The Values Factor John F. Demartini,2013-10-01 Based on his landmark research and teachings, Dr. John Demartini has discovered the key to fulfillment in all aspects of life. What is the most important step you can take to achieve the life you've always dreamed of? You might think the answer is something like, start saving money, get a better job, find my soul mate, or improve my marriage. Solutions like these might offer temporary satisfaction, but none of them can provide true, lasting fulfillment or help you achieve your unique purpose in life. The Values Factor shows you how to create a life in which every minute can be inspiring and fulfilling. The first step is to identify what you find most meaningful—the values in life that are most important to you. Once you understand your own unique values and align your life accordingly, you can achieve fulfillment in every aspect of your life: deepening your loving relationships, creating an inspiring career, establishing financial freedom, and tapping into a rich spiritual life. Dr. Demartini's provocative thirteen-part questionnaire will reveal to you what you value most. The answers may surprise you! Then, each chapter of this book explains how to align every aspect of your life with your true values, so that you can finally achieve the success that you were capable of all along.

Destination Branding Nigel Morgan,Annette Pritchard,Roger Pride,2007-06-07 In today's highly competitive market, many destinations - from individual resorts to countries - are adopting branding techniques similar to those used by 'Coca Cola', 'Nike' and 'Sony' in an effort to differentiate their identities and to emphasize the uniqueness of their product. By focusing on a range of global case studies, Destination Branding demonstrates that the adoption of a highly targeted, consumer research-based, multi-agency 'mood branding' initiative leads to success every time.

It also describes the impact that the internet has had on both marketing and hospitality, using a variety of tools including a wide range

of internet learning activities. This 3rd Edition has been updated to include: Coverage of hot topics such as use of technology and social media, power of the consumer and effect on decision making, innovations in product design and packaging, ethical marketing and sustainability marketing Updated online resources including: power point slides, test bank of questions, web links and additional case studies New and updated international case studies looking at a broad range of hospitality settings such as restaurants, cafes and hotels New discussion questions to consolidate student learning at the end of each chapter.

UAE and the Gulf George Katodrytis, Kevin Mitchell, 2015-03-30 At the end of the 20th century, Dubai attracted international media attention as the world sought to make sense of the city's extraordinary growth. Exuberant projects such as the Burj Arab, the Burj Khalifa and the Palm Islands attracted investment in dreams to transform the region. While the global financial crisis kept dreams from becoming reality, this issue of AD seeks to present a view of architecture and urbanism in the United Arab Emirates (UAE) and other states in the wider Gulf Cooperation Council (GCC) at a time when greater economic stability promises new beginnings. The issue presents examples of architecture that transcends preoccupation with fabricating images, and traces the process of making contemporary Gulf cities, from material tectonics to large-scale masterplans. By presenting the architecture of UAE and the Gulf within the context of broader regional developments and global trends, it highlights how projects in the UAE, Qatar, Kuwait and Saudi Arabia have contributed to unprecedented urban growth, while emphasising the continuing environmental challenges of building in the region. In addition to highlighting various sustainable initiatives intended to counteract these challenges, the issue also explores how computational design and new technologies are being innovatively employed to mitigate the impact of arid climates. Contributors include: Ameena Ahmadi, Kelly Hutzell, Varkki Pallathucheril, Todd Reisz, Rami el Samahy, Terri Meyer Boake, Jeffrey Willis. International architects: Foster + Partners, Frank Gehry, HOK, IM Pei, Legoretta + Legoretta, Jean Nouvel, Reiser + Umemoto, Allies and Morrison. Regional architects: AGi (Kuwait), DXB.lab (UAE), X Architects (UAE).

Confessions of the Pricing Man Hermann Simon, 2015-10-20 The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer. In all walks of life, we constantly make decisions about whether something is worth our money or our time, or try to convince others to part with their money or their time. Price is the place where value and money meet. From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store, price is the most powerful and pervasive economic force in our day-to-day lives and one of the least understood. The recipe for successful pricing often sounds like an exotic cocktail, with equal parts psychology, economics, strategy, tools and incentives stirred up together, usually with just enough math to sour the taste. That leads managers to water down the drink with hunches and rules of thumb, or leave out the parts with which they don't feel comfortable. While this makes for a sweeter drink, it often lacks the punch to have an impact on the customer or on the business. It doesn't have to be that way, though, as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes. A world-renowned speaker on pricing and a trusted advisor to Fortune 500 executives, Simon's lifelong journey has taken him from rural farmers' markets, to a distinguished academic career, to a long second career as an entrepreneur and management consultant to companies large and small throughout the world. Along the way, he has learned from Nobel Prize winners and leading management gurus, and helped countless managers and executives use pricing as a way to create new markets, grow their businesses and gain a sustained competitive advantage. He also learned some tough personal lessons about value, how people perceive it, and how people profit from it. In this engaging and practical narrative, Simon leaves nothing out of the pricing cocktail, but still makes it go down smoothly and leaves you wanting to learn more and do more—as a consumer or as a business person. You will never look at pricing the same way again.

Tourism in Africa Iain Christie, Eneida Fernandes, Hannah Messerli, Louise Twining-Ward, 2014-06-19 This book presents how tourism initiates economic development and how constraints to the growth of

tourism in Sub-Saharan Africa can be addressed. With 24 case studies that illustrate tourism development, it reveals that despite destination challenges, the basic elements needed to initialize or intensify success are applicable across the region.

The Management of Tourism Lesley Pender, Richard Sharpley, 2005 This text provides detailed coverage of the breadth of issues involved in the management of tourism businesses. It explains and supports fundamental business management aspects whilst examining specific techniques required for the successful management of a variety of tourism businesses.

