Forgotten Futures Marcus L. Rowland,1999-12-01

The Mutant Epoch William McAusland,2012-01 The Mutant Epoch is about humankind's attempt to reclaim some semblance of civilization, calling upon its best and boldest to uncover the lost knowledge and power of the old ones. The Mutant Epoch post-apocalyptic RPG challenges your in-game persona to survive in an age of rediscovery, high adventure, savage conflict, and freakish mutants and machines. Characters work in small excavation teams making forays into ruined cities, through junk strewn wastelands, twisted forests, nightmarish swamps and across polluted seas. During their expeditions they must contend with mutant beasts, the environment, as well as raiders, cultists, and robotic forces, only to stake their place in the newly emerging barter forts and factional bastions of humanity. Players can take on the roles of pure stocks, mutants, ghost mutants, cyborgs, bestial humans and an assortment of synthetic or engineered humans. All you need is this book, dice, paper and pencils, a few friends and your imagination. The Mutant Epoch uses the Outland System game mechanic, which employs the full set of polyhedron dice, is easy to learn, logical, fast paced, and perfectly suited to the hard core action of post apocalyptic game play. Inside this lavishly illustrated book you will find all the rules, art and content to generate characters, challenge them with perils, and then reward them with potent relics. This core book includes: 8 character types 30 castes 36 skills over a 111 mutations 68 cybernetic implants 104 creatures 9 robots and 10 androids complete encounter tables hazards, traps and insanity typical humans rules for called shots, parrying and chases 9 relic vehicles, 44 weapon relics, 14 armor relics and 70+ miscellaneous relics common PA vehicles and 10 scrap built Vehicles dozens of helpful tables character sheet GMs party record sheet grid and hex paper, and much more! Plus, there are numerous supplemental books, Excavator Monthly magazine issues, fiction, art, and as an added bonus buying the TME Hub Rules book automatically grants the owner exclusive membership in the Society of Excavators.

An Architectural Approach to Level Design Christopher W. Totten,2018-09-03 Explore Level Design through the Lens of Architectural and Spatial Experience Theory Written by a game developer and professor trained in architecture, An Architectural Approach to Level Design is one of the first books to integrate architectural and spatial design theory with the field of level design. It explores the principles of level design through the context and history of architecture, providing information useful to both academics and game development professionals. Understand Spatial Design Principles for Game Levels in 2D, 3D, and Multiplayer Applications The book presents architectural techniques and theories for level designers to use in their own work. The author connects architecture and level design in different ways that address the practical elements of how designers construct space and the experiential elements of how and why humans interact with this space. Throughout the text, readers learn skills for spatial layout, evoking emotion through gamespaces, and creating better levels through architectural theory. Create Meaningful User Experiences in Your Games Bringing together topics in game design and architecture, this book helps designers create better spaces for their games. Software independent, the book discusses tools and techniques that designers can use in crafting their interactive worlds.

The Wargaming Compendium Henry Hyde,2013-08-19 An extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read The Lord of the Rings will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in The Wargaming Compendium to entertain and inspire you.

The True Story Book Andrew Lang,1894

The Imperial Infantryman's Handbook Graham McNeill,2020-09-29 The ultimate introduction to life as an Imperial Guardsman! Welcome to the Astra Militarum, Guardsman! You don't know it yet, but this book is your new best friend. In its pages, you'll find everything you need to know in order to defeat mankind's enemies and prove yourself worthy of being a trooper in the Imperial Guard. It'll teach you how to march, how to shoot, how to maintain your weapons (and how to request replacements if you misplace yours), and much more. Learn the prayers and benedictions that will protect you from your foes, and how to best kill each of the Imperium's enemies with minimum effort. It's the essential guide for every Guardsman. CONTENTS Imperial Munitorum Manual Imperial Infantryman's Uplifting Primer The Benedictions of the Emperor

The Outcast Dead Graham McNeil,2011-10-25 Action and espionage comes to the Horus Heresy via one of the best selling authors from the Black Library When an astropath has a vision about the end of the heresy, it falls to a group of renegade traitors to get him off Terra

