Million Mile Road Trip Rudy Rucker, 2019-05-07 Three teens ride a car across the universe and back. Look out for the flying saucers! Tipping his hat to Thomas Pynchon, Jack Kerouac, and Douglas Adams, Rucker immerses readers in a fantastical roadtrip adventure that's a wild ride of unmitigated joy. . . . he ties everything together with internal consistency, playful use of language that keeps his ideas alien yet accessible, and a solid grounding in fourth-dimensional math. This wacky adventure is a geeky reader's delight.—Publishers Weekly, starred review

No Exit from Pakistan Daniel S. Markey, 2013-10-07 This book tells the story of the tragic and often tormented relationship between the United States and Pakistan. Pakistan's internal troubles have already threatened U.S. security and international peace, and Pakistan's rapidly growing population, nuclear arsenal, and relationships with China and India will continue to force it upon America's geostrategic map in new and important ways over the coming decades. This book explores the main trends in Pakistani society that will help determine its future; traces the wellsprings of Pakistani anti-American sentiment through the history of U.S.-Pakistan relations from 1947 to 2001; assesses how Washington made and implemented policies regarding Pakistan since the terrorist attacks on the United States on September 11, 2001; and analyzes how regional dynamics, especially the rise of China, will likely shape U.S.-Pakistan relations. It concludes with three options for future U.S. strategy, described as defensive insulation, military-first cooperation, and comprehensive cooperation. The book explains how Washington can prepare for the worst, aim for the best, and avoid past mistakes.

Frek and the Elixir Rudy Rucker, 2005-02 In the year 3003, nothing in the world is the same, except maybe that adolescents are still embarrassed by their parents. Society and the biosphere alike have been transformed by biotechnology, and the natural world is almost gone. Frek Huggins is a boy from a broken family, unusual because he was conceived without technological help or genetic modifications. His dad, Carb, is a malcontent who left behind Frek's mom and the Earth itself several years ago. Everything changes when Frek finds the Anvil, a small flying saucer, under his bed, and it tells him he is destined to save the world. The repressive forces of Gov, the mysterious absolute ruler of Earth, descend on Frek, take away the Anvil, and interrogate him forcefully enough to damage his memory. Frek flees with Wow, his talking dog, to seek out Carb and some answers. But the untrustworthy alien in the saucer has other plans, including claiming exclusive rights to market humanity to the galaxy at large, and making Frek a hero. Frek and the Elixir is a profound, playful SF epic by the wild and ambitious Rudy Rucker.

Turing & Burroughs Rudy Rucker, 2012-08-21 The lives of scientist Alan Turing and author William Burroughs are turned upside down in this off-the-wall sci-fi caper from Rudy Rucker. What if Alan Turing, founder of the modern computer age, faked his suicide to escape assassination by the secret service? What if he then became the lover of Beat author William Burroughs? And what if they then mutated into giant shapeshifting slugs, fled the FBI agents tracking them, raised Burroughs's wife—killed in a tragic drunken mishap—from the dead, and, finally, tweaked the H-bombs of Los

Alamos to use them for a very different purpose? Turing & Burroughs is a wild beatnik adventure: compulsively readable, hysterically funny, with insane warps and twists—and a bad attitude throughout.

Mathematicians in Love Rudy Rucker, 2008-07-08 A riveting new science fiction novel from the writer who twice won the Philip K. Dick Award for best SF novel. Bela and Paul, two wild young mathematicians, are friends and roommates, and in love with the same woman, who happens to be Alma, Bela's girlfriend. They fight it out by changing reality using cutting edge math, to change who gets the girl. The contemporary world they live in is not quite this one, but much like Berkeley, California, and the two graduate students are trying to finish their degrees and get jobs. It doesn't help that their unpredictable advisor Roland is a mad mathematical genius who has figured out a way to predict isolated and specific bits of the future that can cause a lot of trouble. . . and he's starting to see monsters in mirrors. Bela and Paul start to mess around with reality, and when that happens, all heaven and hell break loose. Those monsters of Roland's were really there, but who are they? This novel is a romantic comedy with a whole corkscrew of SF twists. At the publisher's request, this title is being sold without Digital Rights Management software (DRM) applied.

Postsingular Rudy Rucker, 2009-02-03 The Singularity has happened, and life afterward proves to be more bizarre than we thought. SF book of the year (Interzone).

My Neighbour's Shoes; Or, Feeling for Others. A Tale A. L. O. E., 1869 Archie has a dream that a fairy magically transforms him to walk in the shoes of those less fortunate than himself. It is a new Archie that plays with his cousin, Lina, the next day.

