**Start with Why** Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

**Silent Hill** Bernard Perron, 2012-01-03 Silent Hill: The Terror Engine, the second of the two inaugural studies in the Landmark Video Games series from series editors Mark J. P. Wolf and Bernard Perron, is both a close analysis of the first three Silent Hill games and a general look at the whole series. Silent Hill, with its first title released in 1999, is one of the most influential of the horror video game series. Perron situates the games within the survival horror genre, both by looking at the history of the genre and by comparing Silent Hill with such important forerunners as Alone in the Dark and Resident Evil. Taking a transmedia approach and underlining the designer's cinematic and literary influences, he uses the narrative structure; the techniques of imagery, sound, and music employed; the game mechanics; and the fiction, artifact, and gameplay emotions elicited by the games to explore the specific fears survival horror games are designed to provoke and how the experience as a whole has made the Silent Hill series one of the major landmarks of video game history.

**Breakcore** Andrew Whelan, 2009-05-27 Peer-to-peer music exchange, sampling, and digital distribution have garnered much attention in recent years, notably in debates about authorship, intellectual property, media control, and 'Web 2'. However, empirical scholarship on how these technologies are used creatively by musicians and fans is still sparse. In this interdisciplinary ethnography of 'bedroom producer' culture, Andrew Whelan examines interaction and exchange within a specific online milieu: peer-to-peer chatrooms dedicated to electronic music, focusing on a genre known as 'breakcore'. The author draws on semantic anthropology, ethnomethodology, sociolinguistics, and critical musicology to explore the activity afforded by this controversial and criminalised environment. Through in-depth analysis of often ritually vituperative text-based interaction, discussions of music, and the samples used in that music, Whelan describes the cultural politics and aesthetics of bedroom producer identity, highlighting the roles gender and ethnicity play in the constitution of subcultural authenticity. Empirically driven throughout, this book also engages with a spectrum of social theory; in doing so, it highlights the intersections between gender, interaction, technology and music. This book will prove valuable for students and scholars with interests in gender and language use, computer-mediated communication, online subcultures and virtual community, and the evolution, production and distribution of electronic music.

**New Media** Leah A. Lievrouw, Sonia M. Livingstone, 2009

**What is Gender?** Mary Holmes, 2007-06-18 Is gender something done to us by society, or something we do? What is the relationship between gender and other inequalities? What is Gender? explores these complex and important questions, helping readers to critically analyse how women's and men's lives are shaped by the society in which they live. The book offers a comprehensive account of trends in sociological thinking, from a material and economic focus on gender inequalities to the debates about meaning initiated by the linguistic or cultural turn. The book begins by questioning simplistic biological conceptions of gender and goes on to evaluate different theoretical frameworks for explaining gender, as well as political approaches to gender issues. The cultural turn is also examined in relation to thinking about how gender is related to other forms of inequality such as class and 'race'. The book is up-to-date and broad in its scope, drawing on a range of disciplines, such as: sociology, psychoanalysis, masculinity studies, literary criticism, feminist political theory, feminist philosophy and feminist theory.

**Writing Spaces: Readings on Writings, Vol. 2** Charles Lowe, Pavel Zemliansky, Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about the craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level.

**History of Computer Art** Thomas Dreher, 2020 The development of the use of computers and software in art from the Fifties to the present is explained. As general aspects of the history of computer art an interface model and three dominant modes to use computational processes (generative, modular, hypertextual) are presented. The History

of Computer Art features examples of early developments in media like cybernetic sculptures, computer graphics and animation (including music videos and demos), video and computer games, reactive installations, virtual reality, evolutionary art and net art. The functions of relevant art works are explained more detailed than usual in such histories.

**Perchlorate** Baohua Gu,John D. Coates,2006-07-02 Provides a detailed description of perchlorate chemistry and recent advances in innovative remediation technologies for perchlorate contamination and their pros and cons. Additionally, the first book to describe the natural occurrence of perchlorate and its unique isotopic signatures for environmental forensics and its detection in the environment, particularly the real-time analysis using surface enhanced Raman spectroscopy

**Writing Spaces 1** Charles Lowe,Pavel Zemliansky,2010-06-18 Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

**Sound Souvenirs** Karin Bijsterveld,José van Dijck,2009 In recent decades, the importance of sound for remembering the past and for creating a sense of belonging has been increasingly acknowledged. We keep sound souvenirs such as cassette tapes and long play albums in our attics because we want to be able to recreate the music and everyday sounds we once cherished. Artists and ordinary listeners deploy the newest digital audio technologies to recycle past sounds into present tunes. Sound and memory are inextricably intertwined, not just through the commercially exploited nostalgia on oldies radio stations, but through the exchange of valued songs by means of pristine recordings and cultural practices such as collecting, archiving and listing. This book explores several types of cultural practices involving the remembrance and restoration of past sounds. At the same time, it theorizes the cultural meaning of collecting, recycling, reciting, and remembering sound and music.

**Just One Thing** John Mauldin,2011-09-09 In Just One Thing, author John Mauldin offers an incomparable shortcut to prosperity: the personal guidance of an outstanding group of recognized financial experts, each offering the single most useful piece of advice garnered from years of investing. Conversational rather than technical in tone, each contributor's personal principle for success is illustrated with entertaining and illuminating real-life stories.

**Spontaneous Shrines and the Public Memorialization of Death** J. Santino,2016-04-30 This is an edited volume of approximately 17 essays that deal with various types of spontaneous shrines and other, related public memorializations of death. The articles address events such as New York after 9/11; roadside crosses, and the use of 'Day of the Dead' altars to bring attention to deceased undocumented immigrants.

**Doubt** John Patrick Shanley,2010-08 Set in a Bronx Catholic school in 1964, a nun is faced with uncertainty as she has grave concerns for a male colleague.

**Concert Lighting** James Moody,Paul Dexter,2016-10-04 Concert Lighting: Tools, Techniques, Art, and Business Fourth Edition provides readers with an updated look at how to succeed in the complex world of concert lighting design and technology. The authors have reorganized the book into three comprehensive and thoroughly revised sections, covering history, equipment and technology, and design, and containing new information on LED technology, pixel mapping, projection options, media servers, automated lighting, solutions for moving lights, DMX, and Ethernet problems, and designer communication and collaboration. This book also explores the cross-media use of concert lighting techniques in film, video, theatre, and the corporate world, highlighted with advice from master designers such as Bruce Rodgers, Cosmo Wilson, and Sarah Landau. From securing precious contracts to knowing the best equipment to use to design a show, Concert Lighting covers everything a designer needs to know about working in the touring industry.

**How to Read Like a Writer** Mike Bunn, When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?
