Though utterly loyal, the Legion of Magnus the Red is viewed with suspicion for its arcane methods. Feared by the Imperium he has sworn to serve, Magnus is called to the planet of Nikaea to answer charges of sorcery. When the ill-fated primarch foresees the treachery of Warmaster Horus and warns the Emperor with forbidden powers, the Master of Mankind dispatches Leman Russ, Primarch of the Space Wolves, to attack Prospero. But Magnus has seen far more than the betrayal of Horus and his revelations will seal the fate of his Legion forever.

On the battlefields of Aexe Cardinal, the struggling forces of the Imperial Guard are locked in a deadly stalemate with the dark armies of Chaos. Commissar Ibram Gaunt and his regiment, the Tanith First and Only, are thrown headlong into this living hell of trench warfare, where death from lethal artillery is always just a moment away. Dragon Rampant Daniel Mersey,2015-12-20 Whether you're a nameless Dark Lord looking to conquer the known world, a Champion of Light holding out against the forces of evil or a Northern barbarian facing claimants to a stolen throne, Dragon Rampant allows you to bring those battles to the tabletop. Developed from the popular Lion Rampant system, Dragon Rampant is a standalone wargame that recreates the great battles of Fantasy fiction. Scenarios, army lists, and full rules for magic and monsters give players the opportunity to command unruly orc warbands, raise armies of the undead, campaign across an antediluvian world as the warchief of a barbarian tribe, or exploit the power of mighty creatures and extraordinary sorcery. An army usually consists of 6-8 units comprised of 6-12 individually based figures. These small units move and fight independently, assuming that they follow your orders rather than just doing their own thing. Command and control is just as important on the battlefield as the power of a troll chieftain or the magic of an archmage.

The Wargaming Compendium Henry Hyde,2013-08-19 An extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read The Lord of the Rings will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in The Wargaming Compendium to entertain and inspire you.

Titandeth Guy Haley,2020-07-07 Book 53 in the bestselling series, The Horus Heresy. Horus's armada gathers, and he has defeated all enemies sent against him, even the Emperor's own executioner. One barrier remains before he can strike for Terra and lay waste to the Emperor's dream. The Beta Garmon system occupies the most direct and only viable route to the Solar System and Terra. To break it, Horus assembles a war host of incredible proportions and Titans in untold numbers. To lose here is to lose the war and Horus has no intention of turning back. But the Imperium understands the importance of Beta Garmon too. A massive army is arrayed, comprised of near numberless Army cohorts and a mustering of Titans to challenge even the martial might of the Warmaster. Titans fight against Titans as the God Machines of Loyalists and Traitors alike go to war. This conflict will be like no other before it, a worldending battle that will determine the next phase of the war.
