Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Living Thelema David Shoemaker,2022-12 The most thorough and understandable exposition of the underlying theories and the practical applications of the spiritual disciplines of Thelema currently available. A landmark work. --Lon Milo DuQuette, author of *The Magick of Aleister Crowley* The system of spiritual attainment developed by Aleister Crowley is notoriously challenging in its scope. *Living Thelema*, adapted from the popular podcast of the same name, brings a welcome approachability to Crowley's material, without diminishing the depth of the system. The author focuses on the practical and experiential aspects of the path of Thelema, allowing the reader to grasp the true transformative power of the system. Beginners and advanced practitioners alike will find much useful advice here, as Shoemaker brings his characteristic down-to-earth style to bear on topics such as ritual and meditation practices, sex magick, astral projection, psychotherapy for magicians, the Knowledge and Conversation of the Holy Guardian Angel, and that pinnacle of attainment known as the crossing of the Abyss. The author's background as a practicing psychotherapist allows an entirely unique fusion of esoteric wisdom and cognitive science. In this entertaining and (dare I say it?) lively book, David Shoemaker reminds us that Thelema is not just a philosophy or a study but a spiritual practice. From applied 'how to' advice to thought-provoking 'how about' posers, Dr. Shoemaker offers his personal take--informed by twenty years of walking the talk, along with his incisiveness as a professional therapist--on how to get the most out of the fundamental Thelemic practices of yoga and ritual, both inside and outside of the temple. --Richard Kaczynski, author of *Perdurabo: The Life of Aleister Crowley*
