**The Last Great Cavalry Charge** Joe Robinson, Janet Robinson, Francis Hendriks, 2017-05-03 The Battle of the Silver Helmets was an engagement orchestrated according to the previous successes of the cavalry of Frederick the Great. It was staged so that the magnificently equipped and trained German Fourth Cavalry Division would charge into glory, sabres rattling; instead, 24 German officers, 468 men, and 843 horses were lost during the eight separate charges conducted that day. The entire right wing of the Imperial German Army consisted of only nine cavalry brigades in the Schlieffen Plan, and in the battle of 12 August 1914, two of these brigades were catastrophically beaten. This battle has not yet been explored in the English language because it took place before the British Expeditionary Force (BEF) landed in the Channel ports and well before any American involvement. British historians have also generally focused on Germany's efforts to enter Belgium through the forts at Liège, which are east of Halen. However, the Battle of the Silver Helmets so impacted century-old cavalry tradition that large-scale charges would never again be attempted on the Western Front.

Thoroughly researched and hugely revelatory, *The Last Great Cavalry Charge* is a blow-by-blow account of the moment that the cavalry went from a prestigious, pivotal role in German Army tactics to obsolescence in the face of newly mechanised infantry. It provides essential and moving insight into the wider socio-cultural repercussions of technical military innovations in the First World War.

*Tropical Plant Science* G. K. Berrie, A. Berrie, J. M. O. Eze, 1987  
Patton, Montgomery, Rommel Terry Brighton, 2009-11-03 In Patton, Montgomery, Rommel, one of Britain's most accomplished military scholars presents an unprecedented study of the land war in the North African and European theaters, as well as their chief commanders—three men who also happened to be the most compelling dramatis personae of World War II. Beyond spellbinding depictions of pivotal confrontations at El Alamein, Monte Cassino, and the Ardennes forest, author-scholar Terry Brighton illuminates the personal motivations and historical events that propelled the three men's careers: how Patton's, Montgomery's, and Rommel's Great War experiences helped to mold their style of command—and how, exactly, they managed to apply their arguably megalomaniacal personalities (and hitherto unrecognized political acumen and tact) to advance their careers and strategic vision. Opening new avenues of inquiry into the lives and careers of three men widely profiled by scholars and popular historians alike, Brighton definitively answers numerous lingering and controversial questions: Was Patton really as vainglorious in real life as he was portrayed to be on the silver screen?—and how did his tireless advocacy of mechanized cavalry forever change the face of war? Was Monty's dogged publicity-seeking driven by his own need for recognition or by his desire to claim for Britain a leadership role in postwar global order?—and how did this prickly commoner manage to earn affection and esteem from enlisted men and nobility alike? How might the war have ended if Rommel had had more tanks?—and what

fundamental philosophical difference between him and Hitler made such an outcome virtually impossible? Abetted by new primary source material and animated by Terry Brighton's incomparable storytelling gifts, Patton, Montgomery, Rommel offers critical new interpretations of the Second World War as it was experienced by its three most flamboyant, controversial, and influential commanders—and augments our understanding of each of their perceptions of war and leadership.

**The Blonde Geisha** Jina Bacarr,2014-08-01 The early summer of 1892 brought a heavy rainy season that year in Japan. Plum Rain, the Japanese called it, because it comes when the fruit bulges with ripeness and promise. Like a young girl reaching womanhood. A girl like me. In the ancient Japanese tradition of beauty and grace, sex and erotic fantasies are hidden secrets that only a select few may learn, and which are forbidden to foreigners. But when a threat to her father's life puts her own in jeopardy, young Kathlene Mallory is sent to live in safety at the Tea House of the Look-Back Tree, where she is allowed to glimpse inside the sensual world of the geisha. During the years of her training in the art of pleasuring men, Kathlene's desires are

awakened by the promise of unending physical delights, and she eagerly prepares for the final ritual that will fulfill her dream of becoming a geisha — the selling of her virginity. The man willing to pay for such an honor, Baron Tonda, is not the man for whom Kathlene carries a secret longing, but he is the man who will bring ruin to the teahouse, and danger to Kathlene, if he is disappointed....
