The Wargaming Compendium Henry Hyde,2013-08-19 An extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read The Lord of the Rings will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in The Wargaming Compendium to entertain and inspire you.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Eleventh Tiger David McIntee,2004 In interesting times, love can be a weakness, hatred an illusion, order chaos, and ten tigers not enough. The TARDIS crew have seen many times. When they arrive in China in 1865, they find banditry, rebellion, and foreign oppression rife. Trying to maintain order are the British Empire and the Ten Tigers of Canton, the most respected martial arts masters in the world. There is more to the chaos than mere human violence and ambition. Can legends of ancient vengeance be coming true? Why does everyone Ian meets already know who he is? The Doctor has his suspicions, but he is occupied by challenges of his own. Sometimes the greatest danger is not from the enemy, but from the heart... This adventure features the First Doctor, Ian, Barbara, and Vicki.

Amazing Stories Annual Edgar Rice Burroughs,A. Merritt,2016-08-01 This is a complete page-by-page replica of the legendary 1927 Amazing Stories Annual, produced by Hugo Gernsback. Few copies the 1927 Annual survive today-in fact, one of the original issues recently sold on eBay for over \$350. It featured one of Edgar Rice Burroughs Barsoom novels, The Master-Mind of Mars, in its first appearance anywhere. It was especially written for Amazing Stories and features eleven illustrations from the grandfather of science fiction art, Frank R. Paul, who produced some of his finest illustrative work ever. The annual also featured two stories from the opposite end of th science fiction spectrum fans had been begging Gernsback to reprint: A. Merritt's best short novel, The Face in the Abyss, and his celebrated short, The People of the Pit, again with Paul's inimitable illustrations. Merritt was considered the finest U.S. science fiction writer of the time (a position confirmed in 1999 when he was inducted posthumously into the Science Fiction Hall of Fame). The annual also featured Austin Hall's celebrated The Man Who Saved the Earth, A. Hyatt Verrill's The Man who Could Vanish, a straight-faced jape from the distinguished ethnologist; and Under the Knife, an incomparable story by the incomparable H.G. Wells. This replica reprint is an essential addition to any fan's library.
