Air-Mech-Strike BG (R) David L. Grange,BG (R) Huba Wass de Czege,LTC Richard D. Liebert USAR,Major Charles A. Jarnot,Major Al Huber,LT Mike Sparks,2002-01-01 This book outlines how to reorganize the U.S. Army into a fully 2 and 3-Dimensional maneuver capable, ground force with terrain-agile, armored fighting vehicles sized to rapidly deploy by fixed-wing and rotary-wing aircraft to the scene of world conflicts and strike at the heart of freedom,s enemies. The plan to build the Army into Air-Mech-Strike Forces, exploiting emerging information-age technologies, as well as America,s supremacy in aircraft and helicopter delivery systems---at the lowest cost to the taxpayers, is described in detail. These Army warfighting organizations, using existing and some newly purchased equipment, will shape the battlefield to America,s advantage, preserving the peace before it is lost; if not, then winning fights that must be fought quickly. The dangerous world we live in moves by the speed of the AIR, and the 21st Century U.S. Army 2D/3D combat team will dominate this medium by Air-Mech-Strike!

Airborne Warfare James Maurice Gavin,2020-04-13 To every

member of the 82nd Airborne Division who dropped as part of the American paratroop landings during World War Two, they breathed a little easier knowing their commander Jumpin' Jim Gavin would be jumping with them. General Gavin's paratroops drop-landed and fought in Sicily, Normandy on D-Day and during the abortive attempt to capture the Rhine bridges during Operation Market-Garden. He shared the risks of all his men parachuting into enemy territory, often only armed with his GI issue rifle. His memoirs are an outstanding addition to the literature of the Airborne in World War II.

Agatha H. and the Siege of Mechanicsburg Phil Foglio,Kaja Foglio,2020-03-17 In a time when the Industrial Revolution has become an all-out war, mad science rules the world—with mixed success. In *Agatha H and the Siege of Mechanicsburg*, Agatha Heterodyne, the last of the Heterodyne family, has returned to her family's hereditary town with the might of the Wulfenbach Empire hot on her heels. The only thing holding off an outright attack is Gilgamesh Wulfenbach, the heir to the Empire, who has joined Agatha and her friends inside the great artificially intelligent fortress of Castle Heterodyne. Now they must race to repair the mechanisms that once allowed the Castle to defend Mechanicsburg, before the rest of Europa shows up to take all the revenge the mad Heterodynes of the past so richly earned. From

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui, 2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military

regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are

restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of

many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

Annihilation Plan John Andrew Karr, 2022-01-24 Mars, in the throes of resurrection. If you happened to have an illegal telescope, or proxied your galaxy.net address well enough to pirate your way to satellite images of Mars, you might glimpse a damaged but operational Mars Orbiter 1, alive with 'rebels.' You could see clusters of superheated propellant burning beyond Earth space, as the EFF (Earth First Faction) sends armed planetary shuttles on an attack route to relieve the rebels of their existence. If so, you'd be witnessing Mars Wars.
