Hitler's Bandit Hunters Philip W. Blood 2011-03 In August 1942, Hitler directed all German state institutions to assist Heinrich Himmler, the chief of the SS and the German police, in eradicating armed resistance in the newly occupied territories of Eastern Europe and Russia. The directive for "combating banditry" (Bandenbekämpfung), became the third component of the Nazi regime's three-part strategy for German national security, with genocide (Endlösung der Judenfrage, or "the Final Solution of the Jewish Question") and slave labor (Erfassung, or "Registration of Persons to Hard Labor") being the better-known others. An original and thought-provoking work grounded in extensive research in German archives, Hitler's Bandit Hunters focuses on this counterinsurgency campaign, the anvil of

Hitler's crusade for empire. Bandenbekämpfung portrayed insurgents as political and racial bandits, criminalized to a greater degree than enemies of the state; moreover, violence against them was not constrained by the prevailing laws of warfare. Philip Blood explains how German forces embraced the Bandenbekämpfung doctrine, demonstrating the equal culpability of both the SS police forces and the "heroic" Waffen-SS combat arm and shattering the contrived postwar distinctions between them. He challenges the traditional view of Himmler as an armchair general and bureaucrat, exposing him as the driving force behind one of the most successful security campaigns in history, and delves into the contentious issue of the complicity of ordinary German police, soldiers, and citizens, as well as the citizens of occupied territories, in these state-sponsored manhunts. This book provokes new debates on the Nazi terrorization of Europe, the blind acquiescence of many, and the courageous resistance of the few.

The Masque of the Red Death Edgar Allan Poe 2020-09-29 E. A. Poe's short story follows Prince Prospero and his friends' futile attempt to outrun and outsmart a deadly plague, called the Red Death. The heart of the story is presented as a masquerade where the guests revel in mirth and intoxication, oblivious of the horrors that await them. The author's narrative techniques revolve around symbolism (number seven, the

clock, the black chamber) and provides an allegorical halo around the short story. Witnessing his wife's suffering from tuberculosis and the ravages of cholera in Baltimore at the time, Poe imbues "The Mask" with an air of veracity, but the supernatural reigns supreme. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

Masters Theses in the Pure and Applied Sciences

W. H. Shafer 2013-03-14 Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) * at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 24 (thesis year 1979) a total of 10,033 theses titles from 26 Canadian and 215 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. While Volume 24 reports these submitted in 1979, on occasion, certain universities do report theses submitted in

previous years but not reported at the time.

The Labyrinth Index Charles Stross 2018-10-30 "A bizarre yet effective yoking of the spy and horror genres." —The Washington Post Book World The Lovecraftian Singularity has descended upon the world in The Labyrinth Index, beginning an exciting new story arc in Charles Stross' Hugo Award-winning Laundry Files series! Since she was promoted to the head of the Lords Select Committee on Sanguinary Affairs, every workday for Mhari Murphy has been a nightmare. It doesn't help that her boss, the new Prime Minister of Britain, is a manipulative and deceptive pain in the butt. But what else can she expect when working under the thumb of none other than the elder god N'yar Lat-Hotep a.k.a the Creeping Chaos? Mhari's most recent assignment takes her and a ragtag team of former Laundry agents across the pond into the depths of North America. The United States president has gone missing. Not that Americans are alarmed. For some mysterious reason, most of the country has forgotten the executive branch even exists. Perhaps it has to do with the Nazgûl currently occupying the government and attempting to summon Cthulhu. It's now up to Mhari and her team to race against the Nazgûl's vampire-manned dragnet to find and, for his own protection, kidnap the president. Who knew an egomaniacal, malevolent deity would have a soft spot for international relations?

The Weird Tale S. T. Joshi 2003 The leading critic of supernatural literature here examines the roots of the "weird tale" (as Lovecraft called it) through detailed examinations of five "founding fathers" of the genre: Arthur Machen, Lord Dunsany, Algernon Blackwood, M.R. James, and H.P. Lovecraft. The result is a thorough study of the art, craft, philosophy, and aesthetics of an enduring genre of fantastic literature.

Writings 1997-2003 CCRU 2017-04-07 Startling pulp theory-fictions, forays into cyberculture, occultural studies and popular numerics, paranoid cosmic conspiracy, and schizoid tactics for escaping the reality system recovered from the prehistoric lore of Lemurian Time Sorcery. From before the beginning (which was also, according to them, already the end), the adepts of the Architectonic Order of the Eschaton have worked tirelessly to secure the past, present, and future against the incursions of Neolemurian time-sorcery, eliminating all polytemporal activity, stitching up the future, sealing every breach and covering every track. According to the AOE, the CCRU "does not, has not, and will never exist." And yet... The texts collected here document the CCRU's perilous efforts to catalogue the traces of Lemurian occulture, bringing together the scattered accounts of those who had stumbled upon lagooned relics of nonhuman intelligence—a project that led ultimately to the recovery of the Numogram and the reconstruction of the principles of Lemurian time-sorcery—before disintegrating into collective schizophrenia and two decades of absolute obscurity. Meshing together fiction, number theory, voodoo, philosophy, anthropology, palate tectonics, information science, semiotics, geotraumatology, occultism, and other nameless knowledges, in these pages the incomplete evidence gathered by explorers including Burroughs, Blavatsky, Lovecraft, Jung, Barker, J.G. Ballard, William Gibson, and Octavia Butler, but also the testimony of more obscure luminaries such as Echidna Stillwell, Oskar Sarkon, and Madame Centauri, are clarified and subjected to systematic investigation, comparison, and assessment so as to gauge the real stakes of the Time-War still raging behind the collapsing façade of reality. One of the most compelling and

