"Captains Courageous" Rudyard Kipling, 1899 The spoiled son of an American millionaire is washed overboard off Newfoundland and is picked up by a fishing boat. The boy experiences a great change in his perspective when he is forced to share the life and labour of the crew.

**The Cathedral & the Bazaar** Eric S. Raymond, 2001-02-01 Open source provides the competitive advantage in the Internet Age. According to the August Forrester Report, 56 percent of IT managers interviewed at Global 2,500 companies are already using some type of open source software in their infrastructure and another 6 percent will install it in the next two years. This revolutionary model for collaborative software development is being embraced and studied by many of the biggest players in the high-tech industry, from Sun Microsystems to IBM to Intel. The Cathedral & the Bazaar is a must for anyone who cares about the future of the computer industry or the dynamics of the information economy. Already, billions of dollars have been made and lost based on the ideas in this book. Its conclusions will be studied, debated, and implemented for years to come. According to Bob Young, This is Eric Raymond's great contribution to the success of the open source revolution, to the adoption of Linux-based operating systems, and to the success of open source users and the companies that supply them. The interest in open source software development has grown enormously in the past year. This revised and expanded paperback edition includes new material on open source developments in 1999 and 2000. Raymond's clear and effective writing style accurately describing the benefits of open source software has been key to its success. With major vendors creating acceptance for open source within companies, independent vendors will become the open source story in 2001.

*Rules of Play* Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

*Alternative Futures* K J Joy, Ashish Kothari, 2018-03-06 A remarkable, first-ever collection of 35 essays on India's future, by a diverse set of authors – activists, researchers, media practitioners, those who have influenced policies and those working at the grassroots. This book brings together scenarios of an India that is politically and socially egalitarian, radically democratic, economically sustainable and equitable, and socio-culturally diverse and harmonious. *Alternative Futures: India Unshackled* covers a wide

range of issues, organized under four sections. It explores ecological futures including environmental governance, biodiversity conservation, water and energy. Next, it envisions political futures including those of democracy and power, law, ideology, and India's role in the globe. A number of essays then look at economic futures, including agriculture, pastoralism, industry, crafts, villages and cities, localization, markets, transportation and technology. Finally, it explores socio-cultural futures, encompassing languages, learning and education, knowledge, health, sexuality and gender, and marginalized sections like dalits, adivasis, and religious minorities. Introductory and concluding essays tie these diverse visions together. Most essays include both futuristic scenarios and present initiatives that demonstrate the possibility of such futures. At a time when India faces increasing polarization along parochial, physical and mental boundaries, these essays provide a breath of fresh air and hope in the grounded possibilities for an alternative, decentralized, eco-culturally centred future. The essays range from the dreamy-eyed to the hard-headed, from the provocative to the gently persuasive. This book would hold appeal for a wide range of readers - youth, academics, development professionals, policy makers, government officials, activists, people's movements, media persons, business persons - concerned about the current state of India and the world, and willing to engage critically in the collective search for a better future.

*Weird!* Erin Frankel, 2012-07-27 Luisa is repeatedly teased and called weird by her classmate Sam, even though she is simply being herself—laughing with her friends, answering questions in class, greeting her father in Spanish, and wearing her favorite polka-dot boots. Luisa initially reacts to the

bullying by withdrawing and hiding her colorful nature. But with the support of her teachers, parents, classmates, and one special friend named Jayla, she is able to reclaim her color and resist Sam's put-downs. The Weird! Series These three books tell the story of an ongoing case of bullying from three third graders' perspectives. Luisa describes being targeted by bullying in Weird! Jayla shares her experience as a bystander to bullying in Dare! And in Tough!, Sam speaks from the point of view of someone initiating bullying. Kids will easily relate to Luisa, Jayla, and Sam, as each girl has her own unique experience, eventually learning how to face her challenges with the help of friends, peers, and caring adults. Part of the Bully Free Kids™ line

**Ethnicity and Family Therapy** Monica McGoldrick, John K. Pearce, Joe Giordano, 1982-11-10 Social, cultural, and religious characteristics that are relevant to working with Black American families, illustrated with case examples and hands on guide to developing cultural awareness of a specific ethnic population.

**The Children's Book of Thanksgiving Stories** Asa Don Dickinson, 1915  
**10 PRINT CHR\$(205.5+RND(1)); : GOTO 10** Nick Montfort, Patsy Baudoin, John Bell, Ian Bogost, Jeremy Douglass, 2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of 10 PRINT, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity

in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

**Drawing Futures** Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

The Antitrust Paradox Robert Bork, 2021-02-22 The most important book on antitrust ever written. It shows how antitrust suits adversely affect the consumer by encouraging a costly form of protection for inefficient and uncompetitive small businesses.

