Strangers on a Bridge James Donovan 2015-08-04 The #1 New York Times bestseller and subject of the acclaimed major motion picture *Bridge of Spies* directed by Steven Spielberg, starring Tom Hanks as James B. Donovan. Originally published in 1964, this is the “enthraling...truly remarkable” (The New York Times Book Review) insider account of the Cold War spy exchange—with a new foreword by Jason Matthews, New York Times bestselling author of *Red Sparrow* and *Palace of Treason*. In the early morning of February 10, 1962, James B. Donovan began his walk toward the center of the Glienicke Bridge, the famous “Bridge of Spies” which then linked West Berlin to East. With him, walked Rudolf Ivanovich Abel, master spy and for years the chief of Soviet espionage in the United States. Approaching them from the other side, under equally heavy guard, was Francis Gary Powers, the American U-2 spy plane pilot famously shot down by the Soviets, whose exchange for Abel Donovan had negotiated. These were the strangers on a bridge, men of East and West, representatives of two opposed worlds meeting in a moment of high drama. Abel was the most

gifted, the most mysterious, the most effective spy in his time. His trial, which began in a Brooklyn United States District Court and ended in the Supreme Court of the United States, chillingly revealed the methods and successes of Soviet espionage. No one was better equipped to tell the whole absorbing history than James B. Donovan, who was appointed to defend one of his country’s enemies and did so with scrupulous skill. In *Strangers on a Bridge*, the lead prosecutor in the Nuremberg Trials offers a clear-eyed and fast-paced memoir that is part procedural drama, part dark character study and reads like a noirish espionage thriller. From the first interview with Abel to the exchange on the bridge in Berlin—and featuring unseen photographs of Donovan and Abel as well as trial notes and sketches drawn from Abel’s prison cell—here is an important historical narrative that is “as fascinating as it is exciting” (The Houston Chronicle).

The Cult of Smart Fredrik deBoer 2020-08-04 Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

Elephant Man Bernard Pomerance 2007-12-01 "An enthralling and luminous play" about the nineteenth-century man whose physical deformity doomed him to the life of an outcast: "haunting [and] splendid" (The New York Times). *The Elephant Man* is based on the life of John Merrick, who lived in London during the latter part of the nineteenth century. A horribly deformed young man, a freak attraction in traveling side shows, is found abandoned and helpless and is admitted for observation to Whitechapel, a

prestigious London hospital. Under the care of a famous young doctor who educates him and introduces him to London society, Merrick changes from a sensational object of pity to the urbane and witty favorite of the aristocracy and literati. But his belief that he can become a man like any other is a dream never to be realized. After premiering in London, *The Elephant Man* went on to Broadway where it won the Tony for Best Play in 1979. It was later revived in a Broadway production starring Bradley Cooper. "The Elephant Man is a moving drama. Lofted on poetic wings, it nests on the human heart." —Time Magazine

The Afghanistan Papers Craig Whitlock 2021-08-31 A Washington Post Best Book of 2021 The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump

administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains "fast-paced and vivid" (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to meet with him. Secretary of Defense Donald Rumsfeld admitted that he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a "searing indictment of the deceit, blunders, and hubris of senior military and civilian officials" (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

In this landmark, bestselling assessment tracing the roots of America's escalating crisis in education, Jane M. Healy, Ph.D., examines how television, video games, and other components of popular culture compromise our children's ability to concentrate and to absorb and analyze information. Drawing on

neuropsychological research and an analysis of current educational practices, Healy presents in clear, understandable language: -- How growing brains are physically shaped by experience -- Why television programs -- even supposedly educational shows like Sesame Street -- develop "habits of mind" that place children at a disadvantage in school -- Why increasing numbers of children are diagnosed with attention deficit disorder -- How parents and teachers can make a critical difference by making children good learners from the day they are born

Iron John Robert Bly 2020 "In this timeless and deeply learned classic, poet and translator Robert Bly offers nothing less than a new vision of what it means to be a man. Bly's vision is based on his ongoing work with men, as well as on reflections on his own life. He addresses the devastating effects of remote fathers and mourns the disappearance of male initiation rites in our culture. Finding rich meaning in ancient stories and legends, Bly uses the Grimm fairy tale "Iron John"--In which a mentor or "Wild Man" guides a young man through eight stages of male growth--to remind us of ways of knowing long forgotten, images of deep and vigorous masculinity centered in feeling and protective of the young. At once down-to-earth and elevated, combining the grandeur of myth with the practical and often painful lessons of our own histories, Iron John is an astonishing work that will continue to guide and inspire men-and women-for years to come"--

Bad Boy Walter Dean Myers 2009-10-06 A classic memoir that's gripping,

funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called "bad boy" in Harlem in the 1940s. As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time.

'Tis Herself Maureen O'Hara 2022-10-25 A first-ever revealing and candid

look at the life and career of one of Hollywood's brightest and most beloved stars, Maureen O'Hara. In an acting career of more than seventy years, Hollywood legend Maureen O'Hara came to be known as "the queen of Technicolor" for her fiery red hair and piercing green eyes. She had a reputation as a fiercely independent thinker and champion of causes, particularly those of her beloved homeland, Ireland. In *'Tis Herself*, O'Hara recounts her extraordinary life and proves to be just as strong, sharp, and captivating as any character she played on-screen. O'Hara was brought to Hollywood as a teenager in 1939 by the great Charles Laughton, to whom she was under contract, to costar with him in the classic film *The Hunchback of Notre Dame*. She has appeared in many other classics, including *How Green Was My Valley*, *Rio Grande*, *The Quiet Man*, and *Miracle on 34th Street*. She recalls intimate memories of working with the actors and directors of Hollywood's Golden Age, including Laughton, Alfred Hitchcock, Tyrone Power, James Stewart, Henry Fonda, and John Candy. With characteristic ~~Frank Bilsop~~ *Frank Bilsop* describes her tense relationship with the mercurial director John Ford, with whom she made five films, and her close lifelong friendship with her frequent costar John Wayne. Successful in her career, O'Hara was less lucky in love until she met aviation pioneer Brigadier General Charles F. Blair, the great love of her life, who died in a mysterious plane crash ten years after their marriage. Candid and revealing, *'Tis Herself* is an autobiography as witty and spirited as its author.
