**History of Vatican II** Giuseppe Alberigo,Joseph A. Komonchak,1995 This third volume of the History of Vatican II describes the period during which the Second Vatican Council began to assume its mature and distinct character. With the succession of Pope Paul VI to Pope John XXIII the Council had a new head. With the revisions of texts accomplished during the first intersession the council had a new agenda more in line with the desires of the majority that had emerged during the first period. With the appointment of four Moderators the Council had a new leadership. The ecumenical commitment of the Council became visible, not only in the discussion of a decree on ecumenism, but in the visit of Paul VI to the Holy Land. During the second intersession the work of the Council continued, the most important features of which were the beginnings of the liturgical reform, the revision of the major texts still to be considered or voted on, and a plan to reduce many other texts to simple sets of propositions that was designed to make it possible for the Council to end with the third period.

**Early Italian Painting** Joseph Archer Crowe,Giovanni Battista Cavalcaselle,Anna Jameson,2023-12-28 Oscillating between the majesty of the Greco-Byzantine tradition and the modernity predicted by Giotto, Early Italian Painting addresses the first important aesthetic movement that would lead to the Renaissance, the Italian Primitives. Trying new mediums and techniques, these revolutionary artists no longer painted frescos on walls, but created the first mobile paintings on wooden panels. The faces of the figures were painted to shock the spectator in order to emphasise the divinity of the character being represented. The bright gold leafed backgrounds were used to highlight the godliness of the subject. The elegance of both line and colour were combined to reinforce specific symbolic choices. Ultimately the Early Italian artists wished to make the invisible visible. In this magnificent book, the authors emphasise the importance that the rivalry between the Sienese and Florentine schools played in the evolution of art history. The reader will discover how the sacred began to take a more human form through these forgotten masterworks, opening a discrete but definitive door through the use of anthropomorphism, a technique that would be cherished by the Renaissance.

**Understanding Interreligious Relations** David Cheetham,Douglas Pratt,David Thomas,2013-11 A multi-authored volume that explores the theme of the 'religious other' from the perspective of five major religions—Hinduism, Judaism, Buddhism, Christianity and Islam—and discusses a range of issues in which interreligious relations are central.

**Japan and Christianity** John Breen,Mark Williams,2016-07-27 Much has been written of the 'success' of the early missions to Japan during the decades immediately following the arrival of the first Jesuits in 1549. The subsequent 'failure' of the faith to put down roots strong enough to survive this initial wave of enthusiasm is discussed with equal alacrity. The papers in this volume, born of a Conference marking the centenary of the Japan Society of London, represent an attempt to reassess the contact between Christianity and Japan in terms of a symbiotic relationship, a dialogue in which the impact of Japan on the imported religion is viewed alongside the more frequently cited influence of Christianity on Japanese society. Here is a dynamic cultural encounter, examined by the papers in this volume from a series of political, literary and historical perspectives.

**Religious Transformation in South Asia** Christopher Harding,2008-09-18 In the last decades of the nineteenth century, urgent and unprecedented demands among oppressed peoples in colonial India drove what came to be called 'mass conversion movements' towards a range of Christian denominations, launching a revolution in South Asia's two thousand-year Christian history. For all the scale, drama, and lasting controversy of a movement that approached half a million members in Punjab alone by the end of the 1930s, much actually depended upon a varied range of tempestuous local relationships between converts and mission personnel, based upon uncertain and constantly evolving terms. Making extensive use of Protestant Evangelical and newly-uncovered Catholic mission sources, Religious Transformation in South Asia explores those relationships to reveal what lay behind the great diversity of social and religious aspirations of converts and mission personnel. In this highly accessible study, Christopher Harding overturns the one-dimensional Christian missions of popular imagination by analysing the way that social class, theological training, culture, motivation, and personality produced an extraordinary range of presentations of 'Christianity' in late colonial Punjab. Punjabi converts themselves were animated by a similarly broad spectrum of expectations and pressures, communicated through informal social networks and representing a brand of subaltern consciousness and resistance rarely considered by mainstream Indian historiography. These internal dynamics produced a first generation of rural Punjabi Christianity that was locally variable, highly fluid, and conflict-ridden-testament to the ways in which the meanings of conversion were contested by all sides in an encounter with far-reaching implications for the future of Christianity and religious identity in India and Pakistan.

**Handbook of Christianity in Japan** Mark Mullins,2018-12-24 This volume provides researchers and students of religion with an indispensable reference work on the history, cultural impact, and reshaping of Christianity in Japan. Divided into three parts, Part I focuses on Christianity in Japanese history and includes studies of the Roman Catholic mission in pre-modern Japan, the 'hidden Christian' tradition, Protestant missions in the modern period, Bible translations, and theology in Japan. Part II examines the complex relationship between Christianity and various dimensions of Japanese society, such as literature, politics, social welfare, education for women, and interaction with other religious traditions. Part III focuses on resources for the study of Christianity in Japan and provides a guide to archival collections, research institutes, and bibliographies. Based on both Japanese and Western scholarship, readers will find this volume to be a fascinating and important guide.