unnerving collective research enterprises to have surfaced in the twentieth century, the real pertinence of the CCRU's work is only now beginning to reveal itself to an unbelieving world. To plunge into the tangled mesh of these conspiracies, weird tales, numerical plagues, and suggestive coincidences is to test your sense of reality beyond the limits of reasonable tolerance—to enter the sphere of unbelief, where demonic currents prowl, where fictions make themselves real. Hyperstition.

Ethics and Literary Practice Adam Zachary Newton 2021-09-09 This volume draws together a diverse array of scholars from across the humanities to formulate and address the question of "ethics and literary practice" for a new decade. In taking up a conjunction whose terms remain productively open to question, fifteen essays survey a range of approaches and topics including genre and disciplinary rhetoric, emergence theory and literary signification, the ethics of alterity, of attention, and of aesthetics, the decolonial and the paracritical, neorealism and contingency, analogy and affect, scripture and national literature. From Seamus Heaney to Hannah Arendt, Teresa Brennan to Stanley Cavell, Ronit Matalon to Édouard Glissant, Uwe Timm to Katherena Vermette, Notes for Echo Lake to the Gospel of St. Matthew, these contributions demonstrate how broadly and fruitfully ramifying its organizing inquiry can be. Bringing such multifarious perspectives to the topic feels only more urgent as language, meaning, and expression enter the crucible of a "post-truth" era.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Forgotten Realms Campaign Guide Bruce R. Cordell 2008 288 page hardcover by Bruce R. Cordell

The Los Angeles River Blake Gumprecht 2001-04-30 Winner of the J. B. Jackson Prize from the Association of American Geographers Three centuries ago, the Los Angeles River meandered through marshes and forests of willow and sycamore. Trout spawned in its waters and grizzly bears roamed its shores. The bountiful environment the river helped create supported one of the largest concentrations of Indians in North America. Today, the river is made almost entirely of concrete. Chain-link fence and barbed wire line its course. Shopping carts and trash litter its channel. Little water flows in the river most of the year, and nearly all that does is treated sewage and oily street runoff. On much of its course, the river looks more like a deserted freeway than a river. The river's contemporary image belies its former character and its importance to the development of Southern California. Los Angeles would not exist were it not for the river, and the river was

crucial to its growth. Recognizing its past and future potential, a potent movement has developed to revitalize its course. The Los Angeles River offers the first comprehensive account of a river that helped give birth to one of the world's great cities, significantly shaped its history, and promises to play a key role in its future.

working on the sermons during a fortnight in jail in July 1962. While behind bars, he spent uninterrupted time preparing the drafts for works such as "Loving Your Enemies" and "Shattered Dreams," and he continued to edit the volume after his release. Strength to Love includes these classic sermons selected by Dr. King. Pulp Sonnets Tony Barnstone 2015 Poetry. Art. Improvising on the tropes of classic pulp fiction, including genres like crime noir, horror, sci-fi, superhero, espionage, and vigilante, Tony Barnstone's audacious new poems are counterpointed by the mischievous (and blood-splattered) ink drawings of Iranian artist Amin Mansouri. At times reinventing the sonnet tradition, Barnstone's linked sequences evoke serial-format comics and cinema, as each series breaks into discrete frames propelled by action. The ancient gods and epics have been high-jacked by animations and video games, but pulp remains unconquerable—ghastly, shameless, outrageous—and fun!

I Have a Dream Time-Life Books 1968

Metagaming Stephanie Boluk 2017-04-04 The greatest trick the videogame industry ever pulled was convincing the world that videogames were games rather than a medium for making metagames. Elegantly defined as "games about games," metagames implicate a diverse range of practices that stray outside the boundaries and bend the rules: from technical glitches and forbidden strategies to Renaissance painting, algorithmic trading, professional sports, and the War on Terror. In *Metagaming*, Stephanie Boluk and Patrick LeMieux demonstrate how games always extend beyond the screen, and how modders, mappers, streamers, spectators, analysts, and artists are changing the way we play. *Metagaming* uncovers these alternative histories of play by exploring the strange experiences and

unexpected effects that emerge in, on, around, and through videogames. Players puzzle through the problems of perspectival rendering in Portal, perform clandestine acts of electronic espionage in EVE Online, compete and commentate in Korean StarCraft, and speedrun The Legend of Zelda in record times (with or without the use of vision). Companies like Valve attempt to capture the metagame through international e-sports and online marketplaces while the corporate history of Super Mario Bros. is undermined by the endless levels of Infinite Mario, the frustrating pranks of Asshole Mario, and even Super Mario Clouds, a ROM hack exhibited at the Whitney Museum of American Art. One of the only books to include original software alongside each chapter, Metagaming transforms videogames from packaged products into instruments, equipment, tools, and toys for intervening in the sensory and political economies of everyday life. And although

videogames conflate the creativity, criticality, and craft of play with the act of consumption, we don't simply play videogames—we make metagames.