Language and Reality Neil Postman, 1966

Saucer Wisdom Rudy Rucker, 2001-07-13 Brace yourself when you open this book, for it purports to be the about the visions of neat biotechnologies one Frank Shook brings back from future times where he has been taken to by flying saucers, and gives to the writer, Rudy Rucker, who's telling the story. That's an odd way to begin a work of popular science but amusing. Please heed the warning from the Introduction by Bruce Sterling: If you are examining Saucer Wisdom imagining that Rudy (or some fictional 'Frank Shook') has been actually logging a lot of on board saucer time, well, you can knock that off right now. Rudy Rucker made up the flying saucer part. There is no actual flying saucer. The saucer is not an interplanetary faster-than-light device. It's what we professional authors like to call a narrative device. I'm going to spill the beans as directly as I can here: Saucer Wisdom is a work of popular science speculation. It's a nonfiction book in which Prof. Rucker takes a few quirky grains of modern scientific fact, drops them into the colorful tide pool of his own imagination, and harvests a major swarm of abalones, jellyfish, and giant anemones. Pop-science writers didn't used to treat 'science' in this boisterous way, but there might well be a trend here, there may be a real future in this. Saucer Wisdom is a book by a well-qualified mathematician and computer scientist, a veteran pop science writer, in which 'science' is treated, not as some distant and rarefied quest for absolute knowledge, but as naturally great source material for a really long, cool rant. Rucker, in character, describes, and illustrates with delightful cartoon sketches (the way he would use chalk and a blackboard while talking science), the world of the progressively more distant future as it is transformed by computer technology, biotechnology, and human evolution. He also describes a hell of a party in Berkeley. Popular science writing will never be the same. At the publisher's request, this title is being sold without Digital Rights Management software (DRM) applied.

The Big Aha Rudy Rucker, 2019-05-07 An artist in a wild biotech future confronts aliens from another dimension—and finds a new way to get high—in this rollicking, psychedelic SF novel from Rudy Rucker. Biotechnology has replaced machines, and genetic modification is commonplace. At the forefront of this revolutionary change is artist Zad Plant, who works with living paint, lives in a talking home grown from plants, gets around on a giant roadspider, and has a sentient rat—complete with Kentucky accent—as a sidekick. Unfortunately for Zad, his career's on the skids, and his wife Jane has thrown him out. Enter qwet—quantum wetware—that changes Zad, making him cosmically high and giving him telepathy, and soon enough, a

psychedelic revolution begins. Yet when mouths begin appearing in midair, eating people, Zad and Jane must travel through a wormhole to learn how to save their world. . . . Night Shade Books' ten-volume series with Rudy Rucker collects nine of the brilliantly weird novels for which the mathematician-turned-author is known, as well as a tenth, never-before-published book, Million Mile Road Trip. We're proud to collect in one place so much of the work of this influential figure in the early cyberpunk scene, and to share Rucker's fascinating, unique worldview with an entirely new generation of readers.

Hylozoic Rudy Rucker,2009-05-26 After the Singularity, everyone and everything is sentient and telepathic. Aliens notice and invade Earth. In Rucker's last novel, Postsingular, the Singularity happened and life on Earth was transformed by the awakening of all matter into consciousness and into telepathic communication. The most intimate moments of your life can be experienced by anyone who cares to pay attention, or by hundreds of thousands of anyones if you are one of the Founders who helped create the Singularity. The small bunch of Founders, including young newlyweds Thuy, a hypertext novelist, and Jayjay, a gamer and brain-enhancement addict, are living a popular, live-action media life. But now alien races that have already gone through this transformation notice Earth for the first time, and begin to arrive to exploit both the new environment and any available humans. Some of them are real estate developers, some are slavers, and some just want to help. But how to tell the difference? Someone has to save humanity from the alien invasions, and it might as well be reality media stars Thuy and Jayjay.

Master of Space and Time Rudy Rucker,2005-03-17 The real world is unbearable to madcap inventor Harry Gerber, so he uses his genius to twist the laws of science and create his own tailor-made universe. Master of Space and Time combines high physics and high jinks, blurring the line between

science and magic. From a voyage to a mirror-image world where sluglike parasites make slaves of humanity, to trees and bushes that grow fries and pork chops, to a rain of fish, author Rudy Rucker—two-time winner of the Philip K. Dick Award—takes readers on the ultimate joyride. But once the gluons at the core of Harry's creation run out ... disaster looms for Harry and his friends.

The Sex Sphere Rudy Rucker, 2011-12-12 Punk-rock SF! Nuclear terrorists, a political kidnapping, and a giant woman from the fourth dimension. Say goodbye to the old world. This literary tour de force explores the landscape of the higher dimensions with the humor and vigor of an underground cartoon.
