The Red Rose and the White John Sadler 2014-01-14 If Richard III had not charged to his death at Bosworth, how different might the history of Britain have been? Beginning in 1453 and ending in 1487, The Red Rose and the White provides a gripping overview of the bitter dynastic struggle for supremacy that raged between the houses of York and Lancaster for thirty years, culminating in the dramatic events on Bosworth Field in 1485. As well as offering a comprehensive account of the campaigns, battles and sieges of the conflict, the book also assesses the commanders and men involved and considers the weapons and tactics employed. Photographs, maps and portraits of the principal characters help to bring the period to life, whilst the fast-paced narrative conveys a sense of what it was actually like to fight in battles such as Towton or Tewkesbury the effect of the arrow storm and the grim realities of hand-to-hand combat with edged and bladed weapons. Skilfully weaving in political and social events to place the conflict in its context, The Red Rose and the White is a fascinating exploration of the turbulent period that would change the course of British history forever.

**Slave Stealers** Timothy Ballard 2018-09-04 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

**Los Alamos Rolodex** Center for Center for Land Use Interpretation 2015-12-29 In 2012 the Center for Land Use Interpretation acquired a set of seven rolodexes from the dispersed collection of former Los Alamos National Laboratory employee Ed Grothus, who operated a salvage company of lab cast-offs, known as The Black Hole. Now part of the Center's Radioactive Archive, the rolodexes contain thousands of business cards kept by some unknown office in the lab over the 1960s and 1970s--the peak of the arms race and its technological development. They are a physical record of everything from major military contractors to obscure high- and low-tech software widget suppliers-many of which are no longer extant, or have evolved. The selection of 150 cards may be viewed as a snapshot of synergies between the business community and America's atomic might. On the one hand, they are a direct indexical connection from the recent past to the sources of creating the most sophisticated and powerful national defense technologies in the world. On the other hand, they are obsolete information, relics of a former usefulness. As a specific printed historical record--superbly reproduced in full color--they are relevant to a potential understanding of the present; they are evocative evidence of the links that formed the secret technology of our nation.

**Athletico Mince** Bob Mortimer 2017-01 In the first book inspired by their wildly popular podcast, Bob Mortimer and Andy Dawson have tried their hardest to produce an authoritative guide to the past, present and future world of football. But, as in the podcast, they tend to get a bit side-tracked - as well as bringing you some (fairly) genuine football facts 'n' stats, Bob and Andy get waylaid with speculation about the lifestyle of baked bean-loving, yellow snake-owning former England boss Steve McClaren. There's also input from the Secret Soccer Superstar - a former player who lifts the lid on what it's really like to be a top, top pro. In keeping with the occasional non-football vibe of the podcast, there's also lifestyle hacks, domestic appliance tips and meat advice, as well as Bob and Andy's fact-files on each other and a definitive guide to lifting up celebrities. In summary, it's a bit of a mess. BUT, it's a beautiful, glorious, hilarious mess... and if you're not reduced to at least one convulsion while reading it, Bob and Andy are going to be very disappointed with you indeed. In fact, they might come round to your house and force you to KISS THE ALDERMAN!
