Strategies for Supporting Inclusion and Diversity in the Academy Gail Crimmins 2020-06-29 This book explores tried and tested strategies that support student and faculty engagement and inclusion in the academy. These strategies are anchored by a brief exploration of the history and effect/s of exclusion and deprivelege in higher education. However, while many publications exploring academic inequality focus on the causes and impacts of structural, psychological and cultural exclusion based on racism, sexism, classism and ableism, they rarely engage in interventions to expose and combat such de/privilege. Capturing examples of inclusive practices that are as diverse as student and faculty populations, these strategies can be easily translated and employed by organisations, collectives and individuals to recognise and combat social and academic exclusion within higher education environments.

Dumbing Down America James Delisle 2021-09-03 At a time when the U.S. education system consistently lags behind its international peers, Dumbing Down America shows exactly why America can't keep up by providing a critical look at the nation's schools through the eyes of the children whose minds are languishing in countless classrooms. Filled with specific examples of how gifted children are being shortchanged by a nation that believes smart kids will succeed on their own, Dumbing Down America packs a powerful message: If we want our nation to prosper, we must pay attention to its most intelligent youth. With more than 35 years of experience working with and for gifted children, author James R. Delisle provides a template of what can and must happen in America's schools if they are to fulfill their mission of educating every child to the fullest potential. Dumbing Down America is a must-read for any individual who believes that the unfulfilled promises to gifted children must begin to be met in America's schools today, not someday.

Magic Ernesto De Martino 2015 The work of Ernesto de Martino is relatively unknown outside of Italian intellectual circles, but with a growing interest in his ethnographic and theoretical work, he is now widely considered to be one of the great anthropologists and historians of religion of the early twentieth century. Magic: A theory from the south (first published in Italian asSud e Magia) is de Martino's stunning ethnography of ceremonial magic in southern Italy (Luciana/Basilicata), an intimate "other" to Western European civilization. Rigorous and detailed analyses of evil eye, possession, witchcraft, religious belief, "binding," exorcism, and various magical practices lead de Martino to question the historical, ideological, ritual, psychological, and pragmatic grounds of the arts of enchantment. The question here is not whether magic is irrational or rational, but why it came to be perceived as a problem of knowledge in the first place. De Martino's response is contextualized within his wider, pathbreaking theorization of ritual, as well as his politically sensitive reading of the south's subaltern culture in its historical encounter with Western science. In addition to the ethnography, De Martino's historical anthropology traces the development of "jettatura" in Enlightenment Naples as a paradigm of the complex dynamics between hegemonic and subaltern cultures. Far ahead of its time, this first English edition (annotated and translated by Dorothy Louise Zinn) stands to be as relevant as ever as anthropologists (among others) continue to theorize modernity's continued tryst with magical thinking. 1st Edition Publication Data: [1959] 2001. Sud e magia. Milano: Feltrinelli Editore. ISBN: 9788807816758.

Pakeha Slaves, Maori Masters Trevor Bentley 2019 Slavery in the popular imagination has always been associated with the enslavement of Africans, and with good reason. Slavery however, is universal and not something that only white people did to black people. Throughout history, slavery has been practiced in many different forms and Maori slavery readily fits definitions of slavery elsewhere in world. This book discusses Pakeha (European) vassals or demi-slaves. Its main focus is the Europeans who lived and sometimes died as slaves in tribal New Zealand between the 1790s and 1880s. It examines when, where, why and how Maori obtained these slaves and the types of Europeans seized. It explores the diverse slave roles performed by white slaves, their sale prices and the immediate and long term physical and psychological effects of their servitude. Using published histories by hapu and iwi historians and writings on customary law by Maori scholars, captivity narratives by returned Pakeha slaves, and contemporary accounts about white slaves in newspapers, journals, letters and logs historian Trevor Bentley paints a vivid picture of the interaction between Maori and Pakeha and life in the early days of the colony.

A History of Mass Communication Irving Fang 1997-02-27 This exciting new text traces the common themes in the long and complex history of mass communication. It shows how the means of communicating grew out of their eras, how they developed, how they influenced the societies of those eras, and how they have continued to exert their influence upon subsequent generations. The book is divided into six periods which are identified as 'Information Revolutions' writing, printing, mass media, entertainment, the 'toolshed' (which we call 'home' now), and the Information Highway. In looking at the ways in which the tools of communication have influenced and been influenced by social change, A History of Mass Communication provides students of media and journalism with a strong sense of the way their chosen field affects how society functions. Providing a broad-based approach to media history, Dr. Fang encourages the reader to take a careful look at where our culture is headed through the tools we use to communicate with one another. A History of Mass Communication is not only the most current text on communication history, but also an invaluable resource for anyone interested in how methods of communication affect society. *Funkytown* Paul Kennedy 2021-09-28 It is 1993: a serial killer is loose on the streets of Frankston, Victoria. The Amelia Six Kristin L. Gray 2020-06-30 “A cozy whodunit that cheerfully affirms girls’ and women’s contributions to aerospace.” —Kirkus Reviews “Comparisons with Nancy Drew and Sammy Keyes come to mind, but this satisfying mystery seems more like the works of Ellen Raskin, E.L. Konigsburg, and Gennifer Choldenko.” —School Library Connection “A wonderful tribute to [Amelia Earhart] who herself came to embody mystery.” —Booklist Amelia Earhart’s famous aviator goggles go missing and eleven-year-old Millie has to find them before the night is over in this girl-powered middle grade whodunit. Eleven-year-old Amelia Ashford—Millie to her friends (if she had any, that is)—doesn’t realize just how much adventure awaits her when she’s given the opportunity of a lifetime: to spend the night in Amelia Earhart’s childhood home with five other girls. Make that five strangers. But Millie's mom is a pilot like the famous Amelia, and Millie would love to have something to write to her about...if only she had her address. Once at Amelia’s house in Atchison, Kansas, Millie stumbles upon a display of Amelia’s famous flight goggles. She can’t believe her good luck, since they’re about to be relocated to a fancy museum in Washington, DC. But her luck changes quickly when the goggles disappear, and Millie was the last to see them. Soon, fingers are pointing in all directions, and someone falls strangely ill. Suddenly, a fun night of scavenger hunts and sweets takes a nosedive and the girls aren’t sure who to trust. With a blizzard raging outside and a house full of suspects, the girls have no choice but to band together. It’s up to the Amelia Six to find the culprit and return the goggles to their rightful place. Or the next body to collapse could be one of theirs.

The Fools of Chelm and Their History Isaac Bashevis Singer 1988-12-01

The Street of Crocodiles Bruno Schulz 1977 The Street of Crocodiles in the Polish city of Drogobych is a street of memories and dreams where recollections of Bruno Schulz's uncommon boyhood and of the eerie side of his merchant family's life are evoked in a startling blend of the real and the fantastic. Most memorable - and most chilling - is the portrait of the author's father, a maddened shopkeeper who imports rare birds' eggs to hatch in his attic, who believes tailors' dummies should be treated like people, and whose obsessive fear of cockroaches causes him to resemble one. Bruno Schulz, a Polish Jew killed by the Nazis in 1942, is considered by many to have been the leading Polish writer between the two world wars.
