Submarines of the Imperial Japanese Navy Dorr Carpenter, Norman Polmar, 1986

Operation Rising Sun David W. Jourdan, James P. Delgado, 2020-06-01 In 1944 Allied codebreakers learned the Imperial Japanese Navy had dispatched the cargo submarine I-52 to occupied France with tons of military supplies and payment--in gold--for German assistance. I-52 undertook the mission as part of the Yanagi missions, a military program meant to alleviate Japan's desperate need for military material and technical knowledge. After tracking I-52 from Asia to the Atlantic, the Allies destroyed the vessel in a battle that ended the Yanagi missions and left I-52 an unlikely treasure ship on the seafloor. David W. Jourdan adds to the history of I-52 with a spellbinding account of his efforts to find the sunken submarine. One of the first joint American-Russian research expeditions, the search for the wreck combined a team effort, exhaustive detective work, and a dramatic battle with the sea. The effort paid off when the group found I-52's nearly intact hull three miles down. The expedition also earned an unexpected historical dividend when it uncovered one-of-a-kind recordings of American Avenger torpedo bomber attacks on an enemy submarine. Part war tale and part seagoing adventure, *Operation Rising Sun* tells the story of the two very different missions to find submarine I-52.

The U.S.-Singapore Free Trade Agreement Eul-Soo Pang,2011 Free trade has become the mantra of development strategy for many countries in the world, especially those in the Asia Pacific. This book delves into the American side of the story. It is about how Singapore and the United States came to sign the agreement in 2003 (taking effect from 1 January 2004). The United States - Singapore Free Trade Agreement (USSFTA) is the first FTA that America signed with an Asian country and the second such agreement with a fully developed country, after Canada. The city-state has used a free trade agreement as both a national survival and a growth strategy, first forging such FTA ties with its major trading partners and then expanding its strategic link to such extra-regional great powers as the United States, Japan, Australia, China, India, and the European Union. Both Singapore and the United States saw in FTAs something more than just merchandise trade.

West of 98 Lynn Stegner, Russell Rowland, 2012-07-25 What does it mean to be a westerner? With all the mythology that has grown up about the American West, is it even possible to describe how it was, how it is, here, in the West—just that, in the words of Lynn Stegner? Starting with that challenge, Stegner and Russell Rowland invited several dozen members of the western literary tribe to write about living in the West and being a western writer in particular. *West of 98* gathers sixty-six literary testimonies, in essays and poetry, from a stellar collection of writers who represent every state west of the 98th parallel—a kind of Greek chorus of the most prominent voices in western literature today, who seek to characterize the West as each of us grew to know it, and, equally important, the West that is still becoming. In *West of 98*, western writers speak to the ways in which the West imprints itself on the people who live there, as well as how the people of the West create the

personality of the region. The writers explore the western landscape—how it has been revered and abused across centuries—and the inescapable limitations its aridity puts on all dreams of conquest and development. They dismantle the boosterism of manifest destiny and the cowboy and mountain man ethos of every-man-for-himself, and show instead how we must create new narratives of cooperation if we are to survive in this spare and beautiful country. The writers seek to define the essence of both actual and metaphoric wilderness as they journey toward a West that might honestly be called home. A collective declaration not of our independence but of our interdependence with the land and with each other, *West of 98* opens up a whole new panorama of the western experience.

From Sawdust to Stardust Terry Lee Rioux, 2005-02-28 In the forty-year history of *Star Trek*®, none of the television show's actors are more beloved than DeForest Kelley. His portrayal of Leonard Bones McCoy, the southern physician aboard the *Starship Enterprise*™, brought an unaffected humanity to the groundbreaking space frontier series. Jackson DeForest Kelley came of age in Depression-era Georgia. He was raised on the sawdust trail, a preacher's kid steeped in his father's literal faith and judgment. But De's natural artistic gifts called him to a different way, and a visit to California at seventeen showed a bright new world. Theater and radio defined his early career -- but it was a World War II training film he made while serving in the Army Air Corps that led to his first Paramount Studios contract. After years of struggle, his lean, weathered look became well known in notable westerns and television programs such as *You Are There* and *Bonanza*. But his work on several pilots for writer-producer Gene Roddenberry changed his destiny and the course of cultural history. This thoroughly researched actor's life is about hard work and luck, loyalty and love. It is a journey that takes us all...from sawdust to stardust.

Sydney's Century Peter Spearritt, 2000 In this lively portrait of Sydney's development, Peter

Spearritt traces a century in the life of the city - from the celebrations of the Federation of Australia in 1901 to the 2000 Olympic Games. He describes the extra-ordinary growth of the city and its sprawling suburbs, and the transition from a port and a manufacturing center to an international financial hub.
