Blood Angels ,2014

Blood Angels: The Second Omnibus James Swallow,2015-08-18 A classic Warhammer 40,000 villain attacks! Fabius Bile plots to bring the Blood Angels low using their most precious artefact – the blood of the primarch Sanguinius himself. The Blood Angels stand apart from the other Chapters of the Adeptus Astartes, descending from the skies on wings of flame. While they are renowned for their ten-thousand-year history of glorious battle and honourable deeds, these secretive Space Marines seek to hide the dark flaws at the core of their being – the Red Thirst and the Black Rage – from the rest of the Imperium. Do they fight any longer for the protection of mankind, or merely for their own salvation?

Straight Silver Dan Abnett,2016-06-28 Commissar Gaunt and his men undertake a seemingly suicidal mission in the blood-soaked trenches of the 41st Millennium. On the battlefields of Aexe Cardinal, the struggling forces of the Imperial Guard are locked in a deadly stalemate with the dark armies of Chaos. Commissar Ibram Gaunt and his regiment, the Tanith First and Only, are thrown headlong into this living hell of trench warfare, where death from lethal artillery is always just a moment away. The only chance for Gaunt and his lightly armed scouts to survive is to volunteer for a mission so dangerous that no one else dares accept it.

Dragon Rampant Daniel Mersey,2015-12-20 Whether you're a nameless Dark Lord looking to conquer the known world, a Champion of Light holding out against the forces of evil or a Northern barbarian facing claimants to a stolen throne, Dragon Rampant allows you to bring those battles to the tabletop. Developed from the popular Lion Rampant system, Dragon Rampant is a standalone wargame that recreates the great battles of Fantasy fiction. Scenarios, army lists, and full rules for magic and monsters give players the opportunity to command unruly orc warbands, raise armies of the undead, campaign across an antediluvian world as the warchief of a barbarian tribe, or exploit the power of mighty creatures and extraordinary sorcery. An army usually consists of 6–8 units comprised of 6–12 individually based figures. These small units move and fight independently, assuming that they follow your orders rather than just doing their own thing. Command and control is just as important on the battlefield as the power of a troll chieftain or the magic of an archmage.

Understanding the City through its Margins André Chappatte,Ulrike Freitag,Nora Lafi,2017-07-28 Cities the world over and in particular developing countries suffer from uneven development and inequality. This is often coupled with the view that these inequalities constitute unfortunate anomalies. In contrast, this edited volume draws out the ways in which the city has not been able to exist without its margins, both materially, ideationally, and socially. In this book the margins are, first, the mirrors of the city and, second, a fundamental route through which various centers can legitimate and sustain their power. Contemporary case studies are compared to a number of those from history with the accent on Asia, Africa and the Middle East, and engage with the underlying theoretical questions of what is the urban margin and what is marginality in urban society and spaces?
