Mobility, shock, and firepower: The Emergence of the U.S. Army's Armor Branch, 1917-1945 Robert S. Cameron, 2008 From the Preface: The following pages provide a narrative analysis of the U.S. Army's development of armored organizations and their related doctrine, materiel, and training activities in the period 1917-1945. This period marked the emergence of clear principles of armored warfare that became the underpinning of the Armor Branch, influencing armored developments long after World War II ended. A unique style of mounted maneuver combat emerged that reflected a mix of tradition and innovation. In the process, American military culture changed, particularly through the adoption of combined-arms principles. Conversely, political actions, budgetary considerations, and senior leadership decisions also shaped the course of armor development. The emergence of an American armored force involved more than simply tank development. It included the creation of an armored division structure steeped in combined-arms principles, organizational flexibility, and revolutionary command and control processes. Parallel developments included the establishment of specialized units to provide antitank, reconnaissance, and infantry support capabilities. Several Army branches played a role in determining the precise path of armored development, and one of them—the Cavalry—became a casualty as a result.

Quiet Susan Cain, 2013-01-29 #1 NEW YORK TIMES BESTSELLER • Experience the book that started the Quiet Movement and revolutionized how the world sees introverts—and how introverts see themselves—by offering validation, inclusion, and inspiration “Superbly researched, deeply insightful, and a fascinating read, *Quiet* is an indispensable resource for anyone who wants to understand the gifts of the introverted half of the population.” —Gretchen Rubin, author of *The Happiness Project* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • O: The Oprah Magazine • Christian Science Monitor • Inc. • Library Journal • Kirkus Reviews At least one-third of the people we know are introverts. They are the ones who prefer listening to speaking; who innovate and create but dislike self-promotion; who favor working on their own over working in teams. It is to introverts—Rosa Parks, Chopin, Dr. Seuss, Steve Wozniak—that we owe many of the great contributions to society. In *Quiet*, Susan Cain argues that we dramatically undervalue introverts and shows how much we lose in doing so. She charts the rise of the Extrovert Ideal throughout the twentieth century and explores how deeply it has come to permeate our culture. She also introduces us to successful introverts—from a witty, high-octane public speaker who recharges in solitude after his talks, to a record-breaking salesman who quietly taps into the power of questions. Passionately argued, impeccably researched, and filled with indelible stories of real people, *Quiet* has the power to permanently change how we see introverts and, equally important, how they see themselves. Now with Extra Libris material, including a reader's guide and bonus content

Democracy's Fourth Wave? Philip N. Howard, Muzammil M. Hussain, 2013-03-29 Did digital media really cause the Arab Spring, or is it an important factor of the story behind what might become democracy's fourth wave? An unlikely network of citizens used digital media to start a cascade of social protest that ultimately toppled four of the world's most entrenched dictators. Howard and Hussain find that the complex causal recipe includes several economic, political and cultural factors, but that digital media is consistently one of the most important sufficient and necessary conditions for explaining both the fragility of regimes and the success of social movements. This book looks at not only the unexpected evolution of events during the Arab Spring, but the deeper history of creative digital activism throughout the region.

Quiet Power Susan Cain, Gregory Mone, Erica Moroz, 2016-05-03 The monumental bestseller *Quiet* has been recast in a new edition that empowers introverted kids and teens Susan Cain sparked a worldwide conversation when she published *Quiet: The Power of Introverts in a World That Can't Stop Talking*. With her inspiring book, she permanently changed the way we see introverts and the way introverts see themselves. The original book focused on the workplace, and Susan realized that a version for and about kids was also badly needed. This book is all about kids' world—school, extracurriculars, family life, and friendship. You'll read about actual kids who have tackled the challenges of not being extroverted and who have made

a mark in their own quiet way. You'll hear Susan Cain's own story, and you'll be able to make use of the tips at the end of each chapter. There's even a guide at the end of the book for parents and teachers. This insightful, accessible, and empowering book, illustrated with amusing comic-style art, will be eye-opening to extroverts and introverts alike.

There Was a Country Chinua Achebe, 2012-10-11 From the legendary author of *Things Fall Apart* comes a long-awaited memoir about coming of age with a fragile new nation, then watching it torn asunder in a tragic civil war. The defining experience of Chinua Achebe's life was the Nigerian civil war, also known as the Biafran War, of 1967–1970. The conflict was infamous for its savage impact on the Biafran people, Chinua Achebe's people, many of whom were starved to death after the Nigerian government blockaded their borders. By then, Chinua Achebe was already a world-renowned novelist, with a young family to protect. He took the Biafran side in the conflict and served his government as a roving cultural ambassador, from which vantage he absorbed the war's full horror. Immediately after, Achebe took refuge in an academic post in the United States, and for more than forty years he has maintained a considered silence on the events of those terrible years, addressing them only obliquely through his poetry. Now, decades in the making, comes a towering reckoning with one of modern Africa's most fateful events, from a writer whose words and courage have left an enduring stamp on world literature. Achebe masterfully relates his experience, both as he lived it and how he has come to understand it. He begins his story with Nigeria's birth pangs and the story of his own upbringing as a man and as a writer so that we might come to understand the country's promise, which turned to horror when the hot winds of hatred began to stir. To read *There Was a Country* is to be powerfully reminded that artists have a particular obligation, especially during a time of war. All writers, Achebe argues, should be committed writers—they should speak for their history, their beliefs, and their people. Marrying history and memoir, poetry and prose, *There Was a Country* is a distillation of vivid firsthand observation and forty years of research and reflection. Wise, humane, and authoritative, it will stand as definitive and reinforce Achebe's place as one of the most vital literary and moral voices of our age.