**Designing with the Mind in Mind** Jeff Johnson, 2013-12-17 In this completely updated and revised edition of *Designing with the Mind in Mind*, Jeff Johnson provides you with just enough background in perceptual and cognitive psychology that user interface (UI) design guidelines make intuitive sense rather than being just a list of rules to follow. Early UI practitioners were trained in cognitive psychology, and developed UI design rules based on it. But as the field has evolved since the first edition of this book, designers enter the field from many disciplines. Practitioners today have enough experience in UI design that they have been exposed to design rules, but it is essential that they understand the psychology behind the rules in order to effectively apply them. In this new edition, you'll find new chapters on human choice and decision making, hand-eye coordination and attention, as well as new examples, figures, and explanations throughout. Provides an essential source for user interface design rules and how, when, and why to apply them. Arms designers with the science behind each design rule, allowing them to make informed decisions in projects, and to explain those decisions to others. Equips readers with the knowledge to make educated tradeoffs between competing rules, project deadlines, and budget pressures. Completely updated and revised, including additional coverage on human choice and decision making, hand-eye coordination and attention, and new mobile and touch-screen examples throughout.

*Blockchain Chicken Farm* Xiaowei Wang, 2020-10-13 A New York Times Book Review Editors' Choice. A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of *How to Do Nothing* From *FSGO x Logic*: stories about rural China, food, and tech that reveal new truths about the globalized world. In *Blockchain Chicken Farm*, the technologist and writer

Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous “Sinofuturist” recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals × Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech’s reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry’s many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

Kensuke's Kingdom Michael Morpurgo, 2014-05-01 A young boy is stranded on a small island with a mysterious man who shows him how to survive in this adventure story by the acclaimed author of War Horse. When Michael’s father

loses his job, he buys a boat and convinces Michael and his mother to sail around the world. It's an ideal trip—even Michael's sheepdog can come along. It starts out as the perfect family adventure—until Michael is swept overboard. He's washed up on an island, where he struggles to survive. Then he discovers that he's not alone. His fellow-castaway, Kensuke, is wary of him. But when Michael's life is threatened, Kensuke slowly lets the boy into his world. The two develop a close understanding in this remote place, but the question of rescue continues to divide them. Praise for *Kensuke's Kingdom* "[A] poignant adventure story . . . This well-crafted story has all the thrills and intrigues of Gary Paulsen's *Hatchet* . . . and Theodore Taylor's *The Cay* . . . and it will resonate with the same audience." —School Library Journal "Highly readable." —Booklist

**Hollywood's Indian** Peter Rollins, 2011-01-23 Offering both in-depth analyses of specific films and overviews of the industry's output, *Hollywood's Indian* provides insightful characterizations of the depiction of the Native Americans in film. This updated edition includes a new chapter on *Smoke Signals*, the groundbreaking independent film written by Sherman Alexie and directed by Chris Eyre. Taken as a whole the essays explore the many ways in which these portrayals have made an impact on our collective cultural life.

**Brew to Bikes** Charles H. Heying, 2010 Profiling hundreds of local businesses, and with an eye on Portland, Oregon's, unique penchant for sustainability and urban development, *Brew to Bikes* is about everything from bike manufacturers to microbreweries, from do-it-yourself to traditional crafts.

mass spectrometry in this introductory textbook. Following on from the highly successful first edition, this edition is extensively updated including new techniques and applications. All instrumental aspects of mass spectrometry are clearly and concisely described; sources, analysers and detectors. \* Revised and updated \* Numerous examples and illustrations are combined with a series of exercises to help encourage student understanding \* Includes biological applications, which have been significantly expanded and updated \* Also includes coverage of ESI and MALDI

**An Introduction to Human Communication** Judy C. Pearson, Paul Edward Nelson, 2000

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of *The New Marketing Manifesto*, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In *The Brand Innovation Manifesto*, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

*Entrepreneurship* Marc J. Dollinger, 1999 New to Prentice Hall, this upper-

level Entrepreneurship text is perfect for the MBA or Executive MBA market. Brief, paperback, the text frames the theories and applications of entrepreneurship within a resource-based theory focus. The new edition is designed to be more user-friendly, with increased pedagogy, (such as the Street Stories mini-cases.)

*Anna, Age Eight* Katherine Ortega Courtney, Dominic Cappello, 2017-12-25 With research showing child maltreatment is substantiated for one in eight children in the US, it's clear Adverse Childhood Experiences (ACEs), a broader category of experiences than just maltreatment, are at an epidemic scale in our society ... The authors' main thesis, quite simply, is that protecting all our children is entirely possible, but only when we know the scope of the challenges families face. The book provides a detailed, data-driven analysis of the scope of the problem and how to strengthen systems designed to protect our children--
