**Meagan Marie**

**Airborn** Kenneth Oppel, 2004-05-11 Sailing toward dawn, and I was perched atop the crow's nest, being the ship's eyes. We were two nights out of Sydney, and there'd been no weather to speak of so far. I was keeping watch on a dark stack of nimbus clouds off to the northwest, but we were leaving it far behind, and it looked to be smooth going all the way back to Lionsgate City. Like riding a cloud. . . . Matt Cruse is a cabin boy on the Aurora, a huge airship that sails hundreds of feet above the ocean, ferrying wealthy passengers from city to city. It is the life Matt's always wanted; convinced he's lighter than air, he imagines himself as buoyant as the hydrium gas that powers his ship. One night he meets a dying balloonist who speaks of beautiful creatures drifting through the skies. It is only after Matt meets the balloonist's granddaughter that he realizes that the man's ravings may, in fact, have been true, and that the creatures are completely real and utterly mysterious. In a swashbuckling adventure reminiscent of Jules Verne and Robert Louis Stevenson, Kenneth Oppel, author of the best-selling Silverwing trilogy, creates an imagined world in which the air is populated by transcontinental voyagers, pirates, and beings never before dreamed of by the humans who sail the skies.

Airborn Kenneth Oppel, 2005 An exciting adventure story set in the air and on the high seas “complete with feisty hero and heroine, pirates, tropical islands, high-speed chases, narrow escapes and much more ...

*Kenneth Oppel Airborn Series: Three-Book Bundle*

Kenneth Oppel, 2014-12-02 In *Airborn*, enter a past in which airplanes have never been invented, giant airships rule the skies and the glittering skyscrapers of Lionsgate City, Canada's greatest metropolis, rise near the Pacificus Ocean. When Matt Cruse, the cabin boy on the luxury airship *Aurora*, fearlessly performs a dramatic rescue to save an old man from his damaged hot air balloon, he doesn't know what events he's setting in motion. Will he and the balloonist's fiery granddaughter, Kate de Vries, be able to solve the mystery of impossible flying creatures seen among the clouds? And will they figure it out before pirates and shipwreck end their voyage forever? Pushed high into the sky by a storm over the Indian Ocean, the decrepit training ship *Flotsam* makes an astonishing discovery before being forced to descend. Adrift at 20,000 feet is a tattered, ice-crusting airship bearing the name *Hyperion*. Could it really be the legendary lost craft, now a vast treasure and a frozen mausoleum to a ghostly crew? Matt Cruse is the only member of *Flotsam*'s oxygen-starved crew able to remember the ghost ship's coordinates—and it seems as if everyone in the fabulous city of Paris wants them. In *Skybreaker*, Matt and Kate de Vries are challenged with another thrilling adventure, this time among the icy dangers and strange wonders of the upper atmosphere. At long last, Matt Cruse is at the helm. Though it's only a summer job piloting a humble aerocrane, he's thrilled to be helping to build the *Celestial Tower*, Paris's extraordinary gateway to outer space. But Matt's idyllic summer

is short-lived. He narrowly survives a deadly attack by the fanatical Babelites, who are opposed to humans reaching the heavens. Worse still, his nights spent stargazing with Kate de Vries must end when she's summoned back to Lionsgate City by her parents. But then the chance of a lifetime boosts Matt's hopes of being airborne once more. Canada wants to reach space first, and the Canadian Minister of Air has asked Kate to join the first expedition as an expert on aerial zoology. There's a place for Matt, too—if he can pass the gruelling tests to become one of the world's first astralnauts on board the incredible ship Starclimber.

**Starclimber** Kenneth Oppel, 2009-10-06 Mr. Cruse, how high would you like to fly? A smile soared across my face. As high as I possibly can. Pilot-

in-training Matt Cruse and Kate de Vries, expert on high-altitude life-forms, are invited aboard the Starclimber, a vessel that literally climbs its way into the cosmos. Before they even set foot aboard the ship, catastrophe strikes: Kate announces she is engaged—and not to Matt. Despite this bombshell, Matt and Kate embark on their journey into space, but soon the ship is surrounded by strange and unsettling life-forms, and the crew is forced to combat devastating mechanical failure. For Matt, Kate, and the entire crew of the Starclimber, what began as an exciting race to the stars has now turned into a battle to save their lives. Award-winning and bestselling author Kenneth Oppel brings us back to a rich world of flight and fantasy in this breathtaking new sequel to *Airborn* and *Skybreaker*.

**Skybreaker** Kenneth Oppel, 2009-09-22 A legendary ghost ship. An incredible treasure. A death-defying adventure. Forty years ago, the airship Hyperion vanished with untold riches in its hold. *Queen Victoria's Bomb* Ronald Clark, 2013-05-14 A sudden intolerably bright fireball lights up a remote and deserted Indian plateau. Searing heat melts rock into incandescent pools of glowing liquid. The earth heaves. A monstrous thunderclap of sound reverberates over the land. An ominous mushroom-shaped cloud boils skywards. For years afterwards, strange plants and even stranger human mutants are discovered in the area, warped spawn of a mysterious and deadly force. Just another atomic test? Not exactly. Because it was Professor Huxtable's brainchild. And the professor is one of the most devoted and loyal servants of Queen Victoria?

Darkwing Kenneth Oppel, 2011-11-15 Before there were bats like Shade, Marina or even Goth, there was a young chiropter—a small arboreal glider—named Dusk. . . . It is 65 million years ago, during a cataclysmic moment in the earth's evolution, and Dusk, just months old, has no way

of knowing he will play a pivotal role in creating a new world. What he does know is that he is different from the other newborn chiropters. Not content to use his large sails to glide down from the giant sequoia tree, Dusk discovers that if he flaps quickly enough, he can fly. But this strange gift that makes him feel like an outcast from the colony will also make him its saviour. After most of the colony is savagely massacred by the felids—the earth's first mammalian carnivores—Dusk must lead his fellow chiropters to a new home, and a new life. Against a tableau of disappearing dinosaurs and the ascent of the mammal kingdom, Oppel has created an adventure fantasy that sets the stage for the birth of the bats, the story of the forebears of Shade, the beloved hero of the Silverwing series. As with all Silverwing books, it is impossible to simply read Oppel's Darkwing; each of us enters a world of convincing characters, warring theologies, incredible natural history and a story that roars through head, heart and imagination. A tale that can be read as a stand-alone or as a prequel, Darkwing will be a welcome new classic for the millions of Kenneth Oppel fans.

**Kumba Africa** Sampson Ejike Odum, 2020-11-03  
'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In

everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.
