Growing Up with Girl Power Rebecca C. Hains,2012 Growing Up With Girl Power considers how real girls who grew up with girl power interpreted its messages about empowerment, girlhood, strength, femininity, race, and more, and suggests that for young girls, commercialized girl power had real strengths and limitations - sometimes in fascinating, unexpected ways.

Feminism and Pop Culture Andi Zeisler,2008-10-14 Whether or not we like to admit it, pop culture is a lens through which we alternately view and shape the world around us. When it comes to feminism, pop culture aids us in translating feminist philosophies, issues, and concepts into everyday language, making them relevant and relatable. In *Feminism and Pop Culture*, author and cofounder of *Bitch* magazine Andi Zeisler traces the impact of feminism on pop culture (and vice versa) from the 1940s to the present and beyond. With a comprehensive overview of the intertwining relationship between women and pop culture, this book is an ideal introduction to discussing feminism and daily life.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Superman on the Couch Danny Fingeroth,2004-01-01 Why are so many of the superhero myths tied up with loss, often violent, of parents or parental figures? What is the significance of the dual identity? What makes some superhuman figures good and others evil? Why are so many of the prime superheroes white and male? How has the superhero evolved over the course of the 20th and early 21st centuries? And how might the myths be changing? Why is it that the key superhero archetypes - Superman, Batman, Wonder Woman, Spider-Man, the X-Men - touch primal needs and experiences in everyone? Why has the superhero moved beyond the pages of comics into other media? All these topics, and more, are covered in this lively and original exploration of the reasons why the superhero - in comic books, films, and TV - is such a potent myth for our times and culture.>

Yoko Kanno's Cowboy Bebop Soundtrack Rose Bridges,2017-11-02 Cowboy Bebop is one of the most beloved anime series of all time, and if you ask its fans why, you can expect to hear about its music. Composer Yoko Kanno created an eclectic blend of jazz, rock, lullabies, folk and funk (to list just a few) for Cowboy Bebop's many moods and environments. Cowboy Bebop's blend of science fiction, westerns and gangster films promised to be the work which becomes a new genre itself, and only Kanno's score could deliver. In this volume of 33 1/3 Japan, musicologist Rose Bridges helps listeners make sense of the music of Cowboy Bebop. The book places it within the context of Bebop's influences and Kanno's larger body of work. It analyzes how the music tells Spike, Faye, Jet and the rest of the crew's stories. Cowboy Bebop and its music are like nothing else, and they deserve a guide to match. 33 1/3 Global, a series related to but independent from 33 1/3, takes the format of the original series of short, music-based books and brings the focus to music throughout the world. With initial volumes focusing on Japanese and Brazilian music, the series will also include volumes on the popular music of Australia/Oceania, Europe, Africa, the Middle East, and more.

Tunes for 'Toons Daniel Goldmark,2007-04-02 In this account of the creative effort that went into setting cartoons of the 1930s through the 1950s to music, the author examines how this shaped the animated characters and stories that have become embedded in American culture.

Sissy Dreams: From Boyfriend to Girlfriend Paul Zante, Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

Musicians from a Different Shore Mari Yoshihara,2008-05-02 Musicians of Asian descent enjoy unprecedented prominence in concert halls, conservatories, and classical music performance competitions. In the first book on the subject, Mari Yoshihara looks into the reasons for this phenomenon, starting with her own experience of learning to play piano in Japan at the age of three. Yoshihara shows how a confluence of culture, politics and commerce after the war made classical music a staple in middle-class households, established Yamaha as the world's largest producer of pianos and gave the Suzuki method of music training an international clientele. Soon, talented musicians from Japan, China and South Korea were flocking to the United States to study and establish careers, and Asian American families were enrolling toddlers in music classes. Against this historical backdrop, Yoshihara interviews Asian and Asian American musicians, such as Cho-Liang Lin, Margaret Leng Tan, Kent Nagano, who have taken various routes into classical music careers. They offer their views about the connections of race and culture and discuss whether the music is really as universal as many claim it to be. Their personal histories and Yoshihara's observations present a snapshot of today's dynamic and revived classical music scene.

Girls Catherine Driscoll,2002-08-21 The Spice Girls, Tank Girl comicbooks, Sailor Moon, Courtney Love, Grrl Power: do such things really constitute a unique girl culture? Catherine Driscoll begins by identifying a genealogy of girlhood or feminine adolescence, and then argues that both girls and culture as ideas are too problematic to fulfill any useful role in theorizing about the emergence of feminine adolescence in popular culture. She relates the increasing public visibility of girls in western and westernized cultures to the evolution and expansion of theories about feminine adolescence in fields such as psychoanalysis, sociology, anthropology, history, and politics. Presenting her argument as a Foucauldian genealogy, Driscoll discusses the ways in which young women have been involved in the production and consumption of theories and representations of girls, feminine adolescence, and the girl market.

Beyond The Chinese Connection Crystal S. Anderson,2013-06 Examines the rise of post-1970s Afro-Asian cultural production that embodied the aspirations and contradictions entailed in forging Black-Asian identification and solidarity.

The Cartoon Music Book Daniel Goldmark,Yuval Taylor,2002-11 The popularity of cartoon music, from Carl Stalling's work for Warner Bros. to Disney sound tracks and The Simpsons' song parodies, has never been greater. This lively and fascinating look at cartoon music's past and present collects contributions from well-known music critics and cartoonists, and interviews with the principal cartoon composers. Here Mark Mothersbaugh talks about his music for Rugrats, Alf Clausen about composing for The Simpsons, Carl Stalling about his work for Walt Disney and Warner Bros., Irwin Chusid about Raymond Scott's work, Will Friedwald about Casper the Friendly Ghost, Richard Stone about his music for Animaniacs, Joseph Lanza about Ren and Stimpy, and much, much more.

On Media Violence W. James Potter,1999 This definitive examination of this important social topic asks questions such as: How much media violence is there? What are the meanings conveyed in the way violence is portrayed? What effect does it have on viewers?Divided into four parts, the book covers: a review of research on media violence; re-conceptions of existing theories of media violence; addresses the need to rethink the methodological tools used to assess media violence; and introduces the concept of Lineation Theory, a perspective for thinking about media violence and a new theoretical approach explaining it.

Drawn to Sound Rebecca Coyle,2010 Animation films are widely consumed in the general population and the study of animation films has blossomed. But music and sound are often marginalized, despite the significance of music, voice talent, sound design and effects for both the films and their marketing. Drawn to Sound unpacks animation film sound and music tracks, and contextualises them within the screen and music industries. Focusing on feature-length, widely-distributed films released in the post-WW2 period, the book highlights work from key centres of animation production, such as the USA, the UK, Japan, significant studios including Disney, Aardman Animation and Studio Ghibli, and major auteurs like Tim Burton. Chapters by animation experts such as Paul Wells and Daniel Goldmark and by film music authorities including Philip Hayward, Ian Inglis and Janet Halfyard offer international perspectives on the history and aesthetics of music and sound in animation film. Contributions from authors in Japan, Australia, England, the USA and Canada explore animation soundtracks, their creators and their production approaches. Different disciplinary perspectives from music, media, cultural and animation studies offer models for future analysis. As the first of its kind, this anthology is an invaluable resource for students, teachers and researchers in film, animation, music and media studies.
