**Transformers: Exiles** Alex Irvine 2014-06-11 The epic battles between Optimus Prime and Megatron have long thrilled Transformers fans. But these two giants weren't always great leaders and bitter foes. This new novel continues the electrifying saga that started with Transformers: Exodus, unveiling the origins of the conflict—the explosive events that unfolded before Optimus and Megatron arrived Earthside, forever altering the destiny of their kind. Once allies, Optimus and Megatron are now enemies in a civil war. To prevent Cybertron from falling into Megatron's hands, Optimus jettisons the planet's heart, the AllSpark,

into space, then sets out to find it with Megatron hot on his heels. Optimus is determined to defeat Megatron, bring the AllSpark home, and restore Cybertron to its former glory. But a saboteur lurks aboard Optimus's spaceship, and ahead lie lost colonies, some of them hostile. Optimus needs help of the highest caliber, but from whom? Heroes such as Solus, Nexus, and Vector Prime are just names from make-believe stories of long ago. Or are they? Maybe it's time for Optimus Prime to find out. Maybe it's the only chance he has to vanquish mighty Megatron.

Years later and millions of miles away, the Autobots pick up a Cybertronian distress signal from a mysterious planet called Earth. The ghostly signal shouldn't exist, and it'll bring Optimus Prime and his team—including brand-new Autobot ECTOTRON—face-to-face with... the GHOSTBUSTERS!

**Incredible Change-bots** 2007 Far away in space, there is a planet full of robots able to change from robot form to vehicle form - the Incredible Change-Bots! Leaving their war torn planet, the Change-Bots arrive on Earth, where their battle continues - but at what cost?! **Transformation: A Personal Journey Through the British Transformers Comic Volume 1: 1984-1987** Stuart Webb 2015-07-26 Starting in 1984, the British Transformers comic wasn't just a successful toy advert, it taught a generation of British schoolboys how to read through its exciting action packed pages. With sales that vied with 2000AD writers Simon Furman and Bob Budiansky created a generation of fan boys that have never looked back. Stuart Webb was one such reader, and in 2012 he

began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip, every comedic cartoon and each editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also personal, full of humour and silliness and even the occasionally thoughtful moment. The final result is an essential read, for Transformers fans, and those interested in the history of Marvel comics in the UK and the impact this comic had on an entire generation. *Composition Notebook* Isabella Breuer book 2020-03-18 Enjoy this simple, well-designed, undated daily personal inventory journal that's perfect for raising self-awareness and staying focused on the things that matter.
