Exile and Pride Eli Clare, 2015-07-15 First published in 1999, the groundbreaking *Exile and Pride* is essential to the history and future of disability politics. Eli Clare's revelatory writing about his experiences as a white disabled genderqueer activist/writer established him as one of the leading writers on the intersections of queerness and disability and permanently changed the landscape of disability politics and queer liberation. With a poet's devotion to truth and an activist's demand for justice, Clare deftly unspools the multiple histories from which our ever-evolving sense of self unfolds. His essays weave together memoir, history, and political thinking to explore meanings and experiences of home: home as place, community, bodies, identity, and activism. Here readers will find an intersectional framework for understanding how we actually live with the daily hydraulics of oppression, power, and resistance. At the root of Clare's exploration of environmental destruction and capitalism,

sexuality and institutional violence, gender and the body politic, is a call for social justice movements that are truly accessible to everyone. With heart and hammer, *Exile and Pride* pries open a window onto a world where our whole selves, in all their complexity, can be realized, loved, and embraced.

Motorized Obsessions Paul R. Josephson, 2007-09-02 2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made

to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

On Speed Nicolas Rasmussen,2009-11 A detailed history of the use of amphetamines follows the rise, fall, and surprising resurgence of the popular drug in America since they were marketed as the original antidepressant in the 1930s.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that

of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Working with Words Brian S. Brooks, James L. Pinson, Jean Gaddy Wilson, 2013-01-07 No matter what the medium, from print to broadcast to digital, Working with Words presents the best writing advice for journalists. It is designed to help students gain the grammatical and stylistic skills they need

and then serve as a reference throughout their careers. Written by working journalists, with parts devoted to grammar and mechanics as well as journalistic style and writing for different media, it offers coverage the Associated Press Stylebook does not – and it's affordably priced at 30-50% less than competing texts. The new edition contains tools that make it even easier to navigate, tackles the unique issues inherent to writing for online media, and offers improved grammar and writing instruction.

Car Crash Culture M. Brottman, 2016-04-30 A morbidly fascinating and articulate collection of essays, this book explores the grim underside of America's cult of the automobile and the disturbing, frequently conspiratorial, speculations that arise whenever the car becomes the cause or the site of human death. Through analysis of fatal celebrity car accidents and other examples of death by automobile, as well as through personal memoir and forensic reports, cultural critics ponder our very human fascination with the car crash. Topics include the roles and experiences of passengers and bystanders, car crash conspiracy theories, the automobile as a site of murder, studies of car crash

cinema, and psychological interpretations of the notion of the 'accident.' The book features original essays by such underground icons as Kenneth Anger and Adam Parfrey.

Over Our Dead Bodies Chapman, Simon, 2013-02-06 The Port Arthur massacre on 28 April 1996, when 35 people were shot dead by Martin Bryant, transformed Australia's gun control debate. Public outrage drove politicians from all sides of politics to embrace gun control. Non-violent 'people power' galvanised government resolve to outlaw semi-automatic weapons, register all guns, and tighten gun ownership laws. Simon Chapman's book gives an insider's view of the struggle for gun control, highlighting the public discourse between shooters determined to preserve the right for civilians to bear military-style weapons, and activists dedicated to getting Australia 'off the American path' of gun violence. Law reform is not inevitable. It requires the planned, strategic use of media and advocacy to convert anger into action. The story of the campaign for gun control is a practical guide to achieving humane social change for activists everywhere.
