But, the League is attacked by the Secret Society of Super-Villains -- out for vengeance now that their own memories are restored. As the JLA battles, the Martian Manhunter confronts Despero -- the alien conqueror and the one behind the villains' memory-restoration. By the time the dust settles, the JLA may have won the battle but lost the war!--

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

But these magical attacks are a risk to bystanders, and Sylvie can't let that slide. When the war between the government and the magical world threatens the three people closest to her—her assistant, her sister, and her lover—Sylvie has no choice but to get involved with hidden powers bent on shaping the world to their liking. Now, with death and disaster on the horizon, even if Sylvie wins, things will never be the same...

Midnight Blue-Light Special Seanan McGuire, 2013-03-05 The second book in New York Times-bestselling Seanan McGuire's witty urban fantasy *InCryptid* series about a family of cryptozoologists who act as a buffer between humans and the magical creatures living in secret

around us. The only thing more fun than an October Daye book is an InCryptid book. –Charlaine Harris, #1 New York Times-bestselling author of Sookie Stackhouse series

Normal, adjective: Conforming to the standard or common type. See also ordinary.

Abnormal, adjective: Deviating from the common type, such as playing monster-human on the rooftops of Manhattan. See also Verity Price. The Price family has spent generations studying the monsters of the world, working to protect them from humanity—and to protect humanity from them. Verity Price is just trying to do her job, keeping the native cryptid population of Manhattan from getting into trouble, and doing a little ballroom dancing on the side. Enter Dominic De Luca, an operative for the Covenant of St. George, and Verity's on-again, off-again boyfriend. When he tells her that the Covenant is sending a full team to assess how ready the city is for a purge, Verity finds herself between a rock and a hard place. Stay, and risk her almost-certain death, or flee, and leave the cryptids of New York with nothing between them and the Covenant. With allies and enemies on every side, and no safe way to turn, it's going to take some quickstepping for Verity to waltz out of this one. There's just one question on everyone's mind: Is this the last dance for Verity Price?

1636: The Devil's Opera Eric Flint, David Carrico, 2013-09-16 A new addition to the multiple New York Times best-selling Ring of Fire series. After carving a place for itself in war-torn 17th century Europe, citizens of the modern town of Grantville, West Virginia take on a murderous conspiracy of operatic proportions in Magdeburg, the capital of the United States of Europe. New York Times Best Selling Series Eric Flint and David Carrico serve up the latest entry in the best-selling alternate history saga of them all, the Ring of Fire! It is the year 1636. The United States of Europe, the new nation formed by an alliance between the Swedish king Gustavus Adolphus and the West Virginians hurled back in time by a cosmic accident, is on the verge of civil war. His brain injured in the war with Poland, the USE's emperor Gustavus Adolphus is no longer in command. Enter Swedish chancellor Oxenstierna, a leader of aristocratic reaction against democracy. His goal: to assemble the forces of the hidebound ruling class in Berlin and drown the revolution in a bloodbath. In Magdeburg, the capital of the USE, Mike Stearns' wife Rebecca Abrabanel is organizing popular resistance to

Oxenstierna's plot. As part of the resistance, the American musician Marla Linder and her company of down-time musical partners are staging an opera that will celebrate the struggle against oppression. Princess Kristina, the heir to the USE's throne, is now residing in Magdeburg and is giving them her support and encouragement. But another plot is underway--this one right in the heart of the capital itself, and with murder as its method. The only people standing in the way are a crippled boy and the boxing champion who befriended him, and an unlikely pair of policemen. Can the American detective Byron Chieske and his down-timer partner Gotthilf Hoch thwart the killers before they succeed in their goal? Taste of Salt Frances Temple, 1994-08-05 Every Life Makes a Story Djo has a story: Once he was one of Titid's boys, a vital member of Father Jean-Bertrand Aristide's election team, fighting to overthrow military dictatorship in Haiti. Now he is barely alive, the victim of a political firebombing. Jeremie has a story: Convent-educated Jeremie can climb out of the slums of Port-au-Prince. But she is torn between her mother's hopes and her own wishes for herself ... and for Haiti. Father Jean-Bertrand Aristide has a story: A dream

At Aristide's request, Djo tells his story to Jeremie -- for Titid believes in the power of all of their stories to make change. As Jeremie listens to Djo, and to her own heart, she knows that they will begin a new story, one that is all their own, together.
