**Battletech Field Manual** FASA Corporation,FASA Corporation Staff,1998-12-01 In the year 3050 the mysterious invaders known as the Clans struck without warning from beyond known space. Their advanced 'Mechs destroyed all opposition and captured planet after planet. Now the Clans' secrets are revealed in Field Manual: Warden Clans. The second of two volumes on the Clans, this BattleTech sourcebook describes the seven most noble Clans: Cloud Cobra, Coyote, Diamond Shark, Ghost Bear, Goliath Scorpion, Snow Raven, and Steel Viper. Each Clans tactics, uniforms and battle histories are described in detail, along with new Clan 'Mechs and equipment.

**Kumba Africa** Sampson Ejike Odum,2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction

by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

**BattleTech: The Mercenary Life** Randall N. Bills, 2021-04-13  
A COST IS ALWAYS PAID... Nikolai Reed is a trader on a Lyran JumpShip plying the space lanes... Chloe Mason is a hot-shot tech with the Hsien Hotheads mercenaries... Leaving the Northwind Highlanders, MechWarrior Ryana Nikol fills a billet with the Eridani Light Horse... Disparate lives, but a unified dream that will bring them all together on a fateful course that will span decades, cover hundreds of light years, and involve love, friendship, and loss across a dozen worlds. Each will pay a price along the way, as a cost always comes due. The *Mercenary Life* anthology is a compilation of stories written by Randall N. Bills. Including tales from several different characters as they cross paths, and the dream to found a new mercenary command is born. Their unique lives showcase the struggles and trials of the men and women who take up the mercenary mantle from a variety of angles, all bound around that central vision. The first eight stories of this anthology were originally posted for free alongside the release of *MechWarrior 5: Mercenaries*, acting as the origin stories for the mercenary command within that computer game. This is the first time they have been compiled into a single volume to allow for a Print on Demand physical copy. Additionally, an all-new ninth story has been added—*The Sun Will Rise*—along with postscripts for every story that gives the reader insight into how stories are crafted within a shared universe between tabletop, computer games, and fiction that spans more than thirty years and tens of millions of words.

**Battletech Combat Manual Mercenaries** Catalyst Game Labs, 2016-05-25 For over forty centuries, mercenaries have plied their trade and been instrumental in toppling empires or holding

the tides of war at bay. And as mankind expanded to the stars, soldiers of fortune rose to new heights of power. Business is booming, yet along with those riches comes a dangerous life and the scorn of many who see only filthy lucre-warriors. Its a dangerous life, but as long as you keep your Mech intact and your bottom line balanced, the universe is yours!

Annihilation Plan John Andrew Karr,2022-01-24 Mars, in the throes of resurrection. If you happened to have an illegal telescope, or proxied your galaxynet address well enough to pirate your way to satellite images of Mars, you might glimpse a damaged but operational Mars Orbiter 1, alive with 'rebels.' You could see clusters of superheated propellant burning beyond Earth space, as the EFF (Earth First Faction) sends armed planetary shuttles on an attack route to relieve the rebels of their existence. If so, you'd be witnessing Mars Wars.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui,2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and

religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right

to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.
