war effort and then used the horrifying bombings of Hiroshima and Nagasaki, together with the Soviet entrance into the war, as his exit strategy from a no-win situation. From the moment of capitulation, we see how American and Japanese leaders moved to justify the retention of Hirohito as emperor by whitewashing his wartime role and reshaping the historical consciousness of the Japanese people. The key to this strategy was Hirohito's alliance with General MacArthur, who helped him maintain his stature and shed his militaristic image, while MacArthur used the emperor as a figurehead to assist him in converting Japan into a peaceful nation. Their partnership ensured that the emperor's image would loom large over the postwar years and later decades, as Japan began to make its way in the modern age and struggled -- as it still does -- to come to terms with its past. Until the very end of a career that embodied the conflicting aims of Japan's development as a nation, Hirohito remained preoccupied with politics and with his place in history. Hirohito and the Making of Modern Japan provides the definitive account of his rich life and legacy. Meticulously researched and utterly engaging, this book is proof that the history of twentieth-century Japan cannot be understood apart from the life of its most remarkable and enduring leader.

The Roads to Sata Alan Booth, 2020-10-29 'A memorable, oddly beautiful book' Wall Street Journal 'A marvellous glimpse of the Japan that rarely peeks through the country's public image' Washington Post One sunny spring morning in the 1970s, an unlikely Englishman set out on a pilgrimage that would take him across the entire length of Japan. Travelling only along small back roads, Alan Booth travelled on foot from Soya, the country's northernmost tip, to Sata in the extreme south, traversing three islands and some 2,000 miles of rural Japan. His mission: 'to come to grips with the business of living here,' after having spent most of his adult life in Tokyo. The Roads to Sata is a wry, witty, inimitable account of that prodigious trek, vividly revealing the reality of life in off-the-tourist-track Japan. Journeying alongside Booth, we encounter the wide variety of people who inhabit the Japanese countryside - from fishermen and soldiers, to bar hostesses and school teachers, to hermits, drunks and the homeless. We glimpse vast stretches of coastline and rambling townscapes, mountains and motorways; watch baseball games and sunrises; sample trout and Kilimanjaro beer, hear folklore, poems and smutty jokes. Throughout, we enjoy the wit and insight of a uniquely perceptive guide, and more importantly, discover a new face of an often-misunderstood nation.

Model Code for Service Life Design fib Fédération internationale du béton, 2006-01-01 fib Bulletin 34 addresses Service Life Design (SLD) for plain concrete, reinforced concrete and pre-stressed concrete structures, with a special focus on design provisions for managing the adverse effects of degradation. Its objective is to identify agreed durability related models and to prepare the framework for standardization of performance based design approaches. Four different options for

SLD are given: - a full probabilistic approach, - a semi probabilistic approach (partial factor design), - deemed to satisfy rules, - avoidance of deterioration. The service life design approaches described in this document may be applied for the design of new structures, for updating the service life design if the structure exists and real material properties and/or the interaction of environment and structure can be measured (real concrete covers, carbonation depths), and for calculating residual service life. The bulletin is divided into five chapters: 1. General 2. Basis of design 3. Verification of Service Life Design 4. Execution and its quality management 5. Maintenance and condition control It also includes four informative annexes, which give background information and examples of procedures and deterioration models for the application in SLD. The format of Bulletin 34 follows the CEB-FIP tradition for Model Codes: the main provisions are given on the right-hand side of the page, and on the left-hand side, the comments. Note: An Italian translation of Bulletin 34 is also available; contact us for further details.

Please God Send Me a Wreck Brad Duncan, Martin Gibbs, 2015-05-25 This book explores the historical and archaeological evidence of the relationships between a coastal community and the shipwrecks that have occurred along the southern Australian shoreline over the last 160 years. It moves beyond a focus on shipwrecks as events and shows the short and long term economic, social and symbolic significance of wrecks and strandings to the people on the shoreline. This volume draws on extensive oral histories, documentary and archaeological research to examine the tensions within the community, negotiating its way between its roles as shipwreck saviours and salvors.
