Journal of the Fortean Research Center Paperbound Ray Boeche,2012-07-01 The Fortean Research Center was founded in Lincoln, Nebraska in 1982. During the two decades of its existence, this volunteer group of researchers and investigators delved deep into the unexplained. Exploring events in Nebraska - and far beyond -that included ghosts, UFOs, Bigfoot encounters, animal mutilations, government cover-ups, alleged alien abductions, psychic phenomena, cult activity, and even a sighting of a blob-like mystery creature the Fortean Research Center became recognized among members of the Fortean, paranormal, and UFO research communities around the world, as a reliable and trusted source of information. Here is the entire collection of the Journal of the Fortean Research Center, 23 issues in all. These publications are a reflection of their time, and demonstrate in many cases the beginning steps into subjects familiar to the public today: alleged UFO crashes and landings at government installations, alien abductions, cryptozoology and more.

The Poems of Oswald Von Wolkenstein Albrecht Classen,2008-12-08 This book offers the first complete English translation of the poems by the late-medieval German (Tyrolean) Oswald von Wolkenstein (1376/1377-1445). Oswald von Wolkenstein was one of the leading poets of his time and created some of the most exciting, experimental, and also deeply religious-conservative poetry of the entire Middle Ages and far beyond. German scholarship and musicologists have long recognized the extraordinary strength and power of Oswald's Middle High German songs, both in terms of his poetic

imagery and his musical performance. This book proves Oswald'suvre to be one of the most idiosyncratic and individualistic in the entire late Middle Ages. Classen reveals how Oswald continued the medieval tradition, yet was a true innovator, exploring new attitudes toward love, sexuality, travel, war, politics, language, music, and, above all, his own individuality.

Writers and Missionaries Adam Shatz,2023-05-09 What does it mean to be a politically committed writer? Through a close reading of the lives and works of some of the greatest intellectuals of recent times, Adam Shatz asks: do writers have an ethical imperative to question injustice? How can one remain a dispassionate thinker when involved in the cut and thrust of politics? And, in an age of horror and crisis, what does it mean to be a committed writer? Shatz interrogates the major figures of twentieth and twenty-first century thought and finds within their lives and work the roots of our present intellectual and geopolitical situation. Charting the role of the committed intellectual through the work of Jean-Paul Sartre on the Algerian War and Edward Said's lifelong solidarity with the Palestinian people, to Fouad Ajami's role as the native informant for pro-intervention cause in the lead-up to the invasion of Iraq, alongside philosophers and critics Roland Barthes, Jacques Derrida and Claude Lévi-Strauss and the novelists Michel Houellebecq and Richard Wright, each struggled to reconcile their writing and their politics, their thought and their commitments. *Writers and Missionaries* is an erudite and incisive work of intellectual elucidation and biographical enquiry that demands that we interrogate anew the relation of thought and action in the struggle for a more just world.

The situation in Amsterdam is comparable to Chinese societies in other major cities, e.g. New York and London. This comprehensive study will help Western students, academics, civil servants, politicians and journalists who have an interest in Chinese culture to gain a better understanding of the significance of their associations. It also illustrates how Chinese immigrants live together and operate within a western society.

A Short History of Finland Fred Singleton,1998-10 Finland has often been ignored or misunderstood by the English-speaking world and this work presents the reader with a readable and authoritative introduction to the life of the Finns and the position of their country in the modern world. The book explains how a small nation, placed in an unfavorable geopolitical situation, won its independence and eventually achieved a high material standard of living together with an enviable degree of social and political stability by adapting itself to the realities of life in an unpromising environment.