The Uncommercial Traveller Illustrated Charles Dickens, 2021-01-20 *The Uncommercial Traveller* is a collection of literary sketches and reminiscences written by Charles Dickens, published in 1860-1861. In 1859 Dickens founded a new journal called *All the Year Round* and the *Uncommercial Traveller* articles would be among his main contributions. He seems to have chosen the title and persona of the *Uncommercial Traveller* as a result of a speech he gave on 22 December 1859 to the Commercial Travellers' School London in his role as honorary chairman and treasurer. The persona sits well with a writer who liked to travel, not only as a tourist, but also to research and report what he found visiting Europe, America and giving book readings throughout Britain. He did not seem content to rest late in his career when he had attained wealth and comfort and continued travelling locally, walking the streets of London in the mould of the flâneur, a 'gentleman stroller of city streets'. He often suffered from insomnia and his night-time wanderings gave him an insight into some of the hidden aspects of Victorian London, details of which he also incorporated into his novels.

This Child Will Be Great LP Ellen Johnson Sirleaf, 2009-04-07 In January 2006, after fourteen years of brutal civil conflict in the Republic of Liberia, Ellen Johnson Sirleaf—Africa's "Iron Lady"—was sworn in as president, an event that marked a tremendous turning point in the history of this West African nation. In this stirring memoir, Sirleaf shares the inside story of her rise to power, including her early childhood, her experiences with abuse, imprisonment, and exile, and her fight for democracy and social justice. Her compelling story is a tale of survival and the determination to succeed in multiple worlds—from her work and study in America to village-to-village election campaigning in some of Liberia's war-torn desperate areas and neighborhoods. It is also the story of an outspoken political and social reformist who, despite danger, fought against the abuses of ruthless dictators to champion change. By sharing her story, Sirleaf encourages women everywhere to seek leadership roles at the highest levels of power—and offers hope

for everyone that, with perseverance, we can change the world.

The Leatherback Turtle James R. Spotila, Pilar Santidrián Tomillo, 2015-10-30 The most comprehensive book ever written on leatherback sea turtles. Weighing as much as 2,000 pounds and reaching lengths of over seven feet, leatherback turtles are the world's largest reptile. These unusual sea turtles have a thick, pliable shell that helps them to withstand great depths—they can swim more than one thousand meters below the surface in search of food. And what food source sustains these goliaths? Their diet consists almost exclusively of jellyfish, a meal they crisscross the oceans to find. Leatherbacks have been declining in recent decades, and some predict they will be gone by the end of this century. Why? Because of two primary factors: human redevelopment of nesting beaches and commercial fishing. There are only twenty-nine index beaches in the world where these turtles nest, and there is immense pressure to develop most of them into homes or resorts. At the same time, longline and gill net fisheries continue to overwhelm waters frequented by leatherbacks. In *The Leatherback Turtle*, James R. Spotila and Pilar Santidrián Tomillo bring together the world's leading experts to produce a volume that reveals the biology of the leatherback while putting a spotlight on the conservation problems and solutions related to the species. The book leaves us with options: embark on the conservation strategy laid out within its pages and save one of nature's most splendid creations, or watch yet another magnificent species disappear.

The Borderlands of Southeast Asia National Defense University Press, 2011-08 The contributors to this book emphasize a mix of heritage and history as the primary leitmotif for contemporary border rivalries and dynamics. Whether the region's 11 states want it or not, their bordered identity is falling into ever sharper definition—if only because of pressure from extraregional states. Chapters are organized by country to elicit a broad range of thought and approach as much as for the specific areas or nation-states examined in each chapter. This book aims to provide new ways of looking at the reality and illusion of bordered Southeast Asia. Edited by James Clad, Sean M. McDonald, and Bruce Vaughn, with contributions from: Zachary Abuza, Richard P. Cronin, David Lee, Rhoda Margesson, Dick K. Nanto, Patricia O'Brien, David Rosenberg, Carlyle A. Thayer, Michael Wood.

