Kasher in the Rye Moshe Kasher 2012-03-28 Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in

and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's

mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

The Decameron Project

The New York Times

2020-11-10 A stunning collection of short stories originally commissioned by The New York Times Magazine as the COVID-19 pandemic swept the world, from twenty-nine authors including Margaret Atwood, Tommy Orange, Edwidge Danticat, this year's National Book Award winner Charles Yu, and more. When reality is surreal, only fiction can make sense of it. In 1353, Giovanni Boccaccio wrote The Decameron: one hundred nested tales told by a group of young men and women passing the time at a villa outside Florence while waiting out the gruesome Black Death, a plague that killed more than 25 million people. Some of the stories are silly

some are bawdy, some are like fables. In March 2020, the editors of The New York Times Magazine created The Decameron Project, an anthology with a simple, time-spanning goal: to gather a collection of stories written as our current pandemic first swept the globe. How might new fiction from some of the finest writers working today help us memorialize and understand the unimaginable? And what could be learned about how this crisis will affect the art of fiction? These twenty-nine new stories, from authors including Margaret Atwood, Tommy Orange, Edwidge Danticat, Charles Yu, Rachel Kushner, Colm Toibin, and David Mitchell vary widely in texture and tone. Their work will be remembered as a historical tribute to a time and place

unlike any other in our lifetimes, and will offer perspective and solace to the reader now and in a future where COVID-19 is, hopefully, just a memory. through life letting others take credit for their ideas because they would rather be liked than respected. They spend their lives trying to please everyone but them-selves, and then they wonder why they feel so frustrated and unfulfilled. Beauty Fades, Dumb Is Forever presents Judge Judy's ten hard and true lessons for happiness: Beauty fades, dumb is forever. Don't crawl when you can fly. What goes up must come down. Denial is a river in Egypt. Master the game-- then play it. You're the trunk of the tree. You can't teach the bull to dance. Failure doesn't build character. Letting go is half the fun. You can be the hero of your own story.

The Book of Baphomet

Julian Vayne 2012-08 You hold in your hands the material result of many years' hard craft. This

Book contains some of the secrets of Life itself; or rather, the occult deity of Life on Earth, Baphomet. Horned, vital, beautiful, awe full, our aeons old Chaos Magick idol finds a name from the Knights' Templar, then goes incognito through the Enlightenment (when flourished those great natural philosophers beloved of science historians), before emerging via devil worship and witchcraft into this era of Deep Ecology. Darwin could have used a picture of Baphomet as his frontispiece, to demonstrate the one flesh from which all species originate. Contacting this Great Spirit, the anima mundi, allows access to a new way of ordering the world, with fresh visions of how and why we could Live. Here the authors weave strands

students read 1,000 books this year. Miss Malarkey is determined to find the right book for each student so they'll participate in the school program, and learn to love reading. She's got a tough audience - video game fanatics, artists, sports lovers - nonreaders all. But she won't give up until Principal Wiggins can flip his purple wig. With all the new pressures being put on teachers these days, the one thing everyone agrees about is the need for all children to learn to love reading. Now, the best-selling Miss Malarkey series uses all the programs and initiatives developed to help children read as fodder for the humor mill, keeping everyone laughing about this important topic. thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen

years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric

of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

"America's first female serial killer", shot at least seven middle-aged men to death in Florida between December 1989 and September 1990. Their bodies were discovered along Florida's northern and central highways. A self-professed hater of humans, her troubled upbringing and difficult lifestyle contributed to her demise. She confessed to six murders, claiming that she killed her victims in self-defense after they attempted to sexually assault her while she worked as a highway prostitute; however, she later recanted five of her self-defense claims, instead pleading guilty to first-degree murder in order to "get right with God." Wuornos subsequently petitioned the Florida Supreme Court to stop all of her appeals so she could

die. She asserted that she would definitely kill again and felt it better that her life was ended.

imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War.

Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
