The Wargaming Compendium Henry Hyde,2013-08-19 An extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read The Lord of the Rings will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in The Wargaming Compendium to entertain and inspire you.

The Sun and the Saber Craig Ellis,2017-01-09 North of the River of Mist, in the lands known as 'The Wastes', humanoid tribes are gathering, driven by hunger, glory, and the need to cull the aged and the unfit. In the south it is known simply as 'The Cycle', a ritualistic invasion that has ravaged the Sun Empire every twenty years for centuries... but this will be a Cycle unlike any other. Darker, more malevolent forces from a long forgotten past have appeared in the north, beings with the power to command not only the marshaling hordes, but the weather itself. It will not be a Cycle of plunder and withdrawal as the previous ones were, but rather one of conquest.Thrust into this conflict is Captain Markum D'Moraigue, a reluctant young cavalry officer, alongside a band of unlikely heroes: a mentally unstable elven prince; a pair of quarreling dwarves, one a priest, the other an assassin; a druid who drinks to deal with terrifying visions; and a half-elf striving for acceptance in a world that shuns those of mixed race -- they are all that stand between annihilation and victory.Eritania is a continent divided by the political agendas of elves, dwarves, humans, and orcs, along with those of the diminutive, opportunistic River Kin, and gangs of nationless half-orcs looking to carve out their own kingdom. 'The Sun and the Saber' is a tale of epic battles, but more importantly, it is a story of people, relationships, and the human side of conflict.

Hardware: The Definitive SF Works of Chris Foss Chris Foss,2011-09-06 Foss's groundbreaking and distinctive science fiction art revolutionized paperback covers in the 1970s and 80s. Dramatically raising the bar for realism and invention, his trademark battle-weary spacecraft, dramatic alien landscapes and crumbling brutalist architecture irrevocably changed the aesthetic of science fiction art and cinema. Featuring work for books by Isaac Asimov, E. E. 'Doc' Smith, Arthur C. Clarke, A. E. Van Vogt and Philip K. Dick, and film design for Ridley Scott and Stanley Kubrick, this volume brings together many rare and classic images that have never been seen or reprinted before. The first comprehensive retrospective of Chris Foss's SF career. "Chris Foss' name has become pre-eminent among sf artists... He is in love with the monstrous, with angular momentum, with inertia-free projectiles and irresistible objects." — Brian Aldiss "[Foss'] creations are real machines, not just an artist's dreams. They combine the two elements so essential to science fiction: realism and a sense of wonder... A medieval goldsmith of future eons." — Alejandro Jodorowsky
