Engaging Art Steven J. Tepper,Bill Ivey,2012-08-21 Engaging Art explores what it means to participate in the arts in contemporary society – from museum attendance to music downloading. Drawing on the perspectives of experts from diverse fields (including Princeton scholars Robert Wuthnow and Paul DiMaggio; Barry Schwartz, author of The Paradox of Choice; and MIT scholars Henry Jenkins and Mark Schuster), this volume analyzes key trends involving technology, audience demographics, religion, and the rise of do-it-yourself participatory culture. Commissioned by The Wallace Foundation and independently carried out by the Curb Center at Vanderbilt University, Engaging Art offers a new framework for understanding the momentous changes impacting America’s cultural life over the past fifty years. This volume offers suggestive glimpses into the character and consequence of a new engagement with old-fashioned participation in the arts. The authors in this volume hint at a bright future for art and citizen art making. They argue that if we center a new commitment to arts participation in everyday art making, creativity, and quality of life, we will not only restore the lifelong pleasure of homemade art, but will likely seed a new generation of enthusiasts who will support America’s signature nonprofit cultural institutions well into the future.

Handbook of Materials for String Musical Instruments Voichita Bucur,2016-08-29 This book addresses core questions about the role of materials in general and of wood in particular in the construction of string instruments used in the modern symphony orchestra – violins, violas, cellos and basses. Further attention is given to materials for classical guitars, harps, harpsichords and pianos. While some of the approaches discussed are traditional, most of them depend upon new scientific approaches to the study of the structure of materials, such as for example wood cell structure, which is visible only using modern high resolution microscopic techniques. Many examples of modern and classical instruments are examined, together with the relevance of classical techniques for the treatment of wood. Composite materials, especially designed for soundboards could be a good substitute for some traditional wood species. The body and soundboard of the instrument are of major importance for their acoustical properties, but the study also examines traditional and new wood species used for items such as bows, the instrument neck, string pegs, etc. Wood species’ properties for musical instruments and growth origins of woods used by great makers such as Antonio Stradivari are examined and compared with more recently grown woods available to current makers. The role of varnish in the appearance and acoustics of the final instrument is also discussed, since it has often been proposed as a ‘secret ingredient’ used by great makers. Aspects related to strings are commented.As well as discussing these subjects, with many illustrations from classical and contemporary instruments, the book gives attention to conservation and restoration of old instruments and the physical results of these techniques. There is also discussion of the current value of old instruments both for modern performances and as works of art having great monetary value.The book will be of interest and value to researchers, advanced students, music historians, and contemporary string instrument makers. Musicians in general, particularly those playing string instruments, will also find its revelations fascinating. It will also attract the attention of those using wood for a variety of other purposes, for its use in musical instruments uncovers many of its fundamental features. Professor Neville H. FletcherAustralian National University, Canberra

A Companion to the Anthropology of Japan Jennifer Robertson,2008-03-10 This book is an unprecedented collection of 29 original essays by some of the world’s most distinguished scholars of Japan. Covers a broad range of issues, including the colonial roots of anthropology in the Japanese academy; eugenics and nation building; majority and minority cultures; genders and sexualities; and fashion and food cultures Resists stale and misleading stereotypes, by presenting new perspectives on Japanese culture and society Makes Japanese society accessible to readers unfamiliar with the country

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Amy Wu and the Patchwork Dragon Kat Zhang,2020-12-15 In this sweet and brightly illustrated picture book, Amy Wu must craft a dragon unlike any other to share with her class at school in this unforgettable follow-up to Amy Wu and the Perfect Bao. Amy loves craft time at school. But when her teacher asks everyone to make their own dragon, Amy feels stuck. Her first dragon has a long, wingless body, stag-like horns, and eagle claws, but her friends don’t think it’s a real dragon. Then she makes dragons like theirs, but none of them feels quite right...None of them feels like hers. After school, a story from Grandma sparks new inspiration, and Amy rounds up her family to help her. Together, can they make Amy’s perfect dragon?

Becoming Good Ancestors David Ehrenfeld,2009 Ehrenfeld is one of America's leading conservation biologists. Becoming Good Ancestors unites in a single, up-to-date framework pieces written over two decades, spanning politics, ecology, and culture, and illuminating the forces in modern society that thwart our efforts to solve today's hard questions about society and the environment. Our society has an inherent sense of what is right, says Ehrenfeld, and the creativity and persistence to make good things happen. It is now time to apply our intelligence to the very large problems we all face.

Floral Diplomacy at the White House Laura Dowling,2017-02 Stunning floral creations from the Chief Floral Designer at The White House Laura Dowling served as Chief Floral Designer at the White House form 2009 until 2015. In this unique position, she managed décor and flowers for thousands of White House events while using flowers as a strategic tool for communicating diplomatic, symbolic and policy messages. She is renowned for creating a new romantic style of flower arranging featuring free-flowing lines of vines and flowers emanating from a classical bouquet. This style is most evocative of nature and the garden, and balances a strong artistic vision with the wildness of nature. Under her leadership, Laura implemented floral artistry at the White House, designing bouquets of seasonal garden flowers in a style that is both modern and refined, yet casually elegant. She often presents her innovative arrangements in hand-made organic containers composed of leaves, branches and berries that are woven into patterns and motifs, creating integrated, cohesive displays that conjure both nature and the garden. Here, she describes her inspiration, provides tips and techniques on flower arranging and entertaining, and offers readers a fascinating behind-the-scenes glimpse into both official and private White House life.

National School Improvement Tool [in Arabic] ,2016 The National School Improvement Tool brings together findings from international research into the practices of highly effective schools and school leaders. The Tool assists schools to review and reflect on their efforts to improve the quality of classroom teaching and learning. It supports school-wide conversations - including with parents and families, school governing bodies, local communities and students themselves - about aspects of current practice, areas for improvement and evidence that progress is being made. The Tool does not describe everything that effective schools do, but focuses on those practices that are most directly related to school-wide improvements, and thus outcomes for students. In this sense, the tool can be thought of as a core element of more comprehensive school improvement programs, frameworks and initiatives.