Buyology Martin Lindstrom, 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

Songs in the Key of Z Irwin Chusid, 2000 Irwin Chusid profiles a number of outsider musicians - those who started as outside and eventually came in when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

Jokichi Takamine (1854-1922) and Caroline Hitch Takamine (1866-1954) William Shurtleff, Akiko Aoyagi, 2012

World Report 2005 Human Rights Watch, 2005 The introduction to this annual publication reflects on recent events and recent changes in the world. The body of the annual report considers the human rights record of some 150 governments throughout the world.

Memory Politics in Contemporary Russia Mariëlle Wijermars, 2020-12-18 This book examines the societal dynamics of memory politics in Russia.

Since Vladimir Putin became president, the Russian central government has increasingly actively employed cultural memory to claim political legitimacy and discredit all forms of political opposition. The rhetorical use of the past has become a defining characteristic of Russian politics, creating a historical foundation for the regime's emphasis on a strong state and centralised leadership. Exploring memory politics, this book analyses a wide range of actors, from the central government and the Russian Orthodox Church, to filmmaker and cultural heavyweight Nikita Mikhalkov and radical thinkers such as Aleksandr Dugin. In addition, in view of the steady decline in media freedom since 2000, it critically examines the role of cinema and television in shaping and spreading these narratives. Thus, this book aims to gain a better understanding of the various means through which the Russian government practices its memory politics (e.g., the role of state media) and, on the other hand, to sufficiently value the existence of alternative and critical voices and criticism that existing studies tend to overlook. Contributing to current debates in the field of memory studies and of current affairs in Russia and Eastern Europe, this book will be of interest to scholars working in the fields of Russian Studies, Cultural Memory Studies, Nationalism and National Identity, Political Communication, Film, Television and Media Studies.

Brainwashed Republic: India's Controlled Systemic Deracination Neeraj Atri, Munieshwar A Saagar, 2017-07-13 The education system of India has been thoroughly compromised. It is being systematically used to create a historical grand narrative, which is ethically and factually incorrect. Sophisticated propaganda techniques are employed to create this artifice. This book is an effort to highlight this academic fraud. It is a result of research spread over more than 6 years. Facts are the guiding lights for the books and not any ideology. For further information refer to our website: www.brainwashedrepublic.com

The Return of Ulysses Edith Hall, 2008-01-30 Whether they focus on the bewitching song of the Sirens, his cunning escape from the cave of the terrifying one-eyed Cyclops, or the vengeful slaying of the suitors of his beautiful wife Penelope, the stirring adventures of Ulysses/Odysseus are amongst the most durable in human culture. The picaresque return of the wandering pirate-king is one of the most popular texts of all time, crossing East-West divides and inspiring poets and film-makers worldwide. But why, over three thousand years, has the Odyssey's appeal proved so remarkably resilient and long-lasting? In her much-praised book Edith Hall explains the enduring fascination of Homer's epic in terms of its extraordinary susceptibility to adaptation. Not only has the story reflected a myriad of different agendas, but - from the tragedies of classical Athens to modern detective fiction, film, travelogue and opera - it has seemed perhaps uniquely fertile in generating new artistic forms. Cultural texts as diverse as Joyce's *Ulysses*, Suzanne Vega's *Calypso*, Monteverdi's *Il Ritorno d'Ulisse in Patria*, the Coen Brothers' *O Brother Where Art Thou?*, Daniel Vigne's *Le Retour de Martin Guerre* and Anthony Minghella's *Cold Mountain* all show that Odysseus is truly a versatile hero. His travels across the wine-dark Aegean are journeys not just into the mind of one of the most brilliantly creative of all the ancient Greek writers. They are as much a voyage beyond the boundaries of a narrative which can plausibly lay claim to being the quintessential global phenomenon.

The Nazi Hydra in America Glen Yeadon, 2008 This book exposes how US plutocrats launched Hitler, then recouped Nazi assets to lay the post-war foundations of a modern police state. Fascists won WWII because they ran both sides. Lays bare the tenacious roots of US fascism from robber baron days to Reichstag fire to the WTC atrocity and Homeland Security, with a blow-by-blow account of the fascist take-over of America's media.

Sketches in Crude-Oil McLaurin John J. (John James), 2019-02-28 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the

work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Did Singapore Have to Fall? Kevin Blackburn, Karl Hack, 2003-11-20 This book provides a sophisticated summary of up-to-date knowledge on the Fall of Singapore, including the critical tensions between Churchill and local commanders. A focus on the role of Churchill, and on his understanding of the guns and Singapore's fortifications, makes the Fortress central to understanding why and how Singapore fell as it did. The book includes a range of quotations that give the flavour of the time and the essence of the debates. No other book allows the reader to get a clear overview of the base, the plans, the campaign, the guns and the remaining heritage, all in one place.

The Gentrification Reader Loretta Lees, Tom Slater, Elvin K. Wyly, 2010 This Reader brings together the classic writings and contemporary literature that has helped to define the field of Gentrification, changed the direction of how it is studied and illustrated the points of conflict and consensus that are distinctive of gentrification research.
