M151 MUTT David Doyle,2015 The M151 was intended as a lightweight, high-mobility replacement for the M38A1, itself a successor to the famed WWII jeep. Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Art of the Jeep Jerome Hadacek,2012-03-29 The Jeep, despite its small engine and public underestimation, represents the most well known example of an American manufacturer's success at making the transition from war propaganda to mainstream popular advertising. Made famous by the appearance of a few articles, images of the Jeep could be found everywhere: on stationary, match boxes, playing cards, and appeared to invade America and then the world. The firm Willys further strengthened the phenomenon by inundating the press with large format color advertisements in order to compete with Bantam, the original maker of the engine. While the group was in reality too small to tackle both the demand of this project and the needs of their major client Ford, Willys was nevertheless able to dominate the publicity about the all terrain vehicle by devoting excellent illustrators to the job. Given the firm's success, the image of the Jeep was thus highly exploited and used in other campaigns advertising the promotion of other products, personnel recruitment, as well as a variety of other items. Organized by product, Hadacek's work gathers together a superb collection of illustrations and material, retracing an entire period focused on a vehicle that initially went unnoticed but quickly became a major symbol of postwar ingenuity.

THE 3-SHIPS OF SUCCESS MacArthur Burton, 2013-01-28 No matter what format your business may take, sole proprietor, partnership, corporation, etc., there are three ships that you must become intimately familiar with; leadership, followership, and relationship. The 3-Ship of Success is a powerful message on the importance of each ship individually and collectively, and provided positive, succinct insight on how to navigate the waters of business on each ship in order to be successful. You will gain a new understanding of what the expectations of a leader truly are, the true importance of the follower and why care must be given in the selection & training of the follower, and the make & break activities of the all important relationship. "As a retired senior naval officer, I know a little something about ships. The analogies Mac draws with the 3-Ships are some of the most practical and powerful you will come across. No matter what your level of business, you need this book! No nonsense, to the point, sometimes humorous, but always in your face, this book is an instant winner! Richard McNeil, Financial Strategist "During the reading of Mac's book I discovered that he did not try to introduce any new theory that readers had to experience. He

simply laid out a path for anyone to follow to be successful. His information is sound, and it paints a picture for all viewers to see a straight, no thrills, no catch praise, no magic bullet scene. I encourage you to gain knowledge from this short, powerful, and clearly expressed writing.” PhD Larry D. Palmer, Sr., Bishop, Israel Total Life Ministries “When I first heard Mack describes his concept of the 3-Ships I was amazed at the simplicity of the way it was presented. I immediately realized the ease of application especially in a training environment for business leaders. This one is a winner!” Al Collins – Senior Corporate Trainer
