Sinners in the Hands of a Loving God Brian Zahnd 2017
Pastor Brian Zahnd began "to question the theology of a wrathful God who delights in punishing sinners, and has started to explore the real nature of Jesus and His Father. The book isn't only an interesting look at the context of some modern theological ideas; it's also offers some profound insight into God's love and eternal

plan." --Relevant Magazine (Named one of the Top 10 Books of 2017) God is wrath? Or God is Love? In his famous sermon "Sinners in the Hands of an Angry God," Puritan revivalist Jonathan Edwards shaped predominating American theology with a vision of God as angry, violent, and retributive. Three centuries later, Brian Zahnd was both mesmerized and terrified by Edwards's wrathful God. Haunted by fear that crippled his relationship with God, Zahnd spent years praying for a divine experience of hell. What Zahnd experienced instead was the Father's love--revealed perfectly through Jesus Christ--for all prodigal sons and daughters. In *Sinners in the Hands of a Loving God*, Zahnd asks important questions like: Is seeing God primarily as wrathful towards sinners true or biblical? Is fearing God a normal expected behavior? And where might the natural implications of this theological framework lead us? Thoughtfully wrestling with subjects like Old Testament genocide, the crucifixion of Jesus, eternal punishment in hell, and the final judgment in Revelation, Zahnd maintains that the summit of divine revelation for sinners is not God is wrath, but God is love.

Drawing Futures Bob Sheil 2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand

synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Reflections on the Human Condition Eric Hoffer 1973 This collection of aphorisms and philosophical comment represents Eric Hoffer at his best. It offers stunning insights that strike home with startling frequency, often most uncomfortably; it has a fine unity, a well-defined theme. That some of the statements invite argument and questioning is inevitable and stimulating. Here is a book of the "wry epigram and the icy aphorism" which made his earlier books so appealing and gained for him a wide audience.--Publisher description.

Chinese for Specific and Professional Purposes Hongyin Tao 2019-08-20 This book, likely the first of its kind in the English language, explores Chinese for specific and professional purposes (CSP) in terms of theorizing and developing practical applications for language teaching and learning. While research in language for specific purposes is thriving for languages such as English, there has been comparatively little such research conducted for Chinese. This volume attempts to fill the gap by bringing together practitioners from a broad international scholarly community, who share common interests yet diverse orientations. Seventeen papers are included, and address four broad thematic categories: (1) academic Chinese, (2) business Chinese, (3) Chinese for medicine and health care, and (4) Chinese for other broadly defined services and

industries (diplomacy, tourism, wine-tasting, etc.). Representing the state of the art in CSP research, the book offers an indispensable guide for anyone interested in theoretical and practical issues in this area of applied Chinese language studies.

Role-Playing Games of Japan Björn-Ole Kamm 2020-08-28

This book engages non-digital role-playing games—such as table-top RPGs and live-action role-plays—in and from Japan, to sketch their possibilities and fluidities in a global context. Currently, non-digital RPGs are experiencing a second boom worldwide and are increasingly gaining scholarly attention for their inter-media relations. This study concentrates on Japan, but does not emphasise unique Japanese characteristics, as the practice of embodying an RPG character is always contingently realised. The purpose is to trace the transcultural entanglements of RPG practices by mapping four arenas of conflict: the tension between reality and fiction; stereotypes of escapism; mediation across national borders; and the role of scholars in the making of role-playing game practices.

Japanese Robot Culture Yuji Sone 2016-12-17 Japanese Robot Culture examines social robots in Japan, those in public, domestic, and artistic contexts. Unlike other studies, this book sees the robot in relation to Japanese popular culture, and argues that the Japanese

'affinity' for robots is the outcome of a complex loop of representation and social expectation in the context of Japan's continuing struggle with modernity. Considering Japanese robot culture from the critical perspectives afforded by theatre and performance studies, this book is concerned with representations of robots and their inclusion in social and cultural contexts, which science and engineering studies do not address. The robot as a performing object generates meaning in staged events and situations that make sense for its Japanese observers and participants. This book examines how specific modes of encounter with robots in carefully constructed mises en scène can trigger reflexive, culturally specific, and often ideologically-inflected responses.

Someone Other Than a Mother Erin S. Lane 2022-04-26
Theologian Erin S. Lane overturns dominant narratives about motherhood and inspires women to write their own stories. Is it possible to do something more meaningful than mothering? As a young Catholic girl who grew up in the American Midwest on white bread and Jesus, Erin S. Lane was given two options for a life well-lived: Mother or Mother Superior. She could marry a man and mother her own children, or she could marry God, so to speak, and mother the world's children. Both were good outcomes for someone else's life. Neither would fit the shape of hers. Interweaving Lane's story with those of other women—including singles and couples, stepparents and foster parents, the infertile and the ambivalent—Someone Other Than a Mother challenges the social scripts that put moms on an impossible pedestal and shame childless women and nontraditional families for not measuring up. You may have heard these lines before: • "Motherhood is the toughest job." This script diminishes the work of

non-moms and pressures moms to make parenting their full-time gig. • "It'll be different with your own." This script underestimates the love of nonbiological kin and pushes unfair expectations onto nuclear families. • "Family is the greatest legacy." This script turns children into the ultimate sign of a woman's worth and discounts the quieter ways we leave our mark. With candor and verve, *Someone Other Than a Mother* tears up the shaming social scripts that are bad for moms and non-moms alike and rewrites the story of a life well-lived, one in which purpose is bigger than body parts, identity is fuller than offspring, and legacy is so much more than DNA.
