Master Potter of Meiji Japan Moyra Clare Pollard,2002 This is the first book in a European language to make a comprehensive study of the life and works of the astonishingly versatile and accomplished Meiji potter, Makuzu Kozan (1842 - 1916), who was acclaimed as one of the greatest ceramic artists of the Meiji period. The Meiji period, after the opening of Japan to the West in the mid-nineteenth century, was a time of momentous change for Japanese society and Kozan's Makuzu workshop makes an ideal case study to examine the effects of these changes on the Japanese ceramic industry. This book tells the story of Kozan's Makuzu wares from their origins in a traditional workshop in Kyoto to their maturity in a prolific factory in the newly-opened port of Yokohama, where Kozan's ability to cater to the demands of a new Western export market and to incorporate new Western glaze techniques led to enormous success, both in Japan and abroad at the international exhibitions that flourished from the 1850s. Lavish illustrations highlight Kozan's remarkable and technical and artistic achievements, while ceramic marks and box inscriptions are analysed as a practical guide to dating Makuzu ware. Clare Pollard discusses the role of later generations of the Miyagawa family in the running of the workshop and relates developments in Makuzu ware to the work of other major potters of the era, both in Japan and in Europe and America. Incorporating contemporary sources (including previously unstudied archival material from the Makuzu workshop itself), recent research and the study of a large corpus of Makuzu wares in museums and private collections all over the world, the book examines the artistic, political, and commercial factors that influenced Kozan and his contemporaries as they strove to come to terms with shifting life-styles and changing attitudes to the arts, and moved towards the creation of a modern ceramic industry.

Japan and Britain after 1859 Olive Checkland,2003-08-29 In the years following Japan's long period of self-imposed isolation from the world, Japan developed a new relationship with the West, and especially with Britain, where relations grew to be particularly close. The Japanese, embarrassed by their perceived comparative backwardness, looked to the West to learn modern industrial techniques, including the design and engineering skills which underpinned them. At the same time, taking great pride in their own culture, they exhibited and sold high quality products of traditional Japanese craftsmanship in the West, stimulating a thirst for, and appreciation of, Japanese arts and crafts. This book examines the two-way bridge-building cultural exchange which took place between Japan and Britain in the years after 1859 and into the early years of the twentieth century. Topics covered include architecture, industrial design, prints, painting and photographs, together with a consideration of Japanese government policy, the Japan-Britain Exhibition of 1910, and commercial spin-offs. In addition, there are case studies of key individuals who were particularly influential in fostering British-Japanese cultural bridges in this period.

The Potter's Brush Richard L. Wilson,Saeko Ogasawara,Freer Gallery of Art,2001-01-01 Ogata Kenzan (1663-1743) is regarded as Japan's greatest ceramic artist. The Potter's Brush is an exploration of the development of Kenzan's distinctive pottery, as well as the work of his successors who appropriated his designs. Lavishly illustrated throughout, The Potter's Brush shows how nearly two centuries of innovation produced one of the first 'designer brands', and will appeal to ceramicists, collectors and lovers of Japanese art.

Chinese and Japanese Porcelain for the Dutch Golden Age Jan van Campen,Titus M. Eliëns,2014 Central to this publication is the question as to which porcelain reached the Netherlands in the 17th century and how it was esteemed. Following the publication of several Dutch-language books connected to various exhibitions, all contributors to this book have long wanted to step beyond this limited scope with an international publication that contributed to the global research field of Chinese ceramics. Thirteen authors, both within and outside the Netherlands, elucidate the different sides of this topic. Although it ultimately is the history of how it was received – what was valued and why – a broad range of viewpoints have been chosen in order to answer those two questions adequately.--

The Beauty of Everyday Things Soetsu Yanagi,2019-01-31 The daily lives of ordinary people are replete with objects, common things used in commonplace settings. These objects are our constant companions in life. As such, writes Soetsu Yanagi, they should be made with care and built to last, treated with respect and even affection. They should be natural and simple, sturdy and safe - the aesthetic result of wholeheartedly fulfilling utilitarian needs. They should, in short, be things of beauty. In an age of feeble and ugly machine-made things, these essays call for us to deepen and transform our relationship with the objects that surround us. Inspired by the work of

the simple, humble craftsmen Yanagi encountered during his lifelong travels through Japan and Korea, they are an earnest defence of modest, honest, handcrafted things - from traditional teacups to jars to cloth and paper. Objects like these exemplify the enduring appeal of simplicity and function: the beauty of everyday things.
