## **Mikoyan MiG-23 and MiG-27: Famous Russian**

**Aircraft** Yefim Gordon  
2019-09 Originally conceived as a replacement for the famous MiG-21, changing priorities turned the MiG-23 into a STOL fighter with variable-geometry wings that first flew in June 1967. After two years of testing, the aircraft, codename Flogger, entered service in 1969. From then on development of the

Flogger proceeded along two parallel lines originally as a fighter/interceptor with a two-seat trainer variant and later as a fighter/bomber which evolved into the MiG-27 used by the Soviet Air Force. This, in turn, was progressively improved as the MiG-27D/MiG-27M and the MiG-27K. The MiG-23 family was widely exported. New aircraft were supplied to the Soviet Union's Warsaw Pact allies and selected nations in the Middle East, Africa and

Asia. Later, second-hand machines were sold from CIS stocks to various parts of the world, which allowed the MiG-23 to remain active abroad longer than in Russia where single-engined combat jets had been phased out in 1997. The Flogger saw a good deal of action. Soviet MiG-23MLDs were actively used in the Afghan War; elsewhere, the fighter variants saw action in Syria (both in against Israel in the 1970s and in the Syrian Civil War), Libya, Iraq, Angola and Sudan. The fighter-bombers also fought in Afghanistan, Iraq, Libya and Sri Lanka. This comprehensive book describes the development and service history of all variants of these aircraft, featuring fleet lists and numerous rare photos and color profiles.

The Timeless Racer: Machines of a Time Traveling Speed

Junkie Daniel Simon 2021-02

This book presents, in large-format images, Simon's unique virtually designed racing machines and tells the story of international racer Vic Cooper, who time-travels under the name 'Vic13' and later 'Mean13' to the past and the future to compete in a wide variety of motor races. His attempts are supported by world famous constructor Masucci, who built amazing vehicles for Cooper between the years 1916 and 2582. In this first volume of The Timeless Racer, Cooper time-travels to the year 2027, where he competes in the world-famous--and legendarily dangerous-- 48 Hours of America endurance race. The book puts three vehicles in the

spotlight, shown in incredibly photo-realistic images. Car enthusiasts, design fans, and fiction addicts will be awed by fantastic and futuristic race cars in drawings and hyper-real renderings up to 24 inches wide. The book includes special attention to the fine details that make alternate worlds believable: fictitious sponsors and conflicts, with characters described in spectacular detail through photographs and back stories. In this captivating series, Simon returns to create an imaginary but entirely possible reality of glamour, speed, and honor. Welcome to The Timeless Racer. The foreword has been written by racing legend Jacky Ickx, who raced in the 1960s, '70s and '80s for many famed teams such as Ferrari, McLaren, Porsche, Brabham or Lotus. He is the only driver to have won in Formula One, Can-Am, Le Mans, and the Paris-Dakar rally. REVIEWS: "Daniel's designs are spectacular. **Starcraft** Simon Furman 2011-07-01 Join the War Pigs, a disbanded team of outlaws reunited by their former captain for one last job: the assassination of Jim Raynor But before they can get anywhere fast, they have to wrest their ship - the General Lee - from the hands of cut-throat pirates.  
If I Were a Tree Andrea Zimmerman 2021-04-06 Two siblings journey into the woods in a tender story of branching out and new growth from acclaimed writer Andrea Zimmerman and New York Times bestselling illustrator Jing Jing Tsong. If I were a tree, I know how I'd be. My trunk strong and wide, my limbs side to side, I'd stand towering tall, high above all, My leaves growing big, and buds on each twig. If I were a tree, that's how I'd be. The sister has camped in the forest many times before. The brother is nervous for his first overnight trip. As the illustrations in this multifaceted picture book show the siblings discovering the woods, the text celebrates the

strength and grace of the trees that surround them, through evocative verse that speaks to all five senses: If I were a tree, I know what I'd smell. Sweet honey and bees, and skunk on the breeze. I'd smell smoke in the air, the breath of a bear, Old fungus decay, and rain on the way. If I were a tree, that's what I'd smell. And with this new knowledge, the siblings are able to overcome their greatest challenge yet.

Together, Andrea

Zimmerman's wise poem and Jing Jing Tsong's kaleidoscopic art show how connections with the natural world can inspire us to live fully in the present and look hopefully to the future.

### Fairchild Republic A-10

Thunderbolt II Steve Davies  
2017-06-10 Dubbed 'Warthog' - or just 'Hog' - by those who fly and maintain it, the Fairchild Republic A-10 Thunderbolt II is the world's undisputed close air support attack jet. As tough as it is ugly, it has built a fearsome reputation as a tank buster and infantry killer in conflicts around the globe, and its GAU-8 Avenger 30mm cannon strikes fear into the hearts of all unlucky enough to be on the wrong side of it.he

A-10 was clutched from the jaws of retirement by the 1991 Gulf War. At the time of the conflict, the United States Air Force was making plans to shed it's A-10 fleet, citing obsolescence and redundancy. As the ensuing conflict showed, nothing could have been further from the truth, and no other airframe could have provided the US and Coalition commanders with the sort of forward air control, close air support, combat search and rescue, and tank busting capabilities that the Hog did. Since then the A-10 has delivered capabilities to battlefield commanders in the Balkans (1990s), Afghanistan (2001 onwards) and the second Gulf War (2003 onwards), and Libya (2011). A-10s have flown around 11 per cent of Operation Inherent Resolve sorties (striking IS targets in Iraq) since combat operations began in August 2014.