Unit Operations Ian Bogost,2008-01-25 In Unit Operations, Ian Bogost argues that similar principles underlie both literary theory and computation, proposing a literary-technical theory that can be used to analyze particular videogames. Moreover, this approach can be applied beyond videogames: Bogost suggests that any medium—from videogames to poetry, literature, cinema, or art—can be read as a configurative system of discrete, interlocking units of meaning, and he illustrates this method of analysis with examples from all these fields. The marriage of literary theory and information technology, he argues, will help humanists take technology more seriously and hep technologists better understand software and videogames as cultural artifacts. This approach is especially useful for the comparative analysis of digital and nondigital artifacts and allows scholars from other fields who are interested in studying videogames to avoid the esoteric isolation of game studies. The richness of Bogost's comparative approach can be seen in his discussions of works by such philosophers and theorists as Plato, Badiou, Zizek, and McLuhan, and in his analysis of numerous videogames including Pong, Half-Life, and Star Wars Galaxies. Bogost draws on object technology and complex adaptive systems theory for his method of unit analysis, underscoring the configurative aspects of a wide variety of human processes. His extended analysis of freedom in large virtual spaces examines Grand Theft Auto 3, The Legend of Zelda, Flaubert's Madame Bovary, and Joyce's Ulysses. In Unit Operations, Bogost not only offers a new methodology for videogame criticism but argues for the possibility of real collaboration between the humanities and information technology.

Solo-wargaming Donald F. Featherstone,1973

Tippecanoe 1811 John F. Winkler,2015-10-20 This is the gripping story of the Tippecanoe campaign of 1811: 'The prophet's battle'. It was a conflict born out of festering tensions inscribed by the 1795 Treaty of Greeneville, which had concluded the Northwestern Indian War and attempted to prevent white settlers' encroaching onto newly defined Indian territories. For 16 years there had been peace, but in 1811 the number of settlers in the Ohio territory had swollen from 3,000 to 250,000. War was again coming to the North West. Within these pages John F. Winkler explores the dramatic build up to the conflict as 'The Prophet' Tenskatawa and his brother Tecumseh rallied the tribes to drive back the American settlers once and for all. Through superb illustrations and maps, Winkler provides a clear view of the intense fighting that followed at Tippecanoe and the true impact that it would come to have on the War of 1812.

The Last Great Cavalry Charge Joe Robinson,Janet Robinson,Francis Hendriks,2017-05-03 The Battle of the Silver Helmets was an engagement orchestrated according to the previous successes of the cavalry of Frederick the Great. It was staged so that the magnificently equipped and trained German Fourth Cavalry Division would charge into glory, sabres rattling; instead, 24 German officers, 468 men, and 843 horses were lost during the eight separate charges conducted that day. The entire right wing of the Imperial German Army consisted of only nine cavalry brigades in the

Schlieffen Plan, and in the battle of 12 August 1914, two of these brigades were catastrophically beaten. This battle has not yet been explored in the English language because it took place before the British Expeditionary Force (BEF) landed in the Channel ports and well before any American involvement. British historians have also generally focused on Germany's efforts to enter Belgium through the forts at Liège, which are east of Halen. However, the Battle of the Silver Helmets so impacted century-old cavalry tradition that large-scale charges would never again be attempted on the Western Front. Thoroughly researched and hugely revelatory, *The Last Great Cavalry Charge* is a blow-by-blow account of the moment that the cavalry went from a prestigious, pivotal role in German Army tactics to obsolescence in the face of newly mechanised infantry. It provides essential and moving insight into the wider socio-cultural repercussions of technical military innovations in the First World War.

Tortured Cardboard Philip E. Orbanes,2019-07-23 The term “tortured cardboard” sums up what happens to cardboard when making a board game (bound, cut, folded, punched). And, as you’ll learn, great board games often reflect whatever “tortures” culture. Each gained immortality after a chaotic beginning and a chance survival. Why? Because—be it chess, backgammon, Clue®, Monopoly®, Scrabble®, Settlers of Catan®, or one of ten others featured in this book—each is replete with “lessons” applicable to achievement in your life. As the twenty-first century gathers momentum, our love affair with board games continues to strengthen. They involve us, they refine social skills, and they teach great lessons applicable in real life. “Tortuous” is the journey of every great board game, from birth in chaotic times, through survival by mere chance, to raging popularity and eventual immortality. Tortured Cardboard reveals how the great ones came to endure and—all fun aside—how each teaches us something about our own behavior while providing “rules” that can work in your life.

Bound Spirits, Book 1 Karen Wiesner,2016-01-22 Nestled on Lake Superior in northern Wisconsin is a small, secluded town called Bloodmoon Cove with volatile weather, suspicious folk...and newly awakened ghosts bent on revenge. Esmeralda Esme Dumas comes to the town looking to find work surrounded by wide-open nature, and most of all looking for a place to hide. Park Ranger John Kotter returns to his hometown to find a squatter in the campground host house. He can't help wondering if Esme had anything to do with his father's disappearance last year, but he senses Esme has ghosts of her own. As a child, Esme was kidnapped and locked in a cold, dark basement. Her friends were rodents, insects, and the changeable terror that held her hostage. The only thing that kept her sane those nightmare years were her books. She's been on the run since her escape a few months ago, never expecting to find another bound spirit come back to life.
