[Nudism in a Cold Climate](#) Annebella Pollen 2021-10-26 This richly illustrated volume examines the idiosyncratic phenomenon of social nudism in mid-20th-century Britain, an island nation fabled for its lack of sunshine and its reserved social attitudes. Structured across three interrelated phases, readers first encounter the movement at its genesis in the 1920s, when nudism was synonymous with vegetarianism, intellectualism and utopianism. That nascent culture proliferated in the postwar era, with a widening landscape of amateur clubs and governing organizations alongside high circulation publications and censorship-challenging photographers. Finally, Annebella Pollen examines the movement's redefinition as naturism, its cultural battles and its struggle to survive amid shifts in sexual liberation in the permissive 1960s. Unadorned bodies were the central campaigning tool of British naturism's photographic propaganda. They drew attention to the cause and drove publication sales but they also attracted regular public opprobrium. Naturism's shifting visual culture thus provides a microcosmic view of British moral, legal and aesthetic transformations in a period of rapid social change, revealing evolving perspectives on health and sex, gender and ethnicity, pleasure and power.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Pamphlet Architecture 26 Jonathan D. Solomon 2013-07-02 The thirteen projects take as their subject a site of contested transportation infrastructure--the Sheridan Expressway. By proposing new typologies for this site, these studies seek to mediate the spaces in the city where local and regional meet. Referencing the introduction of the modern parkway into the Bronx, the grading of the Central Park transverse roads, and other works that have redefined the relationship between parks and roads, author Jonathan Solomon suggests a system by which large projects might again be built in American cities.

Millionaire by Thirty Douglas R. Andrew 2008-04-30 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

He recalls the decades of motorcycling mayhem, mud and madness that have characterised his 70-odd years living the dream, from the early days at Arthur Lavington's Velo shop to pounding the long-distance trials and the many race circuits he has ridden. Bill admits he was better off-road than on tarmac, but, he did win one race! He went on to work for *Motorcycle Sport* magazine, and as a despatch rider, before moving permanently to the Isle of Man. *Motorcycles, Mates and Memories* is a great read for anyone interested in British motorcycle sports.
