Cobra Pilote Robert D. Walker 2017-03 This book primarily takes a close look at the Hugus-Shelby Cobra connection. In the early 1960s James Edward (Ed) Hugus personally financed the first seven production Cobras built since Carroll Shelby did not have the money or facilities for the project. Hugus ordered the first modified but unfinished Aces the A.C.

Cars factory in England, and had his service department mechanics at European Cars in Pittsburgh, Pennsylvania install the Ford 260 engines and Galaxie transmissions, completing the cars for sale. Once Ford signed a contract for Shelby American Cobra production in Venice, California, Hugus still completed Cobras for distribution and sales to all points east of the Mississippi River. -- In his capacity as a driver, Hugus piloted the first racing Cobra (CSX 2001) in competition, and in 1963, the first Cobra (CSX 2142) to appear at Le Mans. -- Carroll Shelby may have had the Cobra dream but it was Hugus who stepped forward and made Shelby's venture a reality.

from memory in the passage of time. The story of Nick Coleman, one of his generations most inspired leaders, while overdue, is still worth telling, and surely it carries important lessons for us now. Walter F. Mondale In January 1973, Nick Coleman became the first Democrat in 114 years to lead the majority in the Minnesota Senate. He provided the vision and leadership required to enact the Minnesota equivalent of Lyndon Johnsons social and economic programs known as the Great Society. This was the high tide of liberal politics in Minnesota, the crest in voter support that also sent Hubert Humphrey, Eugene McCarthy, and Walter Mondale to national prominence. For the Good of the Order chronicles Nick Colemans role in the legislative cauldron that resulted in Minnesota

being recognized throughout the country as the state that works. Despite spirited political challenges, these remarkable achievements resulted from genuine collaboration from both sides of the aisle. Moreover, the debate over these initiatives helped raise Minnesotas legislative branch to coequal status with the executive. Sadly, they also marked the beginning of the demise of civility, respect, and compromise among lawmakers. Coleman was an Irish-American, and proud of his heritage. His talent for leadership was surely enhanced by his Celtic wit and view of the world. No caricature of the Irish pol, however, Coleman used his verbal gifts and charm to offer reasons why a hesitant colleague could safely follow him when votes were needed for

controversial bills. He led from the front, especially when debate was most intense, and unflinchingly took the fiercest fire from adversaries. When Nick Coleman left the political arena in 1981, a wave of conservatism was sweeping the country. Since his departure, much of the agenda Coleman fought so hard to accomplish has been diluted or reversed. Nevertheless, his legacy remains an inspiration to all who believe that a society should be judged by how it treats its weakest and least powerful. Perhaps Hubert Humphrey voiced this belief most succinctly when he said, ...the moral test of government is how that government treats those who are in the dawn of life, the children; those

who are in the twilight of life, the elderly; those who are in the shadows of life: the sick, the needy and the handicapped. Those were the people Nick Coleman fought for and never forgot.