McMafia Misha Glenny, 2009-01-19 Drugs, weapons, migrant labour, women — these are just a few of the many goods that effortlessly cross national borders in this globalized age, often without the knowledge or permission of the nations concerned. How is this remarkable criminal feat managed? From gun runners in the Ukraine, to money launderers in Dubai, cyber criminals in Brazil, racketeers in Japan, and the booming marijuana industry in western Canada, McMafia builds a breathtaking picture of a secret and bloody business. Internationally celebrated writer Misha Glenny crafts a fascinating, highly readable, and impressively well-researched account of the emergence of organized crime as a globalized phenomenon and shows how its secret and bloody business mirrors both the methods and the rewards of the legitimate world economy. Employing his journalistic talent and his prior experience covering organized crime in Eastern Europe, Glenny reports on his travels around the planet to investigate this worrying and worsening situation. After comprehensively surveying the criminal scene, Glenny ends by considering the future of organized crime. McMafia is an important book that assembles all the pieces of this worldwide puzzle for the first time.

The Best Boston Sports Arguments James Caple, Steve Buckley, 2006-11-01 Every Boston fan knows that the only thing better than watching sports is arguing about them--picking the best, the worst and who will come out on top. And no city tears its sports teams apart like we do in Beantown! Veteran Boston sportswriters Steve Buckley and Jim Caple take you inside the 100 best debates in Boston sports. Covering the Red Sox, Celtics, Patriots, Bruins and beyond, every question you want to debate is here--as well as a few surprises. Arguments include: Who was the greatest Boston athlete ever: Russell, Bird or Brady? Boston: Football town or baseball town? Was freezing Ted Williams really all that crazy? The greatest clutch performer in Bruins history: Was it Orr, or was it...? Which Yankees loss was more painful? Dent or Boone? Who was better, Ted or DiMaggio?

Migration, Urbanity and Cosmopolitanism in a Globalized World Catherine Lejeune, Delphine Pagès-El Karoui, Camille Schmoll, Hélène Thiollet, 2021-05-10 This open access book draws a theoretically productive triangle between urban studies, theories of cosmopolitanism, and migration studies in a global context. It provides a unique, encompassing and situated view on the various relations between cosmopolitanism and urbanity in the contemporary world. Drawing on a variety of cities in Latin America, Europe, Asia, Africa and North America, it overcomes the Eurocentric bias that has marked debate on cosmopolitanism from its inception. The contributions highlight the crucial role of migrants as actors of urban change and targets of urban policies, thus reconciling empirical and normative approaches to cosmopolitanism. By addressing issues such as cosmopolitanism and urban geographies of power, locations and temporalities of subaltern cosmopolites, political meanings and effects of cosmopolitan practices and discourses in urban contexts, it revisits contemporary debates on superdiversity, urban stratification and local incorporation, and assess the role of migration and mobility in globalization and social change.

Urban Megaprojects Gerardo del Cerro Santamaria, 2013-06-06 This book discusses the economic and political conditions that facilitate megaproject implementation and what are the impacts on urbanity and livability of such costly mode of urban development. It includes contributions from sociologists, planners, geographers and architects making it a truly multidisciplinary project.

Stories of Capitalism Stefan Leins, 2018-01-29 The financial crisis and the recession that followed caught many people off guard, including experts in the financial sector whose jobs involve predicting market fluctuations. Financial analysis offices in most international banks are supposed to forecast the rise or fall of stock prices, the success or failure of investment products, and even the growth or decline of entire national economies. And yet their predictions are heavily disputed. How do

they make their forecasts—and do those forecasts have any actual value? Building on recent developments in the social studies of finance, *Stories of Capitalism* provides the first ethnography of financial analysis. Drawing on two years of fieldwork in a Swiss bank, Stefan Leins argues that financial analysts construct stories of possible economic futures, presenting them as coherent and grounded in expert research and analysis. In so doing, they establish a role for themselves—not necessarily by laying bare empirically verifiable trends but rather by presenting the market as something that makes sense and is worth investing in. *Stories of Capitalism* is a nuanced look at how banks continue to boost investment—even in unstable markets—and a rare insider's look into the often opaque financial practices that shape the global economy.

Diagrid Structures Terri Meyer Boake, 2014-01-23 Diagrids are load-bearing structures made of steel diagonal grids. They were first used in the great buildings of the turn of the millennium, such as the Swiss Re Tower in London ("The Gherkin") and the Hearst Magazine Tower in New York City. Diagrids owe their ensuing popularity not only to their stunning aesthetic value, but also to their very tangible benefits: lateral loading capacity, a massive saving of material, a significant gain in open, usable floor area, and increased flexibility. At its opening in 2014, the Leadenhall Building in London will be the first skyscraper without a bearing inner core—thanks to a diagrid structure. This book explains comprehensively for the first time all of the aspects involved in this new bearing structure. The author, experienced in teaching, research, and practice (recent publication: *Understanding Steel Design. An Architectural Design Manual*, 2011), has tracked the development of this technology from its beginnings and employs photographic documentation of the construction phases of many diagrid structures.

Tomorrow's Tourist: Scenarios & Trends Ian Yeoman, 2009-06-04 By 2030, China will be the world's largest tourism destination, holidays in Outer Space will be the ultimate luxury experience, extreme Swedish ironing will be an Olympic Sport, embedded technologies will be the norm in future tourists and skiing in the Alps will be no more. These are some of the changes that will occur between now and 2030 that will change world tourism. *Tomorrows Tourist: Scenarios & Trends* enables readers to imagine what a future tourist might be, where they will go and what they will do. This is the most comprehensive analysis of how world tourism is changing and what it means for destinations. Each chapter consists of a scenario about a future tourist, which is then backed up with evidence and trends plus a number of assumptions about the future. The book is accompanied by its own website at <http://www.tomorrowstourist.com> which is owned and regularly updated by the author.
