The Last Great Cavalry Charge Joe Robinson,Janet Robinson,Francis Hendriks,2017-05-03 The Battle of the Silver Helmets was an engagement orchestrated according to the previous successes of the cavalry of Frederick the Great. It was staged so that the magnificently equipped and trained German Fourth Cavalry Division would charge into glory, sabres rattling; instead, 24 German officers, 468 men, and 843 horses were lost during the eight separate charges conducted that day. The entire right wing of the Imperial German Army consisted of only nine cavalry brigades in the Schlieffen Plan, and in the battle of 12 August 1914, two of these brigades were catastrophically beaten. This battle has not yet been explored in the English language because it took place before the British Expeditionary Force (BEF) landed in the Channel ports and well before any American involvement. British historians have also generally focused on Germany's efforts to enter Belgium through the forts at Liège, which are east of Halen. However, the Battle of the Silver Helmets so impacted century-old cavalry tradition that large-scale charges would never again be attempted on the Western Front. Thoroughly researched and hugely revelatory, *The Last Great Cavalry Charge* is a blow-by-blow account of the moment that the cavalry went from a prestigious, pivotal role in German Army tactics to obsolescence in the face of newly mechanised infantry. It provides essential and moving insight into the wider socio-cultural repercussions of technical military innovations in the First World War.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Bound Spirits, Book 1 Karen Wiesner,2016-01-22 Nestled on Lake Superior in northern Wisconsin is a small, secluded town called Bloodmoon Cove with volatile weather, suspicious folk...and newly awakened ghosts bent on revenge. Esmeralda Esme Dumas comes to the town looking to find work surrounded by wide-open nature, and most of all looking for a place to hide. Park Ranger John Kotter returns to his hometown to find a squatter in the campground host house. He can't help wondering if Esme had anything to do with his father's disappearance last year, but he senses Esme has ghosts of her own. As a child, Esme was kidnapped and locked in a cold, dark basement. Her friends were rodents, insects, and the changeable terror that held her hostage. The only thing that kept her sane those nightmare years were her books. She's been on the run since her escape a few months ago, never expecting to find another bound spirit come back to life.
