Creating Realistic Landscapes for Model Railways Tony Hill 2014-06-30 The landscape through which railways run is often the inspiration and reason why people choose to model a particular line. Therefore creating a realistic setting in which to operate your railway is an essential aspect of modelling, yet it is often overlooked or left until the last moment. Creating authentic and believable scenery without spending a fortune or buying it 'ready made' is a skill that, with patience and understanding, can be achieved by anyone. In Creating Realistic Landscapes for Model Railways, highly skilled landscape modeller Tony Hill shows you, through step-by-step photo sequences and clear instructions, how you too can re-create a realistic landscape for your model railway. With chapters on modelling trees, grass, water, fences, rock, walls and hedges, this book will tell you everything you need to know to design and create a unique and special setting in which to operate your model railway. Superbly illustrated with 395 colour photographs.

Black Walden Elise Lemire 2011-08-24 Concord, Massachusetts, has long been heralded as the birthplace of American liberty and American letters. It was here that the first military engagement of the Revolutionary War was fought and here that Thoreau came to "live deliberately" on the shores of Walden Pond. Between the Revolution and the settlement of the little cabin with the bean rows, however, Walden Woods was home to several generations of freed slaves and their children. Living on the fringes of society, they attempted to pursue lives of freedom, promised by the rhetoric of the Revolution, and yet withheld by the practice of racism. Thoreau was all but alone in his attempt "to conjure up the former occupants of these woods." Other than the chapter he devoted to them in Walden, the history of slavery in Concord has been all but forgotten. In Black Walden: Slavery and Its Aftermath in Concord, Massachusetts, Elise Lemire brings to life the former slaves of Walden Woods and the men and women who held them in bondage during the eighteenth century. After charting the rise of Concord slaveholder John Cuming, Black Walden follows the struggles of Cuming's slave, Brister, as he attempts to build a life for himself after thirty-five years of enslavement. Brister Freeman, as he came to call himself, and other of the town's slaves were able to leverage the political tensions that fueled the American Revolution and force their owners into relinquishing them. Once emancipated, however, the former slaves were permitted to squat on only the most remote and infertile places. Walden Woods was one of them. Here, Freeman and his neighbors farmed, spun linen, made baskets, told fortunes, and otherwise tried to survive in spite of poverty and harassment. With a new preface that reflects on community developments since the hardcover's publication, Black Walden reminds us that this was a black space before it was an internationally known green space and preserves the legacy

of the people who strove against all odds to overcome slavery and segregation.

Building Bridges and Viaducts for Model Railways Bob Alderman 2014-08-31 Written by an acknowledged expert, this practical book is essential reading for all those railway modellers who wish to build a bridge or a viaduct for their layout. This new book contains in-depth descriptions and photographs of bridges located around Britain (and one in New Zealand), ranging from the small to the monumental, from which the modeller can gain ideas and draw inspiration. As an essential aid to modelling, the constituent parts of the bridges are described as well as the engineering principles that make them 'work' and the materials from which they are built. Step-by-step instructions and photographs depict the construction in plasticard of five models: a simple girder bridge; a truss-girder bridge; a masonry arch bridge; a plate-girder bridge; and a viaduct. The book covers prototype research, taking measurements, modelling materials and tools, and examines the finishing process, including different ways of applying paint and weathering powders in order to make your model look authentic. Fully illustrated with over 500 colour photographs and diagrams.
